**Functions of the Fantastic** Joseph L. Sanders, 1995-11-14 This collection of 23 essays represents the best papers from the Thirteenth International Conference on the Fantastic in the Arts. Scholars representing diverse perspectives on the fantastic address a variety of works including those by Jane Austen, J. R. R. Tolkien, Stephen Donaldson, Ursula Le Guin, Jean Baudrillard, Anatole France, William Blake, and Angela Carter. Subjects addressed range from children's tales and classic literature to paper sculptures and popular television series. Containing provocative applications of scholarly observation to practical life, this volume will be of interest to scholars of science fiction, fantasy, horror, and popular culture, and to others who want to know which topics are currently in vogue in the field. [The Fantastic in Religious Narrative from Exodus to Elisha](#)

Laura Feldt, 2014-10-14 The Fantastic in Religious Narrative from Exodus to Elisha argues that perspectives drawn from literary critical theories of the fantastic and fantasy are apt to explore Hebrew Bible religious narratives. The book focuses on the narratives of marvels, monsters, and magic rather than whether or not the stories depict historical events. The Exodus narrative (Ex 1-18) and a selection of additional Hebrew Bible narratives (Num 11-14, Judg 6-8, 1 Kings 17-19, 2 Kings 4-7) are analysed from a fantasy theoretical perspective. The fantasy perspective helps to make sense of elements of these narratives that although prominently featured in the stories have previously often been explained away. These case studies can illuminate Hebrew Bible religion and offer wider perspectives on religious narrative generally. In light of the fantasy theoretical approach, these Hebrew Bible stories with the Exodus narrative at the centre read not as foundational stories affirming triumphantly and unambiguously the bond between the deity, his people, and their territory, but rather as texts that harbour and even actively encourage ambiguity and uncertainty, not necessarily prompting belief, orientation, and a sense of meaningfulness, but also open-ended reflection and doubt. The case studies suggest that other religious narratives both in and beyond the Judaic tradition may also be amenable to interpretation in these terms, thus questioning a dominant trend in myth studies. The results of the analyses lead to a discussion of the role of ambiguity, uncertainty, and transformation in religious narrative in broader perspective and to a questioning of the emphasis in the study of religion on the capacity of religious narrative for founding and maintaining institutions, orienting identity, and defending order over disorder. The book suggests the wider importance of incorporating destabilisation, disorientation, and ambiguity more strongly into theories of what religious narrative is and does.

**Contemporary Italian Women Writers and Traces of the Fantastic** Danielle Hipkins, 2017-12-02 Contemporary fantastic fiction, particularly that written by women, often challenges traditional literary practice. At the same time, the predominantly male-authored canon of fantastic literature offers a problematic range of gender stereotypes for female authors to re-write. Fantastic tropes of space, in particular, enable three important contemporary Italian female writers, Paola Capriolo (b. 1962), Francesca Duranti (b. 1935), and Rossana Ombres (b. 1931), to encounter and counter anxieties about writing from the female subject. All three writers begin by exploring the hermetic fantastic space of enclosure

with a critical or troubled eye but eventually opt for wider national and often international spaces in which only a fantastic trace remains This shift mirrors their own increasingly confident distance from male authored literary models and demonstrates the creative input that these writers bring to the literary canon by redefining its generic boundaries **The**

**Fantastic** Tzvetan Todorov,1975 In *The Fantastic* Tzvetan Todorov seeks to examine both generic theory and a particular genre moving back and forth between a poetics of the fantastic itself and a metapoetics or theory of theorizing even as he suggests that one must as a critic move back and forth between theory and history between idea and fact His work on the fantastic is indeed about a historical phenomenon that we recognize about specific works that we may read but it is also about the use and abuse of generic theory As an essay in fictional poetics *The Fantastic* is consciously structuralist in its approach to the generic subject Todorov seeks linguistic bases for the structural features he notes in a variety of fantastic texts including Potocki's *The Sargasso Manuscript* Nerval's *Aurélia* Balzac's *The Magic Skin* the *Arabian Nights* Cazotte's *Le Diable Amoureux* Kafka's *The Metamorphosis* and tales by E T A Hoffman Charles Perrault Guy de Maupassant Nikolai Gogol and Edgar A Poe **Space and the Postmodern Fantastic in Contemporary Literature** Patricia Garcia,2015-04-24

