Choosing Down Syndrome Chris Kaposy,2022-08-09 An argument that more people should have children with Down syndrome written from a pro choice disability positive perspective The rate at which parents choose to terminate a pregnancy when prenatal tests indicate that the fetus has Down syndrome is between 60 and 90 percent In Choosing Down Syndrome Chris Kaposy offers a carefully reasoned ethical argument in favor of choosing to have such a child Arguing from a pro choice disability positive perspective Kaposy makes the case that there is a common social bias against cognitive disability that influences decisions about prenatal testing and terminating pregnancies and that more people should resist this bias by having children with Down syndrome Drawing on accounts by parents of children with Down syndrome and arguing for their objectivity Kaposy finds that these parents see themselves and their families as having benefitted from having a child with Down syndrome To counter those who might characterize these accounts as based on self deception or expressing adaptive preference Kaposy cites supporting evidence including divorce rates and observational studies showing that families including children with Down syndrome typically function well Himself the father of a child with Down syndrome Kaposy argues that cognitive disability associated with Down syndrome does not lead to diminished well being He argues further that parental expectations are influenced by neoliberal ideologies that unduly focus on the supposed diminished economic potential of a person with Down syndrome Kaposy does not advocate restricting access to abortion or prenatal testing for Down syndrome and he does not argue that it is ethically mandatory in all cases to give birth to a child with Down syndrome People should be free to make important decisions based on their values Kaposy s argument shows that it may be consistent with their values to welcome a child with Down syndrome into the family **Lpc Report** Jung H. Kim,2007-02 A unique study of the perfect life form also known as the LPC space or the Life Perfect Computer Jung Hwa Kim compares this form of life to the functions of a computer with several complex entities An intriguing examination of the human path to wisdom *Earth* Frank Townshend,1929 **The House Across the Street** R. K. Byers,2019-09-26 The book s theme concerns a young adolescent boy growing up and discovering the world of sex and love His success and failures result in his creating his own choices sometimes against his own character leanings often in accordance with his changing biology During this period he sporadically stands apart and examines what is happening as if out of time analyzing its sense

and nonsense from a different dimension The sociological and psychological implications alone make this book an exciting read something akin to Carl Jung meeting Max Weber In addition the theological difficulties from the day take on a life of their own explaining how some of us ended up where we are today The philosophical issues of the day too take on a humorous new life in this seminal work Whether you grew up in the age or not boy or girl it s difficult not being able to walk next to him and understand oneself in a very new way Mr Byers tells stories with the buoyancy of Thomas Wolfe the subtle quirkiness of William Faulkner and the grace of Flannery O Connor Even in its heaviest moments you never want to put the work down caught as one is between wondering whether where it is headed and wishing it would go in another direction Anyone curious about the sixties especially how the era affected their beliefs as well as the present age would enjoy reading this book
