**Critical Times, Critical Thoughts** Natasha Lemos, Eleni Yannakakis, 2016-01-14 While no member of the public could have missed the Greek crisis it has been represented only by the refraction in journalism of the views of politicians economists and international bureaucrats The voice of artists the antennae of the race has been so far unheard In specially commissioned essays by major Greek writers and critics which appear for the first time in any language the reader of this book will find new insights into the crisis its causes and its wider ramifications It will interest not only students of Greece but anyone concerned with the highly topical and intertwined issues of nationalism historical memory otherness migration and xenophobia By being simultaneously a reflection on and a reflection of a society in deep crisis this book also offers a model for future studies

**Útrásarvíkingar!** Alaric Hall, 2020 As the global banking boom of the early twenty first century expanded towards implosion Icelandic media began calling the country's celebrity financiers *trásarvíkingar* raiding vikings This new coinage encapsulated the macho medievalist nationalism which underwrote Iceland's exponential financialisation Yet within a few days in October 2008 Iceland saw all its main banks collapse beneath debts worth nearly ten times the country's GDP Hall charts how Icelandic novelists and poets grappled with the Crash over the ensuing decade As the first English language monograph devoted to twenty first century Icelandic literature it provides Anglophone readers with an introduction to one of the world's liveliest literary scenes It also contributes a key case study for understanding global artistic responses to the early twenty first century crisis of runaway unregulated capitalism exploring the struggles of writers to adapt realist forms of art to surreal times As Iceland's biggest crisis since their independence from Denmark in 1944 the effect of the Crash on the national self image was as seismic as its effects on the economy This study analyses the centrality of whiteness and the abjection of the developing world in Iceland's post colonial identity and shows how Crash writing explores the collisions of Iceland's traditional nationalist medievalism with a dystopian Orientalist medievalism associated with the Islamic world The Crash in Iceland was instantly recognised as offering important economic insights This book shows how Iceland also helps us to understand the cultural convulsions that have followed the Financial Crisis widely in the West

**Urban Undergrounds** Patricia García, David Pike, 2025-05-20 Research in urban development in the social sciences has increasingly emphasized the importance of underground infrastructure for envisaging sustainable cities and for critiquing the economies of extraction *Urban Undergrounds* Contemporary Literary and Cultural Perspectives demonstrates the urgency of integrating a below ground perspective into the emerging field of the Urban Humanities The collection is divided into three thematic sections that cluster and revisit different sets of well known motifs in Underground Studies Displaced Buried and Wasted It showcases the intermedial nature of underground focused analyses in literature extending from literary texts to a wider range of cultural forms including films graphic novels and videogames The contributors build on recent scholarship that has expanded the field into new interdisciplinary areas including intersections with memory studies

ecocriticism and decolonial perspectives Urban Undergrounds also explores lesser studied subterranean spaces including those of Warsaw Athens Mexico City Johannesburg and Santiago de Chile The book's substantial introduction offers a guiding theoretical and methodological framework for future scholars working with underground perspectives in literary and cultural studies This thought provoking and illuminating collection is a valuable resource for students and scholars in the areas of Literary Urban Studies Underground Studies and Geocriticism and more broadly in the Urban Humanities and Spatial Humanities Urban Discourses of Crisis, Resilience, and Resistance Eric Prieto, Liam Lanigan, Anni Lappela, 2025-07-11 This volume seeks to address questions of urban crisis from an interdisciplinary perspective that foregrounds the particular roles that literature and the creative arts play in both conceptualizing and addressing the multiple challenges facing cities Noting that the successive crises of recent years from the 2008 recession to COVID 19 seem to have put an end to the triumphalist tone of much urban writing in the 1990s this book argues that the current historical moment calls for a different kind of urban discourse focused on reassessment and regrouping This edited collection features a variety of different approaches including close readings of literary works interviews essays in cultural and architectural history and sociological ethnographic and urban planning studies These chapters explore a range of challenges currently faced by cities and foreground the search for solutions **Modern Critical Thought** Drew Milne, 2008-04-15 This anthology presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Offers an innovative way into understanding modern critical thought Spans the period from Marx to the present day A conversation of ideas emerges between one generation and the next Editorial material defines key terms and maps out contested terrain Each piece is prefaced by contextualising notes and suggestions for further reading Islands of the Mind Richard Pine, 2020-02-05 730 million people almost 10% of the world's population inhabit islands One quarter of the states represented at the United Nations are islands Islands constitute almost twenty percent of the total land area of Greece and exhibit more significant aspects of biodiversity than other global contexts They are both occasions of triumph and occurrences of catastrophe Islands are both open and enclosed communities points of arrival and departure Islands exert a fascination for the visitor and generate in the islander both positive and negative mindsets The romantic fallacies about self sufficiency and insularity of islands are constantly challenged This collection of essays by scholars from some of the world's most compelling islands Jersey Ireland Tasmania Corfu Ereikousa Prince Edward Island Malta explores the psychology of islands islanders and their visitors the literatures they stimulate and the scientific ethical and biogeographical issues they present in an increasingly globalised world Corfu the home of Lawrence and Gerald Durrell in the 1930s and host to literary and scientific enquiry is the place where this collection was conceived and occupies a central place in its discussions **Greece in Crisis** Dimitris Tziouvas, 2017-08-30 Since 2010 Greece has been experiencing the longest period of austerity and economic downturn in its

recent history Economic changes may be happening more rapidly and be more visible than the cultural effects of the crisis which are likely to take longer to become visible however in recent times both at home and abroad the Greek arts scene has been discussed mainly in terms of the crisis While there is no shortage of accounts of Greece s economic crisis by financial and political analysts the cultural impact of austerity has yet to be properly addressed This book analyses hitherto uncharted cultural aspects of the Greek economic crisis by exploring the connections between austerity and culture Covering literary artistic and visual representations of the crisis it includes a range of chapters focusing on different aspects of the cultural politics of austerity such as the uses of history and archaeology the brain drain and the Greek diaspora Greek cinema museums music festivals street art and literature as well as manifestations of how the crisis has led Greeks to rethink or question cultural discourses and conceptions of identity
