**Charity Detox** Robert D. Lupton, 2015-07-07 The veteran urban activist and author of the revolutionary *Toxic Charity* returns with a headline making book that offers proven results oriented ideas for transforming our system of giving In *Toxic Charity* Robert D Lupton revealed the truth about modern charity programs meant to help the poor and disenfranchised While charity makes donors feel better he argued it often hurts those it seeks to help At the forefront of this burgeoning yet ineffective compassion industry are American churches which spend billions on dependency producing programs including food pantries But what would charity look like if we instead measured it by its ability to alleviate poverty and needs That is the question at the heart of *Charity Detox* Drawing on his many decades of experience Lupton outlines how to structure programs that actually improve the quality of life of the poor and disenfranchised He introduces many strategies that are revolutionizing what we do with our charity dollars and offers numerous examples of organizations that have successfully adopted these groundbreaking new models Only by redirecting our strategies and becoming committed to results he argues can charity enterprises truly become as transformative as our ideals *A Faithful Public-Prophetic Witness* Barry K. Morris, 2020-03-20 This book hails from decades of challenging trial and error work abundant reading and an enduring obligation to ministers activists and unsung lay heroes whose legacies matter As there is little that actually addresses the elusive meanings if not the dangers inherent in pursuing alleged spoils of success it is kairoi time Seemingly scarce resources and competition to make and maintain ministries in the city challenge those of us in the field or on the sidelines to speak write and communicate clearly and convincingly not only for ourselves and our people past and present but for those who come along soon to receive the baton or wear the mantle Concretely narrated with unique case studies a cast of dozens contribute their earthy earnest testimonies and are at long last energetically affirmed Specifically this work proffers constructive attention to the critical cautions concerning subtle temptations to succeed including commodification cooptation communalism clientelism and cowardice and not bailing on fierce charity justice tensions with benevolence protectively dominant Narrative analysis and biography as theology social ethics biblical theology and recent church history give apt attention to how a compelling case is possible for success if justice is practiced given a hopeful realism and perspective of prophetic eschatology [Decolonizing Mission Partnerships](#) Taylor Walters Denyer, 2020-06-26 We all know that healthy partnerships are essential to fruitful boundary crossing ministries but how exactly do we create them What barriers must be overcome and what self examination must we do How do the legacies of colonialism racism and unhealed trauma impact missional collaborations today In this doctoral thesis Denyer reflects on these questions as she examines the history of relational dynamics between American and Congolese United Methodists in the North Katanga Conference DR Congo By surveying memoirs magazines and journals and conducting in depth interviews Denyer presents a complex and multifaceted example of a partnership that is in the process of decolonizing More than just a history lesson *Decolonizing Mission*

Partnerships presents the questions hard truths pitfalls and toxic assumptions we must face when attempting to be in mission together

*Ethics of Charitable Food* Leire Escajedo San-Epifanio, Esther M. Rebato Ochoa, 2022-05-10 This book provides an in depth analysis of different dimensions of contemporary food charity It does so against the background of an increasing number of food banks and other forms of food philanthropy The book examines the incongruity of considering food donation as an expression of pure altruism Taking into account the dignity and rights of people it addresses how hunger is seen and explained in rich countries and how philanthropy and democracy coexist It looks at the relationship that exists between religious traditions and the current food donation narrative It discusses the risks of stigmatizing food recipients and clarifies ways to better deal with food poverty and food waste Paradoxically food insecurity and food waste have grown exponentially in the last decade More and more people are not able to access food properly The amount of perfectly edible food that is discarded also grows The consolidation of democracies welfare policies and economic growth do not guarantee that all citizens can meet their basic needs in the so called rich countries This book analyses the current state of affairs and presents facts and reflections from diverse sources and from a cross disciplinary perspective

**Hopeful Realism in Urban Ministry** Barry K. Morris, 2016-05-20 What pray tell does a faithful urban ministry require if not a triadic relationship of prayer justice and hope Could such a theologically conjunctive relationship of prayer justice and hope fortify urban ministry and challenge students and practitioners to ponder and practice beyond the box Frequently justice is collapsed to charity hope into wishful thinking or temporarily arrested despair and prayer a grasp at quick fix interventions An urban ministry s steadfast public and prophetic witness longs for the depth and width of this triad Via three countries decades of endeavors one chapter brainstorms urban ministry practices while another s literature survey signals crucial convictions Amid many seminal theologians are summoned to ground urban ministry intimations and implications Niebuhr on justice Moltmann on hope and Merton on contemplative prayer Evident is passion that fuels compassion in the service of justice hope that engages despair and prayer that draws from the contemplative center of it all thankful resources for long haul ministry The triad presses to illumine a concrete ministry s engagement of relentless forced option issues yet with significant networks resourcing Contrast awareness animates endurance The summary exegetes the original grace based serenity prayer Hence hope vitally balances realism s temptation to cynicism Realism saves hope from irrelevancy

