Finitude's Score Avital Ronell, 1994-01-01 Suspending the distinction between headline news and high theory Avital Ronell examines the diverse figures of finitude in our modernity war guerrilla video trauma TV AIDS music divorce sadism electronic tagging rumor Her essays address such questions as How do rumors kill How has video become the conscience of TV How have the police come to be everywhere even where they are not Is peace possible Writing to the community of those who have no community to those who have known the infiniteness of abandonment her work explores the possibility one possibility among many that this time we have gone too far One last word It is possible that we have gone too far This possibility has to be considered if we as a species as a history are going to get anywhere at all **Rahel Levin Varnhagen**

Heidi Thomann Tewarson, Rahel Varnhagen, 1998-01-01 For a woman Rahel Levin Varnhagen 1771-1833 occupied a unique place in German intellectual history Heidi Tewarson gives us a rich account of Varnhagen's intellectual community and her writings which led to her reputation as a leading intellectual of her era a champion of literary figures and movements of human rights and of Enlightenment values 17 illustrations Keepers of the Motherland Dagmar C. G. Lorenz, 1997-01-01 Keepers of the Motherland is the first comprehensive study of German and Austrian Jewish women authors Dagmar Lorenz begins with an examination of the Yiddish author Glikl Hamil whose works date from the late seventeenth and early eighteenth centuries and proceeds through such contemporary writers as Grete Weil Katja Behrens and Ruth Kluger Along the way she examines an extraordinary range of distinguished authors including Else Lasker-Schler Rosa Luxemburg Nelly Sachs and Gertrud Kolmar Although Lorenz highlights the author's individualities she unifies Keepers of the Motherland with sustained attention to the ways in which they all reflect upon their identities as Jews and women In this spirit Lorenz argues that the themes and characters as well as the environments evoked in the texts of Jewish women authors writing in German resist patriarchal structures The term motherland defining the domain of the Jewish woman's native language regardless of political or ethnic boundaries is juxtaposed with the concept fatherland referring to the power structures of the nation or state in which she resides Lorenz describes a vital diverse and largely dissident literary tradition a brilliant countertradition in effect that has endured in spite of oppression and genocide Combining careful research with inspired synthesis Lorenz provides an indispensable work for students of German Jewish and women's writings **Man of Ashes** Salomon Isacovici, Juan Manuel Rodriguez, 2001-09-01 Salomon Isacovici was born to a farming family in western Romania One day in 1940 his family woke as Hungarians re-nationalised overnight by the changing borders of World War II To other Hungarians they were Jews and week by week their world grew worse In 1944 the Germans arrived and Isacovici his family and every other Jew from his town were pushed into cattle cars and taken ever closer to the soot and smoke of Auschwitz He became a man of ashes Man of Ashes was first published in Mexico in 1990 as A7393 Hombre de cenizas and was awarded the Fernando Jeno Prize The English translation has been thoroughly revised in collaboration with Salomon Isacovici Dick Gerdes

is a professor of Spanish at George Mason University He won the Soeurette Diehl Fraser Award for his translation of Diamela Eltit's *The Fourth World* Nebraska 1995 Antisemitism, Misogyny, & the Logic of Cultural Difference Nancy Anne Harrowitz, 1994-01-01 Are there connections between misogyny and antisemitism If so what would these connections be and to what degree are these prejudices reinforced or even generated by nineteenth century science This book explores these compelling questions by discussing two Italian authors of the late nineteenth century a period when both antisemitism and misogyny were crucial concerns to society as they still are today One author Cesare Lombroso was a famous criminologist whose ideas about juvenile court indeterminate sentencing and parole still influence the American justice system He was Jewish himself yet wrote a book about antisemitism which blamed the Jews for their condition and proposed assimilation as an answer to the problem of prejudice He also wrote highly derogatory work on women The other author Matilde Serao a well known journalist and novelist built a brilliant career for herself but in her newspaper editorials advised other women to stay home In her novels she often demonstrated ambivalence and hostility towards women's condition and she used antisemitic stereotypes in some of her work *Antisemitism Misogyny and the Logic of Cultural Difference* demonstrates how similar is the logic of these two authors prejudice towards women and Jews as they both depend on the science of their day such as Darwinism to justify their views It raises as well the issues of why their prejudice focuses on women and Jews since one author is Jewish and the other a woman how prejudice towards different groups can intersect and the role of the difficult and complex concept of self hatred **Richard Wagner and the Anti-Semitic Imagination** Marc A. Weiner, 1997-01-01 This book addresses one of the most hotly contested debates in contemporary cultural life the question of how anti-Semitism figures in the operas of Richard Wagner Until now scholars have generally acknowledged Wagner's anti-Semitism but have argued that it is irrelevant to the operas themselves Marc A Weiner challenges that traditional view by asserting that anti-Semitism is a crucial pervasive feature in Wagner's operas Weiner argues that the operas exemplify and contribute to a vast collection of images that are patently anti-Semitic and that were readily recognized as such by nineteenth century German audiences These images were associated particularly with the body Through a careful examination of Wagner's music libretti and stage directions Weiner reconstructs iconographies of corporeal images iconographies of the eye voice smell gait and sexuality that were essential to the operas and were associated with anti-Semitism and the longing for an imagined German community Opera Linda Hutcheon, Michael Hutcheon, 1996-01-01 An interdisciplinary study of the interconnected subtexts of erotic attraction illness and death in several 19th and 20th century operatic texts This is an examination of how opera uses the singing body to give voice to the suffering person It presents medical and literary sources to make sense of the changing depiction of disease in opera Semiotica ,2000 **The Imaginary Jew** Alain Finkielkraut, 1997-01-01 The Holocaust changed what it means to be a Jew for Jew and non Jew alike Much of the discussion about this new meaning is a storm of contradictions In *The Imaginary Jew* Alain Finkielkraut describes with passion and acuity his own passage through

that storm Finkelkraut decodes the shifts in anti-Semitism at the end of the Cold War chronicles the impact of Israel's policies on European Jews opposes arguments both for and against cultural assimilation reopens questions about Marx and Judaism and marks the loss of European Jewish culture through catastrophe ignorance and cliché He notes that those who identified with Israel continued the erasure of European Judaism forgetting the pangs and glories of Yiddish culture and the legacy of the Diaspora

