Uitto,2024-12-12 Visioning presents a roadmap for university leaders to vitalize higher education in response to global problems It addresses structural programmatic and curricular gaps in ways designed to prepare current and future generations for unfolding socio ecological challenges The book introduces five urgent and interconnected global challenges sustainable development climate change migration global health and social justice demanding attention from higher education institutions worldwide Each of these five chapters explores the challenge and then shifts focus to the needed roles of forward looking higher education institutions These roles include building critical consciousness developing competencies inspiring global actions exercising leadership at all levels conducting evaluations and undertaking innovative initiatives The book also proposes three specific initiatives 1 creation of linked academic Centers for Contemporary Global Challenges 2 establishment of South North Higher Education Consortia and 3 initiation of a Global Challenges Corps supported by transnational competence preparation It also provides an evaluation methodology to assess the traction of the proposed educational vision The concluding chapter offers a pathway to fill existing programmatic gaps and equip future generations to address global challenges This authoritative and insightful book is essential reading for university leaders educators and learners worldwide It provides practical strategies and a future preparatory vision for universities to address rising global challenges

Guide to U.S. Environmental Policy Sally K. Fairfax,Edmund Russell,2014-08-14 Guide to U S Environmental Policy provides the analytical connections showing readers how issues and actions are translated into public policies and persistent institutions for resolving or managing environmental conflict in the U S The guide highlights a complex decision making cycle that requires the cooperation of government business and an informed citizenry to achieve a comprehensive approach to environmental protection The book s topical operational and relational essays address development of U S environmental policies the federal agencies and public and private

organizations that frame and administer environmental policies and the challenges of balancing conservation and preservation against economic development the ongoing debates related to turning environmental concerns into environmental management and the role of the U S in international organizations that facilitate global environmental governance Key Features 30 essays by leading conservationists and scholars in the field investigate the fundamental political social and economic processes and forces driving policy decisions about the protection and future of the environment Essential themes traced through the chapters include natural resource allocation and preservation human health rights of indigenous peoples benefits of recycling economic and other policy areas impacted by responses to green concerns international cooperation and immediate and long term costs associated with environmental policy The essays explore the impact made by key environmental policymakers presidents and politicians as well as the topical issues that have influenced U S environmental public policy from the colonial period to the present day A summary of regulatory agencies for environmental policy a selected bibliography and a thorough index are included This must have reference for political science and public policy students who seek to understand the forces that U S environmental policy is suitable for academic public high school government and professional libraries

Leading Megaprojects Mounir A. Ajam, 2020-01-06 The performance of megaprojects is questionable and a large percentage of them fail in one dimension or another The challenges that contribute to these failures are known Then why do these projects still fail at a high rate *Leading Megaprojects A Tailored Approach* examines the challenges facing megaprojects and more importantly successes in delivering megaprojects To close the performance gaps in megaproject deliveries the book presents a customizable model that professionals and organizations can use to increase the chance of successful project delivery To illustrate the model it uses examples and case studies primarily from capital projects with engineering and construction components The book also explains how the approach can be applied to all projects regardless of industry or domain The book emphasizes the role of leadership because it takes the point of view that megaprojects cannot be successful without great leadership due to their massive size complexity number of parties and stakeholders involved and cost among other vital factors Leaders can define the path for a megaproject to guide seasoned managers and project managers to successful closure The tailored approach is based on a stage gate project life cycle model which covers projects from concept to success However it is not limited to a purist form of traditional project management It is a tailored methodological approach with an emphasis on leading the work end to end at the project level along with the management of every stage of the project Also it presents the integration of the business product delivery and operations management into a cohesive approach The book concludes with an in depth simulation showing how the model is can be tailored to deliver a megaproject successfully

