Applications of Flow in Human Development and Education

Mihaly Csikszentmihalyi, 2014-08-08 The third volume of the collected works of Mihaly Csikszentmihalyi covers his work on the application of flow in areas that go beyond the field of leisure where the concept was first applied Based on his personal experience with schooling and learning as well as that of many others and contrary to what Cicero claimed Csikszentmihalyi arrived at the conclusion that instead of taking pride in making the roots of knowledge as bitter as possible we should try to make them sweeter Just as flow became a popular and useful concept in voluntary activities it could likewise be applied in education with the end result of young people being more likely to continue learning not just because they have to but because they want to This volume brings together a number of articles in which Csikszentmihalyi develops ideas about how to make education and more generally the process of learning to live a good life more enjoyable Since theory is the mother of good practice the first eleven chapters are devoted to theoretical reflections Some are general and explore what it means to be a human being what it means to be a person when we look at life from the perspective of flow Others are more narrowly focused on such topics as consumption education teaching and learning They help laypeople reflect how they can arrange their lives in such a way as to leave a small ecological footprint while getting the most enjoyment The second section of the volume contains a dozen empirical articles on similar topics They deal with the development of identity and self worth with

the formation of goals and motivation with loneliness and family life

Human Development from Middle Childhood to

Middle Adulthood Lea Pulkkinen, 2017-06-26 This seminal work focuses on human development from middle childhood to middle adulthood through analysis of the research findings of the groundbreaking Jyväskylä Longitudinal Study of Personality and Social Development JYLS The JYLS project which began in 1968 has generated extensive publications over many years but this is the first comprehensive summary that presents the conceptual framework the research design and methodology and the findings The study looks at the development over time of issues related to personality identity health anti social behavior and well being and is unparalleled in its duration intensity comprehensiveness and psychological richness The thorough synthesis of this study illustrates that there are different paths to adulthood and that human development cannot be described in average terms The 42 year perspective that the JYLS provides shows the developmental consequences of children's differences in socioemotional behavior over time and the great significance of children's positive socioemotional behavior for their further development until middle age Not only will the book be an invaluable tool for those considering research methods and analysis on large datasets it is ideal reading for students on lifespan courses and researchers methodologically interested in longitudinal research

Sustainable Human Development in the Twenty-First Century - Volume II Ismail Sirageldin, 2008-12-31 Sustainable Human Development in the Twenty First Century is a component of Encyclopedia of Human Resources Policy Development and Management in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias The volume of Human Development examines the state and nature of human development and identifies factors that determine its promotion for the twenty first century A general goal since the ultimate goal for human development is to enhance the quality of human life However the concept quality of human life is not well defined It is determined by a set of interrelated factors that cut across many disciplines with varied perspectives and paradigms These include the prevailing culture health status economic performance technological development political and social conditions the building of human capacity and capabilities and institutional development on the local and global levels For example in an environment characterized by a better quality of human life it is expected that people will be able to lead long and productive lives They are also expected to enjoy good health have access to knowledge and educational opportunities and be treated by all with respect in a socially equitable and dignified manner In the sphere of political economy they are expected to have the opportunity to participate in governance decisions that affect their lives and the community in which they live and to have the potential to earn sufficient income to supply themselves with adequate nutrition shelter and other material and aesthetic needs Furthermore people are expected to maintain a sustainable

environment and equitable social contracts across space and generations especially in the context of the evolving global governance The volume of Sustainable Human Development in the Twenty First Century is divided into five topics which are then expanded into multiple subtopics each as a chapter presented in two volumes The first is Major issues in Human Development and provides an over view of the Topic with emphasis on the sociological foundation of human development The second Topic Diversity and Historical Processes reviews the historical and technological processes which have led to the present state of human diversity and differentiation The third Topic Causes of Global Change focuses on whether it is possible in the present global environment to enlarge people s capabilities so that economic progress may be translated into a multidimensional human happiness The fourth Topic Consequences of Global Change examines global change not in the narrow sense of short term economic change but rather as historical waves of long term development The fifth Topic on Planning Strategies reviews current practice and projects challenges in the next century These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs

Evolutionary Perspectives on Human Development Robert G. Burgess, Kevin MacDonald, 2005 This new edition of Evolutionary Perspectives on Human Development is obligatory reading for anyone interested in the integration of evolutionary theory into developmental psychology It provides a valuable corrective to recent narrow approaches which argue that the human mind is constructed exclusively of domain specific mechanisms and which deemphasize the importance of human psychological and behavioral plasticity Anyone who reads this book will come away with a richer understanding of our shared human nature Bill Irons Northwestern University In this volume Burgess and MacDonald have brought together a distinguished group of psychologists and anthropologists to investigate how given our evolutionary heritage genetic make up and salient environment behavior cognition and emotion unfold from the human organism They make clear that both evolutionary functional and proximate behavioral perspectives are essential to understanding the human mind and its products Many of these essays should be required reading for sociobiologists evolutionary psychologists and evolutionary anthropologists and their ilk Jeffrey Kurland Penn State It s clear that evolutionary biology has a tremendous amount to offer when it comes to our understanding of human development and yet many experts in developmental psychology have remained impervious to these insights At last this may change Burgess and MacDonald have compiled a rich array of theory and data much of it contributed by the leading lights of evolutionary psychology or if you prefer sociobiology A very valuable collection and one that might help define a new and important field David P Barash University of Washington Evolutionary Perspectives on Human Development Second Edition considers the role of evolutionary theory in the field of developmental psychology to examine key topics of individual human development This unique book fills an important gap in the literature applying evolutionary models to human development by focusing on central development issues The book emphasizes both domain

general evolved psychological mechanisms and domain specific processes The text also integrates behavior genetic research with evolutionary and developmental principles In this contributed volume editors Robert L Burgess and Kevin MacDonald have brought together a distinguished group of social and behavioral scientists employing multiple levels of analysis drawn from a variety of academic disciplines This diverse group of contributors illustrates the enormous power of evolutionary theory by elucidating human behavior and its development and the various ways it is manifested in different environments Evolutionary Perspectives on Human Development applies evolutionary theory to such topics as parent child relationships the maltreatment of children psychopathology cooperation and competition among siblings and the acquisition of vital resources in different cultural settings from an evolutionary point of view Key Features Comprehensive coverage of the impact of evolutionary theory on human development provides students with the most thorough foundation available in this area Contributions by leading scholars and researchers expose readers to the exciting research and developments that have been occurring in the field An introductory chapter written by the volume editors provides an accessible overview of the book Evolutionary Perspectives on Human Development provides state of the art groundwork in evolutionary theory as viewed by leading thinkers in the field It is an excellent supplementary textbook for advanced undergraduate and graduate courses in evolutionary and developmental psychology
