Fix It, Make It, Grow It, Bake It Billee Sharp,2010-03-10 In this D I Y guide to the good life readers learn how to edit their lives since in the long run less is more pedal now or paddle later Readers and their families can live more joyfully and far more creatively all on a dime The best things in life are free or very nearly free and author Billee Sharp shares her freecycling budget savvy barter better wisdom Based on a sensible foundation of global responsibility and foresight for the next seven generations Billee Sharp s philosophy is compelling From the radical common sense introduction to the practical how tos and yummy recipes Fix It Make It Grow It Bake It is a step by step handbook to revolutionizing spending habits and reclaiming quality of life in the process Learn how to start a community garden and to seed share ditch the grass and raise organic veggies in the front lawn eco clean the house with lemons and lavender cure minor maladies from the kitchen cabinet organize a trade for what you want free flea market and cook meals for pennies HowExpert Guide to Recycling HowExpert,Jen Thilman,2023-01-03 If you want to learn how to recycle eliminate disposables reduce waste pollution conserve resources save energy and protect the environment then check out HowExpert Guide to Recycling Have you ever been gaslighted You know grossly misled to believe something for the benefit of someone else Unfortunately we ve all been victims of this for decades by big corporations especially the oil industry They have spent billions to convince us that climate change is our fault That if we dispose of our trash the right way and lower our carbon footprint we wouldn t have the environmental problems we are now facing Nothing could be further from the truth This guide will show how we ve been misled to believe this narrative in order to protect corporate profits and how changing our disposable habits and fighting misinformation is the best thing we can do to beat climate change Corporations have lied to keep us buying their products and distracted from the fact that waste and emissions are caused by how they do business Single use plastics are a big money maker for the fossil fuel industry They created the triangle symbol to make us think plastics will recycle even though that can t easily be done Manufacturers choose not to invest in recycled packaging and materials Virgin materials mined from Earth are cheaper and often subsidized Technology exists to eliminate most of the greenhouse gas emissions they cause

It's time to fight for the truth and take matters into our own hands. What we buy and how it's made affects how well we reuse and recycle works. Using the power of our voices and wallets, we can make corporations change how they do business. They answer to us, the people who buy their products and invest in their stock. We can insist they take responsibility for the damage they cause. We have the power to fight climate change at home and in our cities. I don't know about you, but I'm not ready to leave the health and well-being of my family in the hands of people who I hope will figure this mess out. We all need to change for the better of our planet and our lives. There are alternatives to buying disposable goods and packaging. Buy durable goods and reusable packaging to save money and the planet. Reduce and reuse packaging. First, eliminate plastic shopping bags. We can do things differently to change our eating and buying habits. A lot of trash comes with convenience dining like packaged and fast foods. Buying used products reduces wasted energy, materials, and water. It's time we use our buying power and our votes to change for the better. Waste of anything, food, energy, goods, needs to be eliminated. Elect representatives who put people before corporations. Your voice can create change. Check out *HowExpert Guide to Recycling* to learn how to recycle, eliminate disposables, reduce waste, pollution, conserve resources, save energy, and protect the environment. About the Author: Jen Thilman has been a recycling and zero waste volunteer for decades, which is how she learned that recycling doesn't always work. She has spent years working in green energy technology and studies sustainable living while she strives for it in her own life. Jen completed training from the Climate Reality Project in June of 2022. Marrying her love for writing and the environment, Jen writes blogs about how to buy sustainable products, recycle everyday items, and save the planet. Jen lives with her wirehaired terrier, Teddy Bear, in the San Francisco Bay Area. She writes non-fiction and fiction in many genres and formats, from short stories to poetry, as well as novels that include a post-climate apocalypse dystopian series. *HowExpert* publishes how-to guides on all topics from A to Z by everyday experts. *Website Guide* Roby Jose Ciju, 2019-05-21.