Confronting Corruption Fritz F. Heimann, Mark Pieth, 2018 Corruption undermines nearly all key legal and developmental priorities today including the effective functioning of democratic institutions and honest elections environmental protection human rights and human security international development

programs and fair competition for global trade and investment This book chronicles the global anticorruption steps taken since the movement advanced after the end of the Cold War It provides a realistic assessment of the present state of affairs by critically evaluating what existing anticorruption programs and treaties have accomplished and documenting their shortcomings while developing an action agenda for the next decade The authors argue that reformative action is imperative and the forces of globalization and digital communication will level the playing field and erode the secrecy corruption requires They define corruption document its effects discuss the initiatives that changed public perception analyze the lessons learned and then evaluate how to move forward with existing initiatives charting a new path with new differentiated strategies

Advances in Marine Environmental Protection: Challenges, Solutions and Perspectives Mehran Idris Khan,Yen-Chiang Chang,Wen-Hong Liu,2025-04-29 Environments have no boundaries and no borders Managing oceanic environments particularly the threats and risks of pollution should also consider the shared responsibility of all coastal states Emerging issues for oceanic pollution governance include global changes like rising temperature ocean acidification but also disturbances of ecosystem functioning by plastic and pollution by other emerging contaminants for example noise pollution and deep sea mining These call for efficient and sustainable prevention and restoration strategies such as such as efficient urban and industrial sewage treatment plants efficiently administered transnational marine protected areas and among others sustainable aquaculture extensive small scale fisheries Environmental protection warrants the development of interrelationships between marine sciences relevant industries and ocean governance developing internationally accepted rules and regulations for sustainable ocean management This Research Topic will explore possible new domains of ocean governance and the marine environment from the interdisciplinary perspectives of the rule of law including the international agreement on equal conventions the Convention on Facilitation of International Maritime Traffic the Convention on the International Regulation for Preventing Collisions at Sea and International Convention for the Prevention of Pollution from Ships MARPOL

Globalization and Environmental Challenges Hans Günter Brauch,Úrsula Oswald Spring,Czeslaw Mesjasz,John Grin,Pál Dunay,Navnita Chadha Behera,Béchir Chourou,Patricia Kameri-Mbote,P. H. Liotta,2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of

the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century

Security Challenges in the Euro-Med Area in the 21st Century Stephen C. Calleya, 2012 This book provides an empirical analysis of security challenges in the Euro Mediterranean area and highlights the political military economic societal and environmental issues that are already serving as a source of instability in the region 21st century challenges reexamining the base of the federal government. United States. Government Accountability Office, 2005 The federal government's

financial condition and long term fiscal outlook present enormous challenges to the nation's ability to respond to emerging forces reshaping American society the United States place in the world and the future role of the federal government This report includes education and employment challenges for the 21st century as one of 12 areas for reexamination intended to help the Congress in reviewing and reconsidering the base of federal spending and tax programs The first section sets the stage by providing the rationale for reexamining the base of the federal government and the scope of GAO's effort The second section is organized around 12 areas of federal activity and includes narratives discussing emerging changes in each area as well as several illustrative reexamination questions for each area The third section provides some perspective on various strategies previously considered as a possible means to address the issues and questions raised *Public Service*

Operations Management Zoe Radnor, Nicola Bateman, Ann Esain, Maneesh Kumar, Sharon Williams, David Upton, 2015-07-30 How do policy makers and managers square the circle of increasing demand and expectations for the delivery and quality of services against a backdrop of reduced public funding from government and philanthropists Leaders executives and managers are increasingly focusing on service operations improvement In terms of research public services are immature within the discipline of operations management and existing knowledge is limited to government departments and large bureaucratic institutions Drawing on a range of theory and frameworks this book develops the research agenda and knowledge and understanding in public service operations management addressing the most pressing dilemmas faced by leaders executives and operations managers in the public services environment It offers a new empirical analysis of the impact of contextual factors including the migration of planning systems founded on MRP ERP and the adoption of industrial based improvement practices such as TQM lean thinking and Six Sigma This will be of interest to researchers educators and advanced students in public management service operations management health service management and public policy studies

