With increasing numbers of computers and diffusion of the internet around the world, localisation of the technology and the content it carries into the many languages people speak is becoming an ever more important area for discussion and action. Localisation simply put includes translation and cultural adaptation of user interfaces and software applications as well as the creation and translation of internet content in diverse languages. It is essential in making information and communication technology more accessible to the populations of the poorer countries, increasing its relevance to their lives, needs and aspirations and ultimately in bridging the digital divide.

Conservation Agriculture in Africa Saidi Mkomwa, Amir H. Kassam, 2022-01-11. Tillage agriculture has led to widespread soil and ecosystem degradation globally and more particularly in the developing regions. This is especially so in Africa where traditional agricultural practices have become unsustainable due to severe exploitation of natural resources with negative impacts on the environment and food system. In addition, agricultural land use in Africa today faces major challenges including increased costs, climate change and a need to transform to more sustainable production intensification systems. Conservation Agriculture has emerged as a major alternative, sustainable climate smart agriculture approach in Africa and has spread to many African countries in the past decade as more development and research, including in

sustainable mechanization has enabled its extension and uptake It is key to transforming Africa s agriculture and food system given its ability to restore soil health biodiversity and productivity of millions of smallholder farms as well as larger scale farms This book is aimed at all agricultural stakeholders in the public private and civil sectors in Africa engaged in supporting the transformation of conventional tillage agriculture to Conservation Agriculture The book will be of interest to researchers academics students development stakeholders public and private sector investors and policy makers as well as institutional libraries across the world Ethiopian Literature in Amharic Thomas Leiper Kane,1975 **The Biographic Register** ,1966 **The Biographic Register** United States.
