The Death of Web 2.0 Greg Singh, 2018-12-07 With all our contemporary connectivity are we really connected What does the nature of connectivity tell us about interpersonal and community relationships What ethical concerns are

raised through an always on culture Communication in today s world is characterised by a condition of persistent semi permanent connectivity which seems to bring us closer together but which can also be profoundly alienating The Death of Web 2 0 takes a retrospective look at a moment in recent media history that has had and will continue to have a lasting impact upon the predominant attitude towards cultures of connectivity Greg Singh draws from a range of approaches intellectual traditions and scholarly disciplines to engage key questions underpinning the contemporary communications media ecosystem Bringing together influences from communitarian ethics recognition theory and relational and depth psychology Singh synthesises key approaches to produce a critical inquiry that projects the tensions at the heart of connectivity as a principle of Web 2 0 He argues that Web 2 0 is a cultural moment that is truly over and that what is popularly described as Web 2 0 is an altogether different set of principles and practices The Death of Web 2 0 recognises the consequences of our always on culture where judgments are made quickly and where impacts can be far reaching affecting our relationships wellbeing mental health and the health of our communities and it concludes by asking what an ethics of connectivity would look like This unique interdisciplinary work will be essential reading for academics and students of Jungian and post Jungian studies media and cultural studies and psychosocial studies as well as anyone interested in the social implications of new media

(Free Sample) Master Guide for UPTET Paper 1 (Class 1 - 5 teachers) with Past Questions Disha Experts,2021-07-01 **Intentional Self-Development and Positive Ageing** Bernhard

Leipold,2019-08-15 Are we in control of our own development in adulthood or are we shaped by circumstances beyond our control By adopting the concept of intentional self development ISD this text outlines an action theoretical approach to human development that emphasizes both an individual s ability to shape their own development throughout the lifespan and the extent to which this potential is limited By examining general age related changes and critical life events Intentional Self Development and Positive Ageing explores the adaptive cognitive motivational processes that generate positive development in adulthood including developmental tasks cognitive changes life stage transitions and biological and neural processes Leipold goes on to discuss the concept of positive ageing highlighting the flexibility of the term and evaluating it from multiple perspectives to demonstrate its subjectivity as well as its importance This text also discusses the importance of resilience in positive development contributing to the search for conditions conducive to positive life conduct across the lifespan This book will be essential reading for undergraduates and postgraduates studying lifespan development and gerontology positive psychology or health psychology as well as researchers in those fields It will also be of interest to developmental counsellors clinicians and other applied occupational groups who are seeking to understand the psychological basis of actions Principles and Practice of Lifespan Developmental Neuropsychology Jacobus Donders,Scott J.