Australian Leisure A J Veal, Simon Darcy, Rob Lynch, 2015-05-20 For first year students in tertiary leisure studies programs both Leisure Studies and Social Science *Australian Leisure 4e* provides an introduction to and analysis of a broadly defined concept of leisure It integrates Australian and international knowledge so that the book is an Australian interpretation based largely on local sources but which engages with relevant international research and theory This edition has been extensively reviewed and updated and includes new chapters on social networks global cultures and events Leisure is not just sport or the arts or outdoor recreation it is all these things and more including tourism gambling hobbies television

watching entertainment play and doing nothing in particular The purpose of the text is to illuminate leisure and its place in past present and future Australian society The text is designed to lead students into the subject and provide pointers to more detailed study through discussion questions and guides to further reading

Routledge Handbook of African Social Work Education Susan Levy, Uzoma Odera Okoye, Pius T. Tanga, Richard Ingram, 2024-06-06 This timely Routledge Handbook creates a much needed space to explore what makes social work uniquely African as well as shaping informing and influencing a new culturally relevant era of social work The specific focus on social work education offers approaches to transition away from the hegemony of Western literature knowledge and practice models underpinning African social work education The authors identify what is relevant and meaningful to inform influence and reconceptualise culturally relevant social work curriculum Covering Botswana Cameroon Ethiopia Ghana Guinea Kenya Malawi Nigeria South Africa Tanzania Uganda Zambia and Zimbabwe the Handbook comprises both empirical and conceptual chapters multiple approaches case studies and key debates on social work education It is structured in four parts Approaches to Indigenising Decolonising and Developing Culturally Relevant Social Work Education Social Work Education Evolution across Contexts Embedding Field Practicum into Social Work Education Knowledge Exchange between the Global South and Global North The range of indigenous local knowledge that the Handbook presents is crucial to social work evolving and facilitating for reciprocal learning and knowledge exchange between the Global South and Global North Whilst the context of the Handbook is Africa the topics covered are relevant to a global audience engaged in social justice work across social work social welfare social development and sustainability

The Physical Geography of the Mediterranean Jamie Woodward, 2009-05-07 This volume explores the climates landscapes ecosystems and hazards that comprise the Mediterranean world It traces the development of the Mediterranean landscape over very long timescales and examines modern processes and key environmental issues in a wide range of settings The Mediterranean is the only region on Earth where three continents meet and this interaction has produced a very distinctive Physical Geography This book examines the landscapes and processes at the margins of these continents and the distinctive marine environment between them Catastrophic earthquakes explosive volcanic eruptions and devastating storms and floods are intimately bound up within the history and mythology of the Mediterranean world This is a key region for the study of natural hazards because it offers unrivalled access to long records of hazard occurrence and impact through documentary archaeological and geological archives The Mediterranean is also a biodiversity hotspot it has been a meeting place for plants animals and humans from three continents throughout much of its history The Quaternary records of these interactions are more varied and better preserved than in any other part of the world These records have provided important new insights into the tempo of climate landscape and ecosystem change in the Mediterranean region and beyond The region is unique because of the very early and widespread impact of humans in landscape and ecosystem change and the richness of the archaeological and geological archives that chronicle this impact This book examines this history and

these interactions and places current environmental issues in long term context Contributors Ramadan Husain Abu Zied Harriet Allen Jacques Blondel Maria Carmen Llasat James Casford Marc Castellnou Andrew Goudie Andrew Harding Angela Hayes Tom Holt Babette Hoogakker Philip Hughes Jos Lelieveld John Lewin Francisco Lloret Francisco Lopez Bermudez Mark Macklin Jean Margat Anne Mather Fr d ric M dail Christophe Morhange Clive Oppenheimer Jean Palutikof Gerassimos Papadopoulos Josep Pi ol David Pyle Jane Reed Neil Roberts Eelco Rohling Iain Stewart Stathis Stiros John Thornes Chronis Tzedakis John Wainwright
