**Geriatric Home-Based Medical Care** Jennifer L. Hayashi, Bruce Leff, 2015-12-09 This book is a practical reference for any clinician who has struggled to care for an older adult in a home setting. The volume is written by experts in the field who describe fundamental principles and clinical approaches of geriatric home based care and their application to specific diseases and conditions including delirium, incontinence, falls, and chronic pain and disability. The book also details house calls for special populations from the developmentally disabled to those afflicted with neurologic or psychiatric diseases. The volume explores house calls within the context of the US healthcare system. *Geriatric Home Based Medical Care: Principles and Practice* is a valuable resource for geriatricians, geriatric nurses, primary care physicians, social workers, public health officials, and all medical professions who need tools to provide timely, compassionate, and high quality care for their older adult patients.

**InterRAI Home Care (HC) Assessment Form and User's Manual** John Norman Morris, 2010 The interRAI HC Assessment System has been designed to be a user friendly, reliable, person centered system that informs and guides comprehensive planning of care and services for elderly and disabled persons in community based settings around the world. It focuses on the person's functioning and quality of life by assessing needs, strengths, and preferences. It also facilitates referrals when appropriate. When used on multiple occasions, it provides the basis for an outcome based assessment of the person's response to care or services. The interRAI HC Assessment System can be used to assess persons with chronic needs for care as well as with post acute care needs, e.g., after hospitalization or in a hospital at home situation.

Home Healthcare Services and Technology Implications Çapar, Haşim, Çakmak, Mehmet Aziz, 2025-08-12 As global populations age and healthcare demands shift, home healthcare is emerging as a vital model for delivering personalized, cost-effective care. Technological innovations are transforming how these services are designed, managed, and delivered. This transformation enhances the efficiency, accessibility, and responsiveness of care, especially in dispersed or high-need regions. At the same time, integrating advanced technologies raises critical considerations around equity, workforce development, and sustainable implementation. Addressing these dynamics is essential to shaping a resilient, inclusive, and future-ready healthcare system that meets evolving societal needs. *Home Healthcare Services and Technology Implications* explores the relationship between the development of home healthcare services and technological innovation in the field, addressing technological change and

transformation of the new world changes in population structure and related health needs Additionally it focuses on how artificial intelligence and new algorithms will shape the growing expectations of healthcare services Covering topics such as artificial intelligence people with disabilities and user interfaces this book is an excellent resource for academicians researchers marketing professionals human resources and training professionals health ministers hospital managers educators and more
