Gargiulo, 2012 *Special Education in Contemporary Society An Introduction to Exceptionality* is designed for use by preservice and inservice teachers who will teach students with special needs in the general classroom. The text provides a rare glimpse into the lives of persons with exceptionalities including their families and teachers. Focusing on human exceptionalities across the life span, the text employs a traditional organization beginning with four foundations chapters that introduce teachers to special education, followed by 10 categorical chapters each on a different disability. Each categorical chapter features sections on transition, cultural diversity, technology, instructional strategies, and family considerations.

**Responding to Learner Diversity and Learning Difficulties** Dennis Conrad, Stacey Blackman, 2018-10-01 Caribbean Discourse in Inclusive Education Volume II *Responding to Learner Diversity and Learning Difficulties* shares selected critical reflections and recommendations on the way educational communities respond to student diversity and difficulties learning. These contexts include the Caribbean, the Diaspora, and beyond. Authors explore issues and strategies for realizing and sustaining the agenda of education for all within, primarily but not limited to, the Caribbean. While the authors are aware of the ongoing debate between the terms education for all and inclusive education, we use these terms interchangeably. We hold the position that inclusive education is about commitment to removing barriers to optimum learning for all learners regardless of age, ability, ethnicity, gender, geography, race, religion, sexual orientation, or other differences. *Responding to Learner Diversity and Difficulties* extend the discourse to include stakeholders committed to sharing their experiences and strategies for overcoming barriers to inclusive education. This second volume presents research that examines how teachers can respond to students with disabilities and difficulties learning, teach challenging curriculum content in mathematics and literacy, build citizenship through student voice, improve teacher practice via co-teaching and critical reflection, promote inclusive practice through leadership and advocacy. It can be used as a core text or companion reader for students at the undergraduate and graduate levels, lecturers, practitioners, researchers, and policy makers.

**Learning Disabilities** Phakharawat Sittiprapaporn, 2012-03-14 Learning disability is a classification that includes several disorders in which a person has difficulty learning in a typical manner. Depending on the type and severity of the disability, interventions may be used to help the individual learn strategies that will foster future success. Some interventions can be quite simplistic, while others are intricate and complex. This book deserves a wide audience; it will be beneficial not only for teachers and parents struggling with attachment or behavior issues but it will also benefit health care professionals and therapists working directly with special needs such as sensory integration dysfunction.

*The Race Controversy in American Education* Lillian Dowdell Drakeford Ph.D., 2015-07-28 In this unique two-volume work, expert scholars and practitioners examine race and racism in public education, tackling controversial educational issues such as the school-to-prison pipeline, charter schools, school funding, affirmative action, and racialized curricula. This work is built on the premise that recent efforts to advance color-blind, race-neutral educational policies and reforms have not only proven ineffective in achieving racial equity and equality of

educational opportunities and outcomes in America's public schools but also exacerbated existing inequalities. That point is made through a collection of essays that examine the consequences of racial inequality on the school experience and success of students of color and other historically marginalized populations. Addressing K-12 education and higher education in historically black as well as predominantly white institutions, the work probes the impact of race and racism on education policies and reforms to determine the role schools, school processes, and school structures play in the perpetuation of racial inequality in American education. Each volume validates the impact of race on teaching and learning and exposes the ways in which racism manifests itself in U.S. schools. In addition, practical recommendations are presented that may be used to confront and eradicate racism in education. By exposing what happens when issues of race and racism are marginalized or ignored, this collection will prepare readers to resist and perhaps finally overcome the racial inequality that plagues America's schools.

**Characteristics of and Strategies for Teaching Students with Mild Disabilities** Martin Henley, Roberta S. Ramsey, Robert Algozzine, 2006. Describes the characteristics of students with mild disabilities and clearly explains the best teaching practices for inclusive education, behavior management, social skill instruction, and modifying classroom instruction for students with mild disabilities. *Learning Disabilities* Jeffrey P. Bakken, Festus E. Obiakor, Anthony F. Rotatori, 2013-01-25. Written by leaders in the field of learning disabilities, this volume addresses various perspectives and issues related to learning disabilities. It includes chapters on Legal Issues and Learning Disabilities, Themes and Dimensions of Learning Disabilities, and Identification and Assessment of Students with LD.

**The School-to-Prison Pipeline** Nancy A. Heitzeg, 2016-04-11. This book offers a research and comparison-driven look at the school-to-prison pipeline, its racial dynamics, the connections to mass incarceration, and our flawed educational climate, and suggests practical remedies for change. How is racism perpetuated by the education system, particularly via the school-to-prison pipeline? How is the school-to-prison pipeline intrinsically connected to the larger context of the prison industrial complex, as well as the extensive and ongoing criminalization of youth of color? This book uniquely describes the system of policies and practices that racialize criminalization by routing youth of color out of school and towards prison via the school-to-prison pipeline, while simultaneously medicalizing white youth for comparable behaviors. This work is the first to consider and link all of the research and data from a sociological perspective, using this information to locate racism in our educational systems, describe the rise of the so-called prison industrial complex, spotlight the concomitant expansion of the medical industrial complex as an alternative for controlling the white and well-off, both adult and juveniles, and explore the significance of media in furthering the white racial frame that typically views people of color as criminals as an automatic response. The author also examines the racial dynamics of the school-to-prison pipeline as documented by rates of suspension, expulsion, and referrals to legal systems, and sheds light on the comparative dynamics of the related educational social control of white and middle-class youth in the larger context of society as a whole.
