## **Exampler For Life Sciences 2014:**

**Exemplars, Imitation, and Character Formation** Eric Yang, 2024-08-22 This volume examines the role and relevance of exemplars and the practice of imitation in character development and formation While the role of exemplars and imitation in spiritual and moral formation has been an integral part of many religious and wisdom traditions in recent times there has been limited theological and philosophical investigation into it and a dearth of interdisciplinary discussion The book brings together relevant research and insights from leading experts within philosophy psychology and theology with a slight emphasis on Christian approaches to exemplars and imitation especially given the reflection on these themes throughout the history of the Christian intellectual and mystical tradition Many of the contributions display an interdisciplinary approach into these issues hence this volume will be of interest to philosophers psychologists theologians and others who work in moral psychology and character formation *Designing Effective Feedback Processes in Higher Education* Naomi Winstone, David Carless, 2019-06-27 Feedback is one of the most powerful influences on student achievement yet it is difficult to implement productively within the constraints of a mass higher education system *Designing Effective Feedback Processes in Higher Education A Learning Focused Approach* addresses the challenges of developing effective feedback processes in higher education combining theory and practice to equip and empower educators It places less emphasis on what teachers do in terms of providing commentary and more emphasis on how students generate make sense of and use feedback for ongoing improvement Including discussions on promoting student engagement with feedback technology enabled feedback and effective peer feedback this book Contributes to the theory and practice of feedback in higher education by showcasing new paradigm feedback thinking focused on dialogue and student uptake Synthesises the evidence for effective feedback practice Provides contextualised examples of successful innovative feedback designs analysed in relation to relevant literature Highlights the importance of staff and student feedback literacy in developing productive feedback partnerships Supports higher education teachers in further developing their feedback practice *Designing Effective Feedback Processes in Higher Education A Learning Focused Approach* contributes to the theory and practice of higher education pedagogy by re evaluating how feedback processes are designed and managed It is a must read for educators researchers and academic developers in higher education who will benefit from a guide to feedback research and practice that addresses well recognised challenges in relation to assessment and feedback *ECIE 2022 17th European Conference on Innovation and Entrepreneurship* Pantelis Sklias, Nikolaos Apostolopoulos, 2022-09-15 **Isotopic Landscapes in Bioarchaeology** Gisela Grupe, George C. McGlynn, 2016-03-10 This work takes a critical look at the current concept of isotopic landscapes isoscapes in bioarchaeology and its application in future research It specifically addresses the research potential of cremated finds a somewhat neglected bioarchaeological substrate resulting primarily from the inherent osteological challenges and complex mineralogy associated with it In addition for the first time data mining methods are applied The chapters are the outcome of

an international workshop sponsored by the German Science Foundation and the Centre of Advanced Studies at the Ludwig Maximilian University in Munich Isotopic landscapes are indispensable tracers for the monitoring of the flow of matter through geo ecological systems since they comprise existing temporally and spatially defined stable isotopic patterns found in geological and ecological samples Analyses of stable isotopes of the elements nitrogen carbon oxygen strontium and lead are routinely utilized in bioarchaeology to reconstruct biodiversity palaeodiet palaeoecology palaeoclimate migration and trade The interpretive power of stable isotopic ratios depends not only on firm testable hypotheses but most importantly on the cooperative networking of scientists from both natural and social sciences Application of multi isotopic tracers generates isotopic patterns with multiple dimensions which accurately characterize a find but can only be interpreted by use of modern data mining methods

**Trends in Teaching Experimentation in the Life Sciences** Nancy J. Pelaez, Stephanie M. Gardner, Trevor R. Anderson, 2022-05-11 This book is a guide for educators on how to develop and evaluate evidence based strategies for teaching biological experimentation to thereby improve existing and develop new curricula It unveils the flawed assumptions made at the classroom department and institutional level about what students are learning and what help they might need to develop competence in biological experimentation Specific case studies illustrate a comprehensive list of key scientific competencies that unpack what it means to be a competent experimental life scientist It includes explicit evidence based guidelines for educators regarding the teaching learning and assessment of biological research competencies The book also provides practical teacher guides and exemplars of assignments and assessments It contains a complete analysis of the variety of tools developed thus far to assess learning in this domain This book contributes to the growth of public understanding of biological issues including scientific literacy and the crucial importance of evidence based decision making around public policy It will be beneficial to life science instructors biology education researchers and science administrators who aim to improve teaching in life science departments Chapters 6 12 14 and 22 are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

**The Routledge Handbook of Mechanisms and Mechanical Philosophy** Stuart Glennan, Phyllis Illari, 2017-07-06 Scientists studying the burning of stars the evolution of species DNA the brain the economy and social change all frequently describe their work as searching for mechanisms Despite this fact for much of the twentieth century philosophical discussions of the nature of mechanisms remained outside philosophy of science The Routledge Handbook of Mechanisms and Mechanical Philosophy is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind Comprising over thirty chapters by a team of international contributors the Handbook is divided into four Parts Historical perspectives on mechanisms The nature of mechanisms Mechanisms and the philosophy of science Disciplinary perspectives on mechanisms Within these Parts central topics and problems are examined including the rise of mechanical philosophy in the seventeenth century what mechanisms are made of and how they are organized mechanisms and laws and

regularities how mechanisms are discovered and explained dynamical systems theory and disciplinary perspectives from physics chemistry biology biomedicine ecology neuroscience and the social sciences Essential reading for students and researchers in philosophy of science the Handbook will also be of interest to those in related fields such as metaphysics philosophy of psychology and history of science

