

The background of the cover features several abstract, glowing molecular or network structures. These structures are composed of interconnected nodes (represented by small spheres in blue, red, and yellow) and edges (represented by thin lines). Some structures are elongated and linear, while others are more branched or star-like. They are set against a dark, textured background that resembles a night sky or a microscopic view of a material.

Amidst Global Transformations Ayyoob Sharifi, Dahlia Simangan, Shinji Kaneko, 2023-12-22 This book is the sequel to a well received book titled Integrated Approaches to Peace and Sustainability that aims to further advance the understanding of the dynamic interactions between various components of peace and sustainability How are peace and sustainability linked to each other and what are the key parameters that define the nexus between them This book addresses those questions through a combination of theoretical studies and empirical research that contextualize peace and sustainability issues amid global transformations The conceptual and empirical linkages between peace and sustainability are widely recognized in academic and policy circles The adoption of the 2030 Agenda for Sustainable Development confirms this recognition However many of the initiatives on peace and sustainability operate in silos undermining the positive and mutually reinforcing relationship between them Enhanced integration of peace and sustainability components is imperative for addressing complex challenges that come with global transformations that are manifested environmentally socially politically and economically across levels It is therefore crucial to identify the pathways that enhance the peace promoting potential of sustainability and the sustainability promoting potential of peace The contributions in this edited book elaborate on such pathways by offering insights related to different social economic and environmental aspects of the peace sustainability nexus Given its inter and trans disciplinary focus the book is of interest to policymakers and researchers working in different areas of peace and sustainability It contributes to ongoing academic and policy discussions surrounding the outcomes of and challenges to achieving the Sustainable Development Goals SDGs particularly SDG 16 on peace justice and strong institutions **Applications of Service Learning in Higher Education** Watson, Sandy White, 2024-03-22 In higher

education a pressing issue has emerged how to authentically connect academic pursuits with real world challenges The last

decade has witnessed an escalating call for heightened interaction between universities and the real world. Demands have grown for higher education institutions to instill democratic citizenship and address students' moral development. In response to this rise in demand, there has been a notable shift toward emphasizing service learning within academia. As educators grapple with the imperative to seamlessly integrate theory and practice, Applications of Service Learning in Higher Education steps into the forefront, delving into the myriad applications of service learning to effectively address this critical issue. Applications of Service Learning in Higher Education examines the complexities surrounding service learning in higher education. At its core, the book aims to showcase concrete examples of successful service learning applications acting as a catalyst for the integration of this transformative pedagogy into the academic fabric. Beyond the surface, the book delves into the intricate planning, execution, and assessment stages of service learning projects, whether manifested within local communities or on an international scale. It seeks to fill notable knowledge gaps, particularly in less explored regions like Latin America and the Caribbean, and underscores the significance of multidisciplinary experiences. As the narrative unfolds, the book addresses the symbiotic relationship between service learning and students' programs of study, transforming communities into vibrant classrooms where learning transcends traditional boundaries.

Routledge Handbook of Turkey's Diasporas Ayca Arkilic, Banu Senay, 2024-08-21. This handbook, the first of its kind, provides a rich overview of the socio-political issues and dynamics impacting Turkey's diasporic groups and diaspora policymaking. Turkey constitutes an important case study in the field of diaspora studies, with a diaspora population of around 6.5 million. This handbook therefore brings together emerging and established scholars to explore the central issues, actors, and processes relating to Turkey's diasporic groups and diaspora outreach. Taken together, the historical and contemporary analyses presented in this volume provide readers a multi-lens perspective on the trajectories of Turkey's diasporic communities and diaspora policymaking in a wide range of regional contexts, including Europe, North America, and Oceania. The handbook comprises six analytical parts: Contextualising Turkey's diasporas past and present; Localisation, transnational belongings, and identity; Governing diasporas; Micro spaces and everyday practices; Cultural production, aesthetics, and creativity; Country-specific perspectives. The volume offers insights into the debates and processes that structure each of these thematic clusters but also provides a comprehensive overview of the dynamics shaping Turkey's diverse diaspora populations today. The contributions encompass a range of disciplines, including anthropology, history, human geography, political science, international relations, and sociology, and the volume will be vital reading for anyone interested in Turkey, the Middle East, and diasporas.

Articulating Asia in Japanese Higher Education Jeremy Broaden, 2018-01-12. This book is a study of cross-border activity in and around Japanese universities, employing Asia as the cornerstone of inquiry. It offers qualitative case-based analysis of Asia-oriented student mobility and partnership projects, framed by critical evaluation of discourses and texts concerning Japan's positioning in an era of Asian ascendancy. This combination of Asia as theme and international higher education as empirical subject matter
