 presents a clinically focused and evidence based summary of emergency medicine Chapters are templated to include the
 clinical presentation differential diagnosis evaluation management and disposition with highlighted critical interventions and
 common pitfalls Management and disposition are especially critical in the emergency department and their emphasis is
 unique to Harwood Nuss Often a diagnosis can not be made given the constraints of an ED evaluation thus effective
 management of the patient with or without a confirmed diagnosis is key Also distinct to Harwood Nuss is the High Risk Chief
 Complaints section which covers the key presentations in the ED chest pain abdominal pain shortness of breath altered
 mental status When patients present in the ED they don't present with a known diagnosis this chapter walks the physician
 through possible differential diagnoses and the evaluation and management of these patients so that they can be stabilized