**Anti-fibrotic Drug Discovery** Jehrod Brenneman, Malliga R Iyer, 2020-02-17 Fibrosis is a condition with globally high unmet medical need and as such is a highly active area of academic and pharmaceutical research covering multiple treatment targets organs tissues and therapeutic approaches Anti fibrotic Drug Discovery is a single source reference for the latest drug discovery approaches to tackle fibrosis in various tissues comprehensively covering recent success and future perspectives on emerging therapeutic intervention points The book highlights significant pre clinical and clinical drugs currently being developed globally for this disorder This book is ideal for postgraduate students and researchers with an interest in anti fibrotic drug discovery as well as clinicians specialising in liver kidney heart and lung disease in which fibrosis plays a key role in pathology

**Biological Collections** National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Board on Life Sciences, Committee on Biological Collections: Their Past, Present, and Future Contributions and Options for Sustaining Them, 2021-01-29 Biological collections are a critical part of the nation's science and innovation infrastructure and a fundamental resource for understanding the natural world Biological collections underpin basic science discoveries as well as deepen our understanding of many challenges such as global change biodiversity loss sustainable food production ecosystem conservation and improving human health and security They are important resources for education both in formal training for the science and technology workforce and in informal learning through schools citizen science programs and adult learning However the sustainability of biological collections is under threat Without enhanced strategic leadership and investments in their infrastructure and growth many biological collections could be lost Biological Collections Ensuring Critical Research and Education for the 21st Century recommends approaches for biological collections to develop long term financial sustainability advance digitization recruit and support a diverse workforce and upgrade and maintain a robust physical infrastructure in order to continue serving science and society The aim of the report is to stimulate a national discussion regarding the goals and strategies needed to ensure that U S biological collections not only thrive but continue to grow throughout the 21st century and beyond

**Religion and Family Life** Richard J. Petts, 2019-05-03 There has been increased interest among scholars in recent decades focused on the intersection of family and religion Yet there is still much that is not well understood in this area This aim of this special issue is to further explore the influence of religion on family life In particular this issue includes a collection of studies from leading scholars on religion and family life that focus on ways in which religion and spirituality may influence various aspects of family life including family processes family structure

family formation family dissolution parenting and family relationships The studies included incorporate both qualitative and quantitative analyses incorporate a number of different religious traditions focus on religiosity among both adults and youth and explore a number of important issues such as depression intimacy sexual behavior lying divorce and faith transmission

**Broadening Our Knowledge on Cluster Evolution** Dirk Fornahl, Robert Hassink, Max-Peter Menzel, 2018-02-02

Although clusters are regarded as important elements in economic development the strong focus in the literature on the way clusters function is contrasted with a disregard for their evolutionary development how clusters actually become clusters how and why they decline and how they shift into new fields and transform over time Although recently new cluster life cycle approaches emerged both empirical evidence and theoretical contributions on this topic are still limited This book therefore contributes to broadening our knowledge on the life cycle and evolution of clusters both empirically and theoretically It contains chapters on inter firm relations as drivers of cluster transformation as well as chapters on the heterogeneity of firms and firm capabilities during cluster evolution and on the role of institutions in stimulating the emergence and growth of clusters Case studies stem from different industries and technologies such as biogas film and television new media and medical technologies and from different countries such as Sweden Austria Switzerland and South Korea All chapters underline that cluster evolution does not only depend on internal dynamics but that external relations are an integral part of cluster dynamics This book was previously published as a special issue of European Planning Studies

**The Scientific Imagination** Arnon Levy, Peter Godfrey-Smith, 2020 This book looks at the role of the imagination in science from both philosophical and psychological perspectives These contributions combine to provide a comprehensive and exciting picture of this under explored subject

**Categoriality and continuity in prosodic prominence**

Simon Roessig, 2020-09-08 Prosody has been characterised as a half tamed savage being shaped by both discrete categorical aspects as well as gradient continuous phenomena This book is concerned with the relation of the wild and the tamed sides of prosodic prominence It reviews problems that arise from a strict separation of categorical and continuous representations in models of phonetics and phonology and it explores the potential role of descriptions aimed at reconciling the two domains In doing so the book offers an introduction to dynamical systems a framework that has been studied extensively in the last decades to model speech production and perception The reported acoustic and articulatory data presented in this book show that categorical and continuous modulations used to enhance prosodic prominence are deeply intertwined and even exhibit a kind of symbiosis A multi dimensional dynamical model of prosodic prominence is sketched based on the empirical data combining tonal and articulatory aspects of prosodic focus marking The model demonstrates how categorical and continuous aspects can be integrated in a joint theoretical treatment that overcomes a strict separation of phonetics and phonology