Organic Memory Laura Otis, 1994-01-01 How does the past live in us Do we inherit our ancestors' memories as we do their physical characteristics In the nineteenth century mainstream science embraced a long standing superstition the belief that memory could be inherited Scientists reasoned that just as bodies were reproduced from generation to generation so were thoughts memories and cultural achievements Heredity and identity were no mere family matter but the basis of nations The glories and sins of the past were not gone they remained in the tissues of living people who could be honored or blamed accordingly Organic Memory surveys the literary and scientific history of an idea that will not go away Focusing on the years between 1870 and 1918 Otis explores both the origins and the consequences of the idea that memories can be inherited The organic memory theory contributed to the genocidal programs of the Third Reich and it erupts in pop psychology racist propaganda and ethnic cleansing To track the spread intensity and endurance of this especially powerful idea Otis singles out major authors whose work reinforced or ridiculed belief in organic memory They include writers who were internationally influential yet who simultaneously represented their national traditions Thomas Mann Sigmund Freud C G Jung Emile Zola Thomas Hardy Miguel de Unamuno P o Baroja Emilia Pardo Baz n and even Sir Arthur Conan Doyle The debates over the human genome project and the explosions of ethnic violence in the former Yugoslavia in Azerbaijan Somalia and elsewhere demonstrate how seriously organic memory continues to affect modern medicine and politics

Poetic Process W. G. Kudsus, 1995-01-01 Georg Trakl 1887 1914 has emerged as one of the most influential poets of the century Kudsus both explores and participates in the relentless process of Trakl's writing Presumptions of objectivity authority dialogue and coherence are questioned in a discourse that also involves Martin Heidegger's philosophical reflections on Trakl C G Jung's self-analytical reading of James Joyce's Ulysses and the Bluebeard tale as related by Charles Perrault Faithful to its title Poetic Process activates key issues of twentieth century poetry terror pain madness imagination unbound through a dynamically self-reflective inquiry Under the impact of the poetic text this investigation engages in a continuous refinement and transformation of its own critical stance Poetic Process draws on the ability of poetry to explore uncharted realms of the human condition The result is a contribution to the knowledge of poetic language and effects

The Recovery of the Public World Robin Blaser, 1999 A collection of texts and talks which address the work of poet Robin Blaser

Benjamin's Passages Alexander Gelley, 2014-12-15 In transposing the Freudian dream work from the individual subject to the collective Walter Benjamin projected a macrosomic journey of the individual sleeper to the dreaming collective which through the arcades communes with its own insides Benjamin's effort to transpose

the dream phenomenon to the history of a collective remained fragmentary though it underlies the principle of retrograde temporality which it is argued is central to his idea of history The passages are not just the Paris arcades They refer also to Benjamin s effort to negotiate the labyrinth of his work and thought Gelley works through many of Benjamin s later works and examines important critical questions the interplay of aesthetics and politics the genre of The Arcades Project citation language messianism aura and the motifs of memory the crowd and awakening For Benjamin memory is not only antiquarian it functions as a solicitation a call to a collectivity to come Gelley reads this call in the motif of awakening which conveys a qualified but crucial performative intention of Benjamin s undertaking **The Domain-Matrix** Sue-Ellen Case,1997-02-22

This book demonstrates Case s continued dominance of the field of lesbian performance studies Case s dense rich and complex work very likely will be a central text for anyone interested in debating the changing theoretical landscape for performance studies and queer theory All readers interested in what the future might hold for scholarship in the humanities should study Case s thought provoking work which is an essential addition to any college or university s collection Choice this is a book that is enormously provocative that will make you think and feel connected with the latest speculation on the implications of the electronic age we inhabit Lesbian Review of Books definitely required reading for any future thinking lesbian Lambda Book Report The Domain Matrix is about the passage from print culture to electronic screen culture and how this passage affects the reader or computer user Sections are organized to emulate in a printed book the reader s experience of computer windows Case traces the portrait of virtual identities within queer and lesbian critical practice and virtual technologies **Subject Guide to Books in Print** ,2001 *The British National Bibliography* Arthur James Wells,1995

"Our Place in Al-Andalus" Gil David Anidjar,1998 *Lingua Fracta* Collin Gifford Brooke,2009 This book begins from the assumption that there is an intrinsically technological dimension to rhetoric arguing that we have become so accustomed to practicing rhetoric in the context of print technologies that we have often naturalized or ignored that dimension New communication and information technologies do not simply provide us with new sites of rhetorical practice instead they challenge us to reconceive rhetoric altogether This groundbreaking volume argues that a rhetoric of new media should attend to ecologies of practice treating interfaced rather than texts as our sites and units of analysis To devise such a rhetoric the book offers a systematic reconsideration of the canons of classical rhetoric Rather than understanding the canons as stages in a linear composing process this book describes the canons as repertoires of multiple practices that shift as we move among media Drawing on examples that range from Wikipedia to World of Warcraft the book reconstitutes the canons restoring to them the vitality they held for ancient rhetoricians and reshaping them into a framework for understanding the technological developments facing future generations **Forthcoming Books** Rose Arny,1994-02
