Encounters With Truth:

Psychiatric Encounters Beatriz M. Reyes-Foster, 2018-10-30 *Psychiatric Encounters* presents an intimate portrait of a public inpatient psychiatric facility in the Southeastern state of Yucatan Mexico. The book explores the experiences of patients and psychiatrists as they navigate the challenges of public psychiatric care in Mexico. While international reports condemning conditions in Mexican psychiatric institutions abound, *Psychiatric Encounters* considers the large and small scale obstacles to quality care encountered by doctors and patients alike as they struggle to live and act like human beings under inhumane conditions. Beatriz Mireya Reyes Foster closely examines the impact of the Mexican state's neoliberal health reforms on how patients access care and doctors perform their duties. *Engaging with madness, modernity and identity*. *Psychiatric Encounters* considers the enduring role of colonialism in the context of Mexico's troubled contemporary mental health care institutions.

Core Actors in America Stephen Terhune Smith, 2008-06-01 *Core Actors in America* challenges the ontological assumptions of America's dominant public philosophy: liberalism and its more affectionate subordinate communitarianism. Dr. Stephen Terhune Smith presents an alternative view that focuses on the world view and historical impact of core actors: morally informed non-conformists who initiate major social and political changes which ultimately become part of our institutional landscape.

Ethical Encounters Daniel Meyer-Dinkgräfe, 2020-06-12 The essays on dimensions of theatre ethics at the heart of contributions to this volume demonstrate how individual academics and theatre artists have thought about the ethical implications of theatre and present the concepts and paradigms that have guided and influenced their thinking. They raise relevant issues and debate these in clearly defined but not uniform ways that have helped them to come to terms with the issues they raise. The reader may agree or disagree with individual authors or individual arguments. If such agreement or disagreement supports them to form and develop their own opinions and resultant actions, this book has served its purpose. This volume arises from the 2007 and 2008 TaPRA conferences and all of its essays at one level or another reflect upon what is possible within the environment of theatre. Possibility is one form of ethical engagement with the boundaries of philosophy and performance and reminds us of the inherently political aspect of any ethical question. So whilst the most obviously ethically oriented papers appear towards the end of the volume in a separate section, let us bear in mind that throughout certain limits of representation will always be in question for any understanding of theatre.

Worldviews and Christian Education W. Shipton, 2013-08-14 Christ's instruction to his disciples was to witness to others about his plan of salvation. This may be relatively easy when it involves our contemporaries and peers. But when we are working with people from a different cultural background or belief system, it can be difficult or seemingly impossible. In *Worldviews and Christian Education*, editors W. A. Shipton, E. Coetzee and R. Takeuchi have brought together works by experts in cross-cultural religious education. The authors and editors have a wealth of personal experience in presenting the gospel to individuals with various worldviews that differ greatly from those held by Christians who take the Bible as authoritative. They

focus on the beliefs and issues associated with witnessing to seekers for truth coming from backgrounds as diverse as animism Buddhism Confucianism Hinduism Islam Marxism Taoism and postmodernism The emphasis is on educational settings but the sensitivities highlighted and lessons learned are applicable to situations outside this area Leaders pastors teachers and laypersons will find valuable conceptual models practical ideas and bibliographic references presented here

Worldviews and Christian Education challenges all readers to be faithful to the biblical worldview and to approach everyone with sensitivity so that like the apostle Paul they may reach some *Self-Deliverance* Rabbi K. A. Schneider, 2015-06-09

Lacan Deleuze Badiou A. J. Bartlett, 2014-02-12 The theoretical writings of Jacques Lacan Gilles Deleuze and Alain Badiou stand at the heart of contemporary European thought While the combined corpus of these three figures contains a significant number of references to each other OCOs work such references are often simply critical obscure or both Lacan Deleuze Badiou guides us through the crucial under remarked interrelations between these three thinkers identifying the conceptual passages connections and disjunctions that underlie the often superficial statements of critique indifference or agreement Working through the rubrics of the contemporary time the event and truth Bartlett Clemens and Roffe present a new lucid account of where these three thinkers stand in relation to one another and why their nexus remains unsurpassed as a point of reference for contemporary thought itself

Parris,2022-08-15 Vital Strife examines the close yet puzzling relationship between sleep and ethical care in early modernity The plays poems and philosophical essays at the heart of this book by Jasper Heywood William Shakespeare Edmund Spenser John Milton and Margaret Cavendish explore the unconscious motions of corporeal life and the drowsy forms of sentience at the boundaries of human thought and intentionality Benjamin Parris shows how these writers although trained under the Renaissance humanist paradigm of attentive care begin to dissolve the humanist coupling of virtue with vigilance by giving credence to the vital power of sleep In contrast to humanist thinkers who equated sleep with carelessness these writers draw on the ancient Stoic principle of oikei sis the process of orienting the living being toward its proper objects of care beginning with itself in asserting the value of sleep while underscoring insomnia s threat to the ethical flourishing of persons and polity alike Parris offers an important revaluation of Stoic philosophy which has too often been misconstrued as renouncing feeling and sympathetic connection with others With its striking new account of the reception of Stoicism and attitudes toward sleep and sleeplessness in early modern thought Vital Strife reveals the period s mounting concern with the regenerative nature of physical life and its elaboration of a newfound ethics of care

Filmosophy Daniel Frampton, 2006 Filmosophy is a manifesto for a radically philosophical way of understanding cinema. The book coalesces 20th century ideas of film as thought into a practical theory of film thinking, arguing that film style conveys poetic ideas through a constant dramatic intent about the characters, spaces, and events of film. The Use of Punishment Sean McConville, 2013-01-10 In recent decades there has been a vast increase in the use of imprisonment and penal supervision, and to many this development appears to be qualitatively as well as quantitatively different. The causes of this development, its consequences, and future course form the main point of departure for the contributors to this volume, who consider the changes that have contributed to these apparently fundamental shifts in the use of punishment. In this major new book, contributors from a range of disciplines provide an integrated approach to a range of questions surrounding the use of punishment. In what ways have broader social institutions and processes contributed to penal expansion? This book is the principal outcome of the Guggenheim Punishment Project, which aimed for a truly interdisciplinary account of thinking about punishment, and an outcome which was general and reflective rather than specific and policy oriented, and accessible to the generalist as well as those with a specialist interest in the field.
