Phryne Melissa Funke, 2024-02-08 How did Mnesarete a girl from Boeotia turn into Phryne the famous beauty and how did she end up as an enduring symbol of ancient Greek culture This book pieces together the story of the notorious fourth century Athenian sex worker Phryne It considers her early life and her development into a cultural figure whose influence and legacy have lasted from her own lifetime to the present day It also investigates her infamous nude courtroom appearance her influence on one of the most well known statues from antiquity and her connection to celebrated figures from Alexander the Great to the artist Apelles Her appearances in modern culture ranging from Belle Epoque cabaret shows to 1950s Italian film are also analysed offering an account of how the real life of a woman turned into the biography of a dream girl Nothing but fragments remain of Phryne s story short anecdotes passed on and on again in literary compendia that tell the story of a witty and beautiful woman who amassed great wealth associated with some of the most well known historical figures of ancient Greece They create an image of a life that is glamorous and titillating yet they also hint at the tenuous position of a foreign born sex worker in a society structured to privilege male citizens above all others *The Toga and Roman Identity*

Ursula Rothe, 2019-12-12 This book traces the toga s history from its origins in the Etruscan garment known as the tebenna through its use as an everyday garment in the Republican period to its increasingly exclusive role as a symbol of privilege in the Principate and its decline in use in late antiquity It aims to shift the scholarly view of the toga from one dominated by its role as a feature of Roman art to one in which it is seen as an everyday object and a highly charged symbol that in its various forms was central to the definition and negotiation of important gender age and status boundaries as well as political stances and ideologies It discusses the toga s significance not just in Rome itself but also in the provinces where it reveals ideas about cultural identity status and the role of the Roman state *The Toga and Roman Identity* shows that by looking in detail at the history of Rome s national garment we can gain a better understanding of the complexities of Roman identity for different groups in society as well as what it meant at any given time to be Roman **Text & Presentation, 2012** Graley

Dark Age Nunneries Steven Vanderputten, 2018-05-15 In *Dark Age Nunneries* Steven Vanderputten dismantles the common view of women religious between 800 and 1050 as disempowered or even disinterested witnesses to their own lives It is based on a study of primary sources from forty female monastic communities in Lotharingia a politically and culturally diverse region that boasted an extraordinarily high number of such institutions Vanderputten highlights the attempts by women religious and their leaders as well as the clerics and the laymen and women sympathetic to their cause to construct localized narratives of self preserve or expand their agency as religious communities and remain involved in shaping the attitudes and behaviors of the laity amid changing contexts and expectations on the part of the Church and secular authorities Rather than a dark age in which female monasticism withered under such factors as the assertion of male religious authority the secularization of its institutions and the precipitous decline of their intellectual and spiritual life Vanderputten finds that the post Carolingian period witnessed a remarkable adaptability among these women Through texts objects archaeological remains and iconography *Dark Age Nunneries* offers scholars of religion medieval history and gender studies new ways to understand the experience of women of faith within the Church and across society during this era

International Criminal Law and Sexual Violence against Women Daniela Nadj, 2018-05-23 This book explores the prosecution of wartime sexual violence in international criminal law and asks what the juridicalisation of gender based violence signifies for women The book explores the portrayal of the various gendered identities that surface in armed conflict and it asks whether the law is capable of reflecting these in subsequent judgements Focusing on the International Criminal Tribunal for the Former Yugoslavia and the International Criminal Tribunal for Rwanda as well as subsequent developments in the International Criminal Court the book shows how the tribunals have delivered landmark jurisprudence in the area of sexual violence against women and provided a legacy for how gender justice is incorporated into international law However Daniela Nadj argues that in the relevant cases there is a tendency to depict women in monolithic fashion with little agency or sense of identity beyond their ethnicity By bringing to the surface the complexity and multi faceted gendered identities in wartime the book calls for a reconceptualisation of notions of femininity in armed conflict

South John David Cox, 2010-04-15 *Traveling South* is the first major study of how narratives of travel through the antebellum South helped construct an American national identity during the years between the Revolutionary War and the Civil War John Cox makes his case on the basis of a broad range of texts that includes slave narratives domestic literature and soldiers diaries as well as more traditional forms of travel writing In the process he extends the boundaries of travel literature both as a genre and as a subject of academic study The writers of these intranational accounts struggled with the significance of travel through a region that was both America and other In writings by J Hector St John de Cr vecoeur and William Bartram for example the narrators create personal identities and express their Americanness through travel that Cox argues becomes a defining aspect of the young nation In the narratives of Frederick Douglass and Solomon Northup the complex relationship between travel and slavery highlights contemporary debates over the meaning of space and movement Both Fanny Kemble and Harriet Jacobs explore the intimate linkings of women s travel and the construction of an ideal domestic space whereas Frederick Law Olmsted seeks through his travel writing to reform the southern economy and expand a New England yeoman ideology throughout the nation The Civil War diaries of Union soldiers written during the years that witnessed the largest movement of travelers through the South echo earlier themes while concluding that the South should not be transformed in order to become sufficiently American rather it was and should remain a part of the American nation regardless of perceived differences *Report* United States. Congress Senate, **The Hiding Place** Greta Boris, 2024-10-29 Welcome to Season Three of Murders Under the Sun a podcast that takes a trip to the dark side of sunny Southern California I m your host Molly Shure A dying girl is dropped over the wall at the historic mission of San Juan Capistrano In the dark and quiet night Abby Travers is the only one to see it happen yet she is powerless to help Trapped in the liminal space between research and publicity stunt Abby is locked inside a hidden cell near the ruins of the Great Stone Church When she finally escapes her self imposed prison she finds herself at the center of a mystery that threatens to demolish her life as surely as the 1812 earthquake demolished the mission s cathedral That is the startling beginning of the third and most bizarre crime of the seven interconnected tales I began sharing in the first two seasons of the podcast Enter *The Hiding Place* with me now and we ll explore its secrets together Portions of this story previously appeared in *The Sanctity of Sloth* by Greta Boris *Zion's Herald* ,1900 **The Bulletin** ,1889 **Global Fragments** ,2007-01-01 While the world seems to be getting ever smaller and globalization has become the ubiquitous buzz word regionalism and fragmentation also abound This might be due to the fact that far from being the alleged production of cultural homogeneity the global is constantly re defined and altered through the local This tension pervading much of contemporary culture has an obvious special relevance for the new varieties of English and the literature published in English world wide Postcolonial literatures exist at the interface of English as a hegemonic medium and its many national regional and local competitors that transform it in the new English literatures Thus any exploration of a globalization of cultures has to take into account the fact that culture is a complex field

characterized by hybridization plurality and difference But while global or transnational cultures may allow for a new cosmopolitanism that produces ever changing fluid identities they do not give rise to an egalitarian global village an asymmetry between centre and periphery remains largely intact albeit along new parameters The essays collected in this volume offer readings of literary theoretical and filmic texts from the postcolonial world These texts are read as attempts to articulate the global with the local from a perspective of immersion in the actual diversity of life worlds focusing on such issues as consumption identity politics and modes of affiliation In this sense they are global fragments locally refracted figurations of an experience of world wide interconnectedness

The Idea of Nature in Disney Animation David S.

Whitley,2008 David Whitley s compelling study complicates our understanding of the classic Disney canon by focusing on the way images of the natural world are mediated within popular art for children He examines a range of Disney s feature animations from Snow White to Finding Nemo to show that even as the films communicate the central ideologies of their times they also express the ambiguities and tensions that underlie these dominant values
