Among the four skills of a language listening speaking reading and writing much magnitude is dedicated to writing and reading Sporadically a few minutes are spared to speaking and listening It is ineluctably true that listening speaking function plays a dynamic responsibility in verbal communication where de rigueur pronunciation is the venture for both the speaker and listener Pronunciation is a paramount skill in any language because successful communication possibly incomplete without proper pronunciation In English pronunciation is a substantial skill it is as important as vocabulary and grammar for intelligible communication But for ages it has been one of the hard nuts to crack for many non native speakers Many learners and speakers feel that it is a very challenging skill to master Though it was disregarded in the past today learner s started understanding the significance of pronunciation This attitude has emanated mainly due to globalization English is a mandate skill and an important medium of communication in every industry and business So it is necessary to speak the language which is intelligible to everyone around the globe The interlocutor comprehends the speaker not based on the words but how effectively it is spoken Every word is understood based on the tone or sound first than the word itself Therefore the tone must be appropriate for clear understanding otherwise it may mainspring bewilderment and cause communication breakdown Today in this highly competitive English speaking world clarity in pronunciation is a demand for flawless communication Although English has twenty six alphabet it brings about forty four phonemes speech sounds Every sound is personified by unique phonemic symbols International Phonetic Alphabet Therefore words are pronounced based on the phonemic symbol These symbols stand as a formula in order to pronounce words properly So one must learn and master the symbols and its sounds to speak perfect English English is the universal language and everyone shares the same words phrases and sentences to communicate each other But when we speak to the native speakers and some ESL speakers struggle to understand us which is mainly due to the non standard pronunciation of English words Some of the primary and undeniable causes for this state is the lack of exposure on pronunciation skills Most of us are not exposed to International Phonetic Alphabet starting from school till higher education Only very few stresses the importance of proper pronunciation skills and the necessity for proper communication Even today majority of the English learners taught to pronounce words based on the spelling Enough awareness on pronunciation skills is neglected to the ESL learners and speakers This workbook is intended to enhance the ESL learners with the International Phonetic Alphabet symbols This book will help them to master the phonetic symbols with examples This exposure enable them to learn to pronounce English words appropriately This book is designed for all level of learners