Lupton, 2011-10-11 Veteran urban activist Robert Lupton reveals the shockingly toxic effects that modern charity has upon the very people meant to benefit from it Toxic Charity provides proven new models for charitable groups who want to help not sabotage those whom they desire to serve Lupton the founder of FCS Urban Ministries Focused Community Strategies in Atlanta the voice of the Urban Perspectives newsletter and the author of Compassion Justice and the Christian Life has been at the forefront of urban ministry activism for forty years Now in the vein of Jeffrey Sachs s *The End of Poverty* Richard Stearns s *The Hole in Our Gospel* and Gregory Boyle s *Tattoos on the Heart* his groundbreaking Toxic Charity shows us how to start serving needy and impoverished members of our communities in a way that will lead to lasting real world change      *Toxic Charity* Robert D. Lupton, 2012-10-02 Public service is a way of life for Americans giving is a part of our national character But compassionate instincts and generous spirits aren t enough says veteran urban activist Robert D Lupton In this groundbreaking guide he reveals the disturbing truth about charity all too much of it has become toxic devastating to the very people it s meant to help In his four decades of urban ministry Lupton has experienced firsthand how our good intentions can have unintended dire consequences Our free food and clothing distribution encourages ever growing handout lines diminishing the dignity of the poor while increasing their dependency We converge on inner city neighborhoods to plant flowers and pick up trash battering the pride of residents who have the capacity and responsibility to beautify their own environment We fly off on mission trips to poverty stricken villages hearts full of pity and suitcases bulging with giveaways

trips that one Nicaraguan leader describes as effective only in turning my people into beggars In Toxic Charity Lupton urges individuals churches and organizations to step away from these spontaneous often destructive acts of compassion toward thoughtful paths to community development He delivers proven strategies for moving from toxic charity to transformative charity Proposing a powerful Oath for Compassionate Service and spotlighting real life examples of people serving not just with their hearts but with proven strategies and tested tactics Lupton offers all the tools and inspiration we need to develop healthy community driven programs that produce deep measurable and lasting change Everyone who volunteers or donates to charity needs to wrestle with this book

Charity Case Dan Pallotta, 2012-07-20 A blueprint for a national leadership movement to transform the way the public thinks about giving Virtually everything our society has been taught about charity is backwards We deny the social sector the ability to grow because of our short sighted demand that it send every short term dollar into direct services Yet if the sector cannot grow it can never match the scale of our great social problems In the face of this dilemma the sector has remained silent defenseless and disorganized In Charity Case Pallotta proposes a visionary solution a Charity Defense Council to re educate the public and give charities the freedom they need to solve our most pressing social issues Proposes concrete steps for how a national Charity Defense Council will transform the public understanding of the humanitarian sector including building an anti defamation league and legal defense for the sector creating a massive national ongoing ad campaign to upgrade public literacy about giving and ultimately enacting a National Civil Rights Act for Charity and Social Enterprise From Dan Pallotta renowned builder of social movements and inventor of the multi day charity event industry including the AIDS Rides and Breast Cancer 3 Days that has cumulatively raised over 1 1 billion for critical social causes The hotly anticipated follow up to Pallotta s groundbreaking book Uncharitable Grounded in Pallotta s clear vision and deep social sector experience Charity Case is a fascinating wake up call for fixing the culture that thwarts our charities ability to change the world

**How to Start a Charity** Eila Poulton,2015-02-13 Starting a charity is a great way to align your career with your life s purpose to do good in this world What better way to contribute than by organizing a charity that s able to accomplish more as an established entity than the sum of its parts could accomplish alone It s probably safe to assume that you already have some idea of the goals you d like your charity to achieve Now this book is going to help you take those ideas and streamline them into an actionable plan so that you can hit the road running and so that your charity can experience greater success Be warned in advance though Starting a charity is not a quick and easy tasks But then again nothing that s truly worth doing is easy right Before reading any further close your eyes and picture yourself running a marathon the finish line is still far away but your mindset is strong steady and determined If you can maintain that same mindset throughout the journey of getting your new charity up and running I can guarantee it s sure to be a success If you re ready let s get started      *Charity and Philanthropy For Dummies* Karl T. Mohan,2015-12-15 What is charity How does it operate who does it benefit and what should we expect it to do This important book helps to tackle the most common misunderstandings and misconceptions of charitable activity in contemporary British society especially insofar as these affect the thinking of politicians and policymakers The authors present and discuss over a dozen studies including public attitudes to giving large datasets on the geography and funding patterns of third sector organisations and interviews with a wide range of donors charity leaders fundraisers and philanthropy advisers This data enables them to explore the logic of charity in terms of the distribution of resources across causes and communities in the UK and the processes behind philanthropic decision making to reveal a picture of charitable activity at odds with widespread assumptions      How to be Great at Doing Good Nick Cooney,2015 Turns out much of the advice we ve been given about how to make the world a better place turns out to be dead wrong Donating to certain charities will do thousands of times more good than donating to others Non profits that

choose to carry out one program instead of another will be hundreds of times less successful than they could be regardless of how bright hard working and compassionate their staff may be The majority of Americans are involved in charitable work Most of us donate Many of us volunteer Millions go to work each day at a non profit organization By taking a more rigorous calculated approach to charity we can learn how to do dramatically more good We can learn how to truly change the world This book shows you how Drawing on fifteen years of non profit experience a working knowledge of thousands of academic studies on what drives charitable and behavioral decisions interviews with non profit and philanthropy professionals and years of reading writing and lecturing on how to effectively bring about social change The first book to address how a whole host of psychological and social factors combine to drive us toward making bad charitable decisions its unique content and frank approach will help it stand out in the field of non profit and philanthropy books

**Charity the Gifts of Giving** Garret Biss,2015-02-01 Inspired by the author s own involvement with charity this book explores the less obvious benefits of the act of giving the benefits to the giver When someone commits an act or makes a donation for the benefit of another everyone wins Charity The Gifts of Giving discusses how each party benefits and why we should all give a little more Most of us agree that giving is a good thing to do and that many worthy recipients could benefit from our help What is the connection between giving to others and reaping rewards yourself Of course making a difference in someone s life makes you feel good but the gifts go far deeper than that Charity explains those many gifts in detail and will empower you to receive these gifts in your life
