ExamREVIEW,2013-01-18  
The Microsoft Technology Associate MTA certification is an entry level certification which serves as a good starting point for students and educators who may eventually progress to the Microsoft Technology Specialist MCTS or higher programs  
Simply put it assesses the foundational knowledge necessary to pursue MCTS MCITP or MCPD certifications  
The certification focuses more on knowledge and a little less on skills  
However the knowledge areas are all based on MS products so you must know those products inside and out  
Questions on the general knowledge are relatively easy  
Product and technology specific technical questions however are way more difficult  
This is why we developed this study product we focus on those difficult topics that involve difficult technical skills  
We want you to be able to answer these difficult questions and secure exam success accordingly
