The

Academic Teaching Librarian's Handbook Claire McGuinness, 2021-01-20 The Academic Teaching Librarian's Handbook is a comprehensive resource for academic library professionals and LIS students looking to pursue a teaching role in their work and to develop this aspect of their professional lives in a holistic way throughout their careers. The book is built around the core ideas of reflective self-development and informed awareness of one's personal professional landscape. Through engaging with a series of exercises and reflective pauses in each chapter, readers are encouraged to reflect on their professional identity, self-image, self-efficacy, and progress as they consider each of the different aspects of the teaching role. This handbook will provide a comprehensive resource on teaching, professional development, and reflective practice for academic teaching librarians at all stages of their careers; explore the current landscape of teaching librarianship in higher education and highlight the important developments, issues, and trends that are shaping current and future practice; examine the roles and responsibilities of the academic teaching librarian in the digital era; introduce the essential areas of development, skill, and knowledge that will empower current and future professionals in the role; inspire prospective and current academic teaching librarians to adopt a broad conception of the role that goes beyond the basic idea of classroom-based teaching; and provide practical tools to engage in personal development and career planning in this area. The Academic Teaching Librarian's Handbook is an indispensable reference suitable for early-career professionals at the start of their teaching journey as well as mid- or late-career librarians who may have moved into leadership and managerial roles and who wish to advance their teaching role to the next level.

Handbook of Research on Emerging Trends and Technologies in Librarianship Ekoja, Innocent Isa, Ogbomo, Esoswo Francisca, Okuonghae, Omorodion, 2022-01-07 A fundamental dynamism of the library is its continuous adoption of trending technologies and innovations for enhanced service delivery. To meet the needs of library users in the Fourth Industrial Revolution, an era characterized by digital revolution, knowledge economy, globalization, and information explosion, libraries have embraced innovations and novel technologies such as artificial intelligence, blockchain, social media, and the Internet of Things (IoT). The Handbook of Research on Emerging Trends and Technologies in Librarianship documents current research findings and theoretical studies focused on innovations and technologies used in contemporary libraries. This book provides relevant models, theoretical frameworks, the latest empirical research findings, and sound theoretical research regarding the use of novel technologies in libraries. Covering topics such as digital competitive advantage, smart governance, and social media, this book is an excellent resource for librarians, archivists, library associations and committees, researchers, academicians, students, faculty of higher education, computer scientists, programmers, and professionals.

Next-Gen Library Redesign Michael Lascarides, 2012-01-01 This concise guide will help you choose and implement the techniques and best practices used by today's forward-thinking libraries to create the best possible patron experiences.

Keeping Up with Emerging Technologies Nicole Hennig, 2017-06-21 The acceleration of technological change demands that today's information professionals and educators not only be constantly

acquiring new knowledge and skills but also that they cultivate the ability to make sound judgments on which technologies to embrace Today s librarians and information specialists know it s imperative that they keep up with new technologies But not all technologies are equally important either within the library setting or to library patrons So how does one decide which ones to pursue and integrate into services In the uphill battle to stay current with new and emerging technologies deciding which ones to pursue and integrate into services is a major challenge A secondary problem is simply finding the time to consider the question Readers of Keeping Up with Emerging Technologies will learn all of the best practices and skills to keep up with new technologies and to analyze the ability of specific technologies to meet recognized user needs all in this single source You ll learn the best ways to gather information about new technologies and user needs to evaluate and analyze information to curate technology information for others to set up experiments and evaluate the results and to present your findings to persuade decision makers Written by the former head of user experience at MIT s library system this guidebook serves information professionals educators education technology specialists and anyone with emerging technology or innovation in their job titles It will also be useful for library administrators and those who manage these positions as well as for students seeking a technology oriented or curriculum design career path in libraries

Innovations in Science and Technology Libraries Rita Pellen, William Miller, 2014-06-17 Catch up with the many innovations now affecting sci tech libraries The twenty four chapters in *Innovations in Science and Technology Libraries* discuss the creation of digital collections e repositories personalized Web environments and discipline specific Web sites for students and researchers The book also explores the use of new technologies to improve document delivery and service provision as well as demonstrations of leadership by science librarians who are willing to take risks adapt to change control costs and collaborate with colleagues Here is just a fraction of the fascinating cases and important concepts highlighted in *Innovations in Science and Technology Libraries* the Drexel University Library s transition from print to an electronic only journal collection the benefits of adopting a just in time purchase on demand rather than a just in case acquisitions policy IntelliDochow it has raised the standard for document delivery worldwide and increased international recognition of CISTI how California State University Sacramento merged its science library into its central reference department an examination of the two year merging process the creation of branch libraries focused on electronic information an engineering library at Kansas State University and an agriculture library at the University of Manitoba the impact of electronic information upon undergraduate science education literacy competencies in the sciences and their implications for library instruction how the MIT libraries created and developed the Reference Vision system that now guides all of their new reference services the impact of learning communities upon library services recent additions that enhance the usefulness of the IEEE Xplore online delivery system *Innovations in Science and Technology Libraries* will bring you up to date on the latest developments sharpen your awareness of new concepts and techniques in sci tech librarianship and help your library stay abreast of important changes in this ever evolving field Make it

a part of your professional reference collection today

Technological Innovation Jason Vaughan,2013-10 Everyone agrees that innovation is a worthy aim but what does innovation actually entail And what does it mean for a library organization For this issue of Library Technology Reports Jason Vaughan reviewed professional literature both scholarly and mainstream and surveyed library directors to learn their views on how technological innovation is impacting today s libraries Identifying common threads from a mix of perspectives his findings provide clarity on the subject as well as an ideal way for readers to begin a discussion at their own organization Gathering a range of insights about technological innovation Vaughan presents A summary of General Electric s GE Global Innovation Barometer Phrases and words common to job ads referencing innovation Criteria of awards for technological innovation Analysis charts and graphs of responses to a 10 question survey of research library directors
