Nurhaizatul Jamil's ethnographic study offers an interdisciplinary analysis of this phenomenon. The Islamic self-help classes in this book exist at the nexus of sacred texts, aphorisms, and social media engagements, scaffolded by the neoliberal economy that shapes idealized Muslim subjectivities. Within a context whereby the Singapore state discursively frames Malayness in terms of cultural deficiency, Malay Muslim women's inward focus on transformative ethics, rather than societal change, underscores the appeal of gendered pious self-help discourses. At the same time, Jamil's referencing of Black Indigenous and Ethnic studies offers a compelling analytical frame that places affective transformation within the context of racial capitalism, historical trauma, and embodied healing. A provocative and rich ethnography, *Faithful Transformations* tells the stories of Malay Muslim women desiring piety and self-improvement as minoritized subjects in contemporary Singapore while exploring the limitations of self-care. Good Music John J. Sheinbaum,2018-11-29 Over the past two centuries Western culture has largely valorized a particular kind of good music highly serious wondrously deep stylistically authentic heroically created and strikingly original and at the same time has marginalized music that does not live up to those ideals In Good Music John J Sheinbaum explores these traditional models for valuing music By engaging examples such as Handel oratorios Beethoven and Mahler symphonies jazz improvisations Bruce Springsteen and prog rock he argues that metaphors of perfection do justice to neither the perceived strengths nor the assumed weaknesses of the music in question Instead he proposes an alternative model of appreciation where abstract notions of virtue need not dictate our understanding Good music can with pride be playful rather than serious diverse rather than unified engaging to both body and mind in dialogue with manifold styles and genres and collaborative to the core We can widen the scope of what music we value and reconsider the conventional rituals surrounding it while retaining the joys of making music listening closely and caring passionately

Empowered Without Power Kpughe Lang,2020-11-09 This book examines women s participation in the executive structures of the Basel Mission and Presbyterian Church in Cameroon in order to tell a new story of women and church leadership In 1886 the Basel Mission commenced mission work in Cameroon and successfully established an indigenous church which gained independence in 1957 as Presbyterian Church in Cameroon PCC In both churches women were underrepresented in the echelons of power owing to

entrenched patriarchy and recourse to controversial empowerment Female missionaries to Cameroon trained women in fields like motherhood domestic science and marriage which yielded little or no opportunities for local women to participate in the power structures of the Basel Mission This patriarchal culture was handed down to the PCC whose initial all male authority ensured that the power structure was all male But growing feminism within the church and pressure from international ecumenical partners led to timid gender reforms which ended women s exclusion from the ordained ministry promoted female eldership led to the establishment of a convent and the adoption of a gender inclusive policy But women s dearth in positions of leadership persisted with most executive structures filled by men So this book tells the story of women s involvement in the executive structures of the Basel Mission and Presbyterian Church in Cameroon It is the first effort at a holistic approach to interpreting women s lack of power in these two churches Based upon archival research and oral sources the book tells the story of the people forces and events that led to the consistent underrepresentation of women in the churches echelons of power The lived realities of women who challenged patriarchy and held leadership positions in the church are illuminated It documents the reality of women s lack of power with particular focus on the dilemmas of female pastors elders nuns and female Christian groups

Arab Women's Activism and Socio-Political Transformation Sahar Khamis,Amel Mili,2017-11-17 This book illustrates how Arab women have been engaging in three

ongoing parallel struggles before during and after the Arab Spring on three levels namely the political struggle to pave the road for democracy freedom and reform the social struggle to achieve gender equality and fight all forms of injustice and discrimination against women and the legal struggle to chart new laws which can safeguard both the political and the social gains The contributors argue that while the political upheavals were oftentimes more prevalent and visible they should not overshadow the parallel social and legal revolutions which are equally important due to their long term impacts on the region The chapters shed light on the intersections overlaps and divergences between these simultaneous continuous gendered struggles and unpacks their complexities and multiple implications locally regionally and internationally across different countries and through different phases
