An Arrogant Nation That Creates Its Own Reality: Rogene A. Buchholz, 2019-11-13 Americans seem prone to create their own reality in situations that have faced them over the past several years and this arrogance cost the country dearly Three events stand out as prime examples this arrogance The first of these events was the war in Iraq which was based on the false reality that the country possessed weapons of mass destruction and had ties to terrorist organizations The second example was the financial crisis of 2008 which was precipitated by the invention of new and complicated investment vehicles The last example is the current Trump administration which was filled with falsehoods during the campaign and his first years in office such that one could not believe anything that this administration said This book is going to focus on religious reasons for this situation as I believe that it is the Christian religion that is largely at fault for this condition It is religion that has set up most Americans to believe our leaders when they outright lie and claim to know things beyond what the evidence will support and create a false reality that eventually comes crashing down to disrupt American life If our nation is ever going to be great it must quit living in a fantasy world and give up a belief in magic as far as its future is concerned Decisions in government and business must be based on reality as it is and not on what we arrogantly think we can create The two go together as the more we try and create our own reality the less able we are to come to grips with the reality that actually exists The place to start is by recognizing the role the Christian religion has played in this phenomenon and letting go of the fantasies that comprise this religion and live a secular life that finds meaning and purpose in this world rather than in some hereafter We will not successfully deal with all the problems with which we are

faced and have a political and economic system that works for everyone until this happens **THE FANTASY OF FAITH**
Rogene A. Buchholz,2023-08-16 In a nutshell Christianity is one of the greatest if not the greatest hoax ever perpetuated on people in the history of the universe It is practically all fantasy of one sort or another that millions of people believe in all over the world and have done so for many centuries since Christianity began It all could have been made up out of whole cloth The Old Testament cannot be taken at face value as the creation story was most likely borrowed from other sources and adapted to fit with the author's purpose of explaining how the world began The Exodus may be entirely fiction and most certainly did not happen the way it is described in the Bible As far as the New Testament is concerned it was written decades after the crucifixion of Jesus by people who were not eyewitnesses to the events they described There may have been a prophet whose teachings drew many followers but there was certainly no virgin birth no miracles and no resurrection The purpose of all the apocalyptic writing and second coming of Christ may have been motivated by the oppression of the Roman Empire where the Jewish people felt powerless and needed to believe in something that would provide them with a feeling that in the final analysis justice would be done and they would get their revenge Thus Christianity needs to be exposed for the fraud that it is which is what this book attempts to do by looking at the history of Christianity Biblical scholarship and other aspects of Christianity along with its alternatives Create Your Own Religion Daniele Bolelli,2013-01-01 Create Your Own Religion is a call to arms an open invitation to question all the values beliefs and worldviews that humanity has so far held as sacred in order to find the answers we need to the very practical problems facing us Writer philosopher and professor of comparative religion Daniele Bolelli leads the reader through three thousand years of mythology misogyny misinformation and the flat out lies about revealed truth that continue to muddle our ability to live a peaceful life free of guilt and shame and the ultimate fear of death Our worldviews are in desperate need of some housecleaning says Bolelli We enter the 21st century still carrying on our backs the prejudices and ways of thinking of countless past generations What worked for them may or may not still be of use so it is our job to make sure to save the tools that can help us and let go of the dead weight

How Can a Rational God Allow Irrational Numbers? Joseph M. Wolfe,2025-04-28 Although most people did not enjoy solving word problems in math class that type of logic is used every day of an adult's life Engaging the intellectual community with Christian principles and critical reasoning this book connects the dots between science and the supernatural beliefs and behaviors the Bible and Brave New World It demonstrates how scientific and mathematical principles tie the spiritual world to literature engineering psychology and philosophy Consider the worldview offered by mainstream science and its ramifications on human society and the ultimately meaningless dead end that humanity represents in the evolutionary chain Is this worldview accurate Does one's internal search for purpose thirst for knowledge and empathy toward others not contradict this worldview The author endeavors to explain the Christian worldview in a way that even the intellectual can understand Woe to intellectuals who claim that faith is merely for the uneducated or the mentally inferior this thinking is

both fool and folly There is yet one thing that mainstream science and Christianity have come to agree on The world is going to hell in a handbasket and it s all man s fault **Christianity in Politics** Rogene A. Buchholz,2021-12-01 Democracy is in peril and on the brink of extinction in the United States of America There are many reasons why it has gotten to this point but this book looks exclusively at the role Evangelical Christianity has played in the process By infusing the Republican Party with its values world view and its vision for America it has contributed to the divisiveness that has made it virtually impossible to govern Our government is hopelessly crippled because of two different world views one that is inherently racist and exclusionary where evidence doesn t matter and authoritarianism is favored and the other that is more inclusive and progressive where evidence matters science is respected and democracy is valued It is difficult to find a common ground between these world views and get anything done for the country making alternative means of governing more attractive to people throughout the world who are watching what is happening in America Growing Love In Christian Marriage Third Edition - Couple's Manual (Pkg of 2) Joan and Richard Hunt,2013-03-01 For use by couples for marriage preparation either during pre wedding counseling or with a mentor couple The Couple s Edition is built upon four vital marriage themes Faith Through Covenantal Commitment the foundations what the couple brings to their marriage Power Through Shared Communication the basics and skills of communication in marriage Love Through Caring Relationships the couple their larger families and their work and Hope Through Life s Journey a sneak preview of the years ahead of the couple Each person will need his or her own copy of the eBook A Marriage of Philosophy and Music Erich Welling,2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in A Marriage of Philosophy and Music It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art **Tired of Apologizing for a Church I Don't Belong To** Lillian Daniel,2016-09-20 When Lillian Daniel apologized to a total stranger for every bad thing that had ever been said or done in the name of Christianity he was surprised that she was responsible for all that The Inquisition Don t even raise it I m way ahead of you I was mad about it before you even heard of it that s how open minded I am Salem witch trials I know So

embarrassing Can I hang out with you anyway You re too kind Religion is responsible for all the wars in history they would say and I d respond You re so right Don t forget imperialism capitalism and racism Religion invented those problems too You can tell that because religious people can be found at all their meetings In this book Daniel argues that it s time for Christians to stop apologizing and realize that how we talk about Christian community matters With disarming candor laced with just the right amount of humor Daniel urges open minded Christians to explore ways to talk about their faith journeys that are reasonable rigorous and real After the publication of the much talked about When Spiritual But Not Religious Is Not Enough Seeing God In Surprising Places Even the Church Lillian Daniel heard from many SBNRs as well as practicing Christians It was the Christians who scolded her for her forthright unapologetic stand as one who believes that religious community matters The Christians ranted that Christians by definition tend to be judgmental condemning hypocrites which is why people hate them By saying religion matters she was judging those who disagree they said proving the stereotype of Christians Better to acknowledge all that s wrong with Christianity and its history then apologize In this book Daniel shows why it matters how we talk about Christian community while urging open minded Christians to learn better ways to talk about their faith

Religions and Civil Wars Dr. Ahmed Hosney, PHD,2011-01-19 All men are created equal Mankind must focus on peace among themselves on earth Humble themselves in a way to treat each other with honor dignity respect and forgiveness Pride is all belonging to God God says pride is my dress and I do not allow anyone of you to share pride with me So there is no difference between any race color or religion in front of God Human beings must unify themselves in one confederate to protect the good Together we can recover and gain those who stray from God s confederate We should see all human beings as one family one nati on under God to be a winner of the covenant of God and pray we all return to the promised paradise