Arising from the philosophical conviction that our sense of space plays a direct role in our apprehension and construction of reality both factual and fictional this book investigates how conceptions of postmodern space have transformed the history of the impossible in literature Deeply influenced by the work of Jorge Luis Borges and Julio Cortázar there has been an unprecedented rise in the number of fantastic texts in which the impossible is bound to space space not as scene of action but as impossible element performing a fantastic transgression within the storyworld This book conceptualizes and contextualizes this postmodern fantastic use of space that disrupts the reader's comfortable notion of space as objective reality in favor of the concept of space as socially mediated constructed and conventional In an illustration of the transnational nature of this phenomenon García analyzes a varied corpus of the Fantastic in the past four decades from different cultures and languages merging literary analysis with classical questions of space related to the fields of philosophy urban studies and anthropology Texts include authors such as Julio Cortázar Argentina John Barth USA J G Ballard UK Jacques Sternberg Belgium Fernando Iwasaki Per Juan José Millás Spain and Ric Faye France This book contributes to Literary Theory and Comparative Literature in the areas of the Fantastic narratology and Geocriticism and informs the continuing interdisciplinary debate on how human beings make sense of space **The Fantastic in France and Russia in the 19th**

**Century** Claire Whitehead,2017-12-02 Hesitation between a natural or supernatural interpretation of fictional events is the life blood of the fantastic but just how is this hesitation provoked In this detailed and insightful study Claire Whitehead uses examples from nineteenth century French and Russian literature to provide a range of narrative and syntactic answers to this question A close reading of eight key works by Alexander Pushkin Vladimir Odoevskii Nikolai Gogol Fedor Dostoevskii Theophile Gautier Prosper Mérimée and Guy de Maupassant illustrates how ambiguity is provoked by such factors as point of

view multiple voice and narrative authority The analysis of hesitation experienced in works depicting madness or ironic self consciousness advocates the inclusion in the genre of previously marginalized texts The close comparison of works from these two national traditions shows that the fundamental discursive features of the fantastic do not belong to any one language

**Critical Discourses of the Fantastic, 1712-1831** David Sandner,2016-04-22 Challenging literary histories that locate the emergence of fantastic literature in the Romantic period David Sandner shows that tales of wonder and imagination were extremely popular throughout the eighteenth century Sandner engages contemporary critical definitions and defenses of eighteenth and early nineteenth century fantastic literature demonstrating that a century of debate and experimentation preceded the Romantic s interest in the creative imagination In *The Fairy Way of Writing* Joseph Addison first defines the literary use of the supernatural in a modern and rational age Other writers like Richard Hurd James Beattie Samuel Johnson James Percy and Walter Scott influence the shape of the fantastic by defining and describing the modern fantastic in relation to a fabulous and primitive past As the genre of the purely imaginary Sandner argues the fantastic functions as a discourse of the sublime imagination albeit a contested discourse that threatens to disrupt any attempt to ground the sublime in the realistic or sympathetic imagination His readings of works by authors such as Ann Radcliffe William Beckford Horace Walpole Mary Shelley Walter Scott and

James Hogg not only redefine the antecedents of the fantastic but also offer a convincing account of how and why the fantastic came to be marginalized in the wake of the Enlightenment

**The Fantastic in Literature** Eric S. Rabkin, 2015-03-08 What exactly is the fantastic In the twentieth century world our notions of what is impossible are assaulted every day To define the nature of fantasy and the fantastic Eric S Rabkin considers its role in fairy tales science fiction detective stories and religious allegory as well as in traditional literature The examples he studies range from Grimm s fairy tales to Agatha Christie from Childhood s End to the novels of Henry James from Voltaire to Robbe Grillet to A Canticle for Leibowitz By analyzing different works of literature the author shows that the fantastic depends on a reversal of the ground rules of a narrative world This reversal signals most commonly a psychological escape often from boredom to an unknown world secretly yearned for whose order although reversed bears a precise relation to reality Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
