FIGHTING FOR THE THIRD WORLD
(Pages 982–983)**How were developing nations affected by the Cold War?**

After World War II, the world's nations were grouped into three "worlds." The First World included the United States and its allies. The Second World consisted of Communist nations led by the Soviet Union. The **Third World** was composed of developing nations in Africa, Asia, and Latin America.

Many Third World nations had serious problems. These problems were often due to a long history of colonialism. Some Third World nations faced political unrest that threatened the peace. Other problems included poverty and a lack of education and technology. Some of these countries

tried to stay neutral in the Cold War. They met to form what they called a "third force." It consisted of **nonaligned nations**, or countries that did not take sides between the Soviets and Americans. Others actively sought American or Soviet aid.
