Principles of European Contract Law and Italian Law Luisa Antonioli, Anna Veneziano, 2005-01-01 To provide valuable legal service to persons in today s Europe practitioners must be conversant in both national and transnational law At the European level the Principles of European Contract Law PECL are an increasingly important element of contract law together with national contract law as contained in Civil Codes and various national statute Accordingly Kluwer Law International has initiated a series of volumes under the direction of prof Hondius of the University of Utrecht comparing PECL with the most important European legal systems This volume on Italian law is the second in the series Using a straightforward comparative method the editors analysis not only reveals a significant area of convergence between the PECL and Italian contract law but also highlights the main differences between the two bodies of rules The reasons for these differences both legal and non legal such as historical social economic are clearly set forth The book provides complete texts with annotations of the PECL and the corresponding Italian rules The presentation proceeds as follows general provisions scope of application general duties terminology formation of contracts general provisions offer and acceptance liability for negotiations authority of agents general provisions direct and indirect representation validity interpretation contents and effects performance non performance and remedies in general particular

remedies for non performance right to performance withholding performance termination of the contract price reduction damages and interest The editors commentary includes extensive reference to case law and legal doctrine at all essential points In this way they provide a comprehensive description of the law in action as well as its evolving trends In addition incisive essays by two leading experts in the field of comparative law prof Rodolfo Sacco and prof Michael Joachim Bonell analyse the relationship of the PECL and Italian law and its wider framework in the harmonisation of private law at the European and international levels The book is a valuable handbook and guide for both foreign and Italian lawyers For non Italian lawyers be they practitioners or academics it provides a concise but complete and up to date outline of current Italian contract law organized on the basis of a system PECL with which many European lawyers are familiar For Italian lawyers it offers a clearer insight into a wider European legal contract system whose importance in the evolution of a common European private law is growing rapidly Principles of European Contract Law Series 2 *A Cross-Border-Only Regulation for Consumer Transactions in the EU* Christian Twigg-Flesner,2011-11-16 For almost three decades the European Union EU has adopted measures to regulate consumer transactions within the internal market created by the EU Treaties Existing legislation is largely based on directives harmonizing aspects of national consumer laws This Brief argues that a more appropriate approach for EU consumer law would be legislation in the form of a regulation which is applicable to cross border transactions only The author considers the constitutional constraints of the EU Treaties before examining the case for a cross border only measure He argues that the cross border approach is preferable because it would provide clearer benefits for consumers seeking to buy goods and services across borders while not upsetting domestic law unnecessarily in particular in the context of e commerce with implications for industry policymaking and regional development The Brief concludes by suggesting that a successful EU measure on cross border consumer transactions could create a template for global initiatives for transnational consumer law **The Comparative Law Yearbook of International Business**

The Interaction of Contract Law and Tort and Property Law in Europe Christian von Bar, Ulrich Drobnig, 2009-04-27 Against the background of the creation of an EU wide frame of reference for private law relevant to the Common Market this study which was requested by the EU Commission analyses the dovetailing between contract and tort law on the one hand and between contract and property law on the other The study examines the legal orders of almost all the Member States of the EU illustrates the differences between contractual and non contractual liability and evaluates the different systems of the transfer of property of movable and immovable securities as well as trust law The study comes to the conclusion that the intensive considerations on the creation of a model law in the area of European private law do not allow these thoughts to be limited to contract law Such a limitation to the scope of the regarding of this area would probably cause more problems than it would solve or at any rate not do justice to the needs of the Common Market

Migration and the Making of Global Christianity Jehu J. Hanciles, 2021-03-16 A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change Building on this understanding Jehu Hanciles surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making

Christianity the world's largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles's socio historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries Migration and the Making of Global Christianity instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world **Handbook of Doing**

Regulating Fraud Across Borders Edgardo Rotman, 2021-02-25 This book provides a uniquely comparative approach to the examination of financial crime regulation At a time when financial crime routinely crosses international boundaries this book provides a novel understanding of its spread and criminalisation It traces the international convergence of financial crime regulation with a uniquely comparative approach that examines key institutional and state actors including the European Union the International Organization of Securities Commissions as well as the United States the United Kingdom Switzerland France

Italy and Germany all countries that harbour some of the most influential stock exchanges in the Western world The book describes and documents the phenomenon of internationalisation of securities frauds such as insider trading and market manipulation and the laws criminalising those acts most notably those responding to recent dramatic transformations in securities markets high frequency trading and benchmark manipulation At the European level it shows the progressive uniformisation of laws culminating in the 2014 European Union Market Abuse Regulation The book argues that criminal prohibitions against internationalised market abuse must be understood as an economic and legal imperative to protect financial markets against activities that imperil its integrity compromising the confidence of investors and thus affecting the economy as a whole The book is supported by an extensive review of the most significant scholarship in each country
