intercultural communication pedagogy with a particular focus on modern foreign language education The main aim is to trace the realisations of this critical turn against a background of unequal power relations and to illuminate the role that radical culture educators can play in the making of a more democratic and egalitarian social order The volume takes as a starting point the idea that criticality draws on a number of intellectual traditions which do not always focus on social and political critique and argues that because ideological hegemony impacts on the meanings that people create and share intercultural communication pedagogy ought to locate itself within wider socio political contexts With reference points drawn from critical and transnational social theory critical pedagogy and intercultural theory contributors to this volume provide readers with powerful ways that show how this can be achieved and together assess the impact that their understanding of criticality can make on modern foreign language education The volume is divided into three major parts namely theorising critically researching critically and teaching critically *Professional Identity Constructions of Indian Women* Priti Sandhu,2016-12-15 This book analyzes the narratives of urban North Indian women for the diverse ways in which they construct the impact of their medium of education Hindi English or a combination of both on varied aspects of their professional and personal lives It examines how participants reinforce or interrogate firmly entrenched power heirarchies that have long elevated English in India Adopting a social constructionist perspective and treating oral narratives as impacted both by local interactional contingencies and by larger social contexts this book provides an innovative framework for the analysis of narratives told in qualitative research interviews Stylization mock languages similes and metaphors reported speech and varied interactional cues are some of the devices used to examine the intersectioanlity of power and identity within participants oral narratives The book will be of interest to scholars and students of narrative analysis gender and identity studies postcolonialism and professional identity constructions of women *Education in Indonesia* Zulfa Sakhiyya,Teguh Wijaya Mulya,2023-07-13 This book offers a critical analysis on Indonesian education by drawing from various critical perspectives and theoretical frameworks to explore persistent challenges and social inequality problems in the education sector Critical perspectives are important to reveal how education is not a neutral mechanistic process of cultivating the knowledge and skills of future generation Instead it is a battleground in which competing visions ideologies discourses religious values and political interests struggle for dominance in a given society In each of the sections contributors draw upon specific case studies and employ critical theories to analyze power relations or to identify and destabilize underlying structures dominant discourses hegemonic knowledge policies or practices Some authors also highlight data evidencing inequities inequalities or injustices in Indonesian education system As a handbook the emphasis on critical perspectives is useful to identify and evaluate the blind spots of dominant policy discourses and their pedagogical consequences The plurality of critical approaches also means that this book is necessarily multidisciplinary A unique feature of this book is the fact that most authors are Indonesian academics who bring with them tacit knowledge of practices and

issues Overall this book enriches the literature by bringing together different disciplinary perspectives such as political science psychology international relations economics and linguistics to critically examine important issues related to education in Indonesia      Theorizing and Analyzing Agency in Second Language Learning Ping Deters,Xuesong (Andy) Gao,Elizabeth R.
