Fireflies Bugs Bugs Bugs:

Fireflies, Glow-worms, and Lightning Bugs Lynn Frierson Faust, 2017-03-01 This is the first comprehensive firefly guide for eastern and central North America ever published. It is written for all those who want to know more about the amazing world of lightning bugs and learn the secrets hidden in the flash patterns of the 75 species found in the eastern and central U.S. and Canada. As an independent researcher working with numerous university teams, naturalist Lynn Frierson Faust, The Lightning Bug Lady, has spent decades tracking the behavior and researching the habitats of these fascinating creatures. Based on her twenty-five years of field work, this book is intended to increase understanding and appreciation of bioluminescent insects while igniting enthusiasm in a fun and informative way. Species accounts are coupled with historical background and literary epigraphs to engage and draw readers young and old into the world of these tiny sparklers. A chart documenting the flash patterns of the various species will aid in identification. Clear photos illustrate the insects distinguishing physical characteristics while habitats, seasonality, and common names are provided in clear, easy-to-understand yet scientifically accurate language. The guide will be welcomed by everyone who wants to learn more about fireflies and glow worms, unique traits, and about their fragile niche in the ecosystem.

FEATURES: Over 600 color photographs. Detailed accounts and anatomical diagrams of 75 species, as well as aids in distinguishing between similar species. A first of its kind flash pattern chart that folds out on heavy weight paper. Extensive scientific details written in an understandable and engaging way. Colorful common names: Twilight Bush Baby, Shadow Ghosts, and Snappy Syncs, and more for easy species identification based on flash patterns.
