Developing a business case **Exploring Teacher Recruitment and Retention** Tanya Ovenden-Hope, Rowena Passy, 2020-10-01 This thought provoking collection examines the challenge of teacher shortages that is of international concern. It presents multiple perspectives and explores the commonalities and differences in approaches from around the world to understand possible solutions for the current teacher workforce crisis. Acknowledging that solutions to attract and retain teachers vary by country, region and in some cases locality, the contributors scrutinise a range of workforce planning interventions at local and government level, including financial incentives and early career support. The book draws on different perspectives to understand a range of problems that negatively affect teacher recruitment and retention, unpicking key challenges including links between the disadvantages of location and access to teachers for coastal and rural schools, rising pupil numbers, declining school budgets and the role of professional learning in raising teacher status. Abundant in critiques, research informed positions and context specific discussions about the impact of teacher workforce supply and shortages, this book will be valuable reading for teacher educators, educational leaders, education policy makers and academics in the field. *American Rehabilitation*, 1998 **Institutional Translator Training** Tomáš Svoboda, Łucja Biel, Vilemini Sosoni, 2022-12-30 This collection surveys the translator training landscape in international organizations on a global scale, offering a state of the art view on institutional translator training research and practical takeaways for stakeholders. The volume's focus on training brings a unique perspective to existing research on institutional translation, which has tended to single out such themes as agency professionalism and quality. The book is divided into three sections, with the first outlining the competences required of institutional translators, the second exploring training practices at the university level and on the job for novices and professionals across a range of settings, and the third providing a synthesis of the above. Contributions draw on findings from studies in both institutional desiderata and existing training programmes from diverse geographic contexts, towards situating the discussion through a global lens. In linking together competences and training practices, the book enhances collective knowledge of institutional translation and provides valuable insights for universities and institutions that work with translators on both international and national scales. This book will be key reading for scholars in translation studies, particularly those interested in institutional translation and translator training, as well as active professionals.
