

Name _____ Period _____

Chapter 35: Plant Structure, Growth, and Development

In this unit on plants, the challenge for students will be to learn the new vocabulary. As we work through this unit, you will find an emphasis on labeling and explaining plant diagrams and specific directions for which terms you should know.

Concept 35.1 The plant body has a hierarchy of organs, tissues, and cells

1. This concept is organized into three sections—plant organs, tissues, and cells. Begin by defining a tissue and an organ.
2. The three plant organs are _____, _____, and _____.
3. On Figure 35.2, label the shoot system, root system, apical bud, axillary bud, and root system.

4. Define *root* and then explain the difference between a *taproot* and *lateral root*.
Root
Taproot and lateral roots

Chapter 35 Study Guide Answers Biology

classification vitamins minerals and nutrition *Clinical Neuropsychology Study Guide and Board Review* Kirk Stucky, Kirk J. Stucky, Michael W. Kirkwood, Jacobus Donders, Christine Liff, 2020 *Clinical Neuropsychology Study Guide and Board Review* Second Edition provides an easy to study volume with sample questions and recommended readings that are specifically designed to help individuals prepare for the ABCN written examination This book can also be used as a teaching tool for graduate students and trainees at various levels The format is geared toward exam preparation Information is provided in a concise outlined manner with liberal use of bullets boxes illustrations and tables The guide also includes hundreds of mock exam questions and many recommended readings Teacher's Guide to the Modern Biology Program James Howard Otto, Albert Towle, Elizabeth H. Crider, 1965 **Biology** Sandra Alters, 2000 Designed for a one or two semester non majors course in introductory biology taught at most two and four year colleges This course typically fulfills a general education requirement and rather than emphasizing mastery of technical topics it focuses on the understanding of biological ideas and concepts how they relate to real life and appreciating the scientific methods and thought processes Given the authors work in and dedication to science education this text s writing style pedagogy and integrated support package are all based on classroom tested teaching strategies and learning theory The result is a learning program that enhances the effectiveness efficiency of the teaching and learning experience in the introductory biology course like no other before it **Student Study Guide** Liebaert, 2002-08 by Richard Liebaert Linn Benton Community College Students can master key concepts and earn a better grade with the thought provoking exercises found in this study guide A wide range of questions and activities help students test their understanding of biology The Student Study Guide also includes references to student media activities on the Campbell Biology CD ROM and Web Site *Biology* Glencoe/McGraw-Hill, 1994-07 2024-24
