Holman,2009-09-09 Almost every Canadian can hum the original Hockey Night in Canada theme even those who don t think of themselves as hockey fans For more than a century Canadians have seen something of themselves in the sport of hockey Canada s Game explores the critical aspects of this relationship Contributors address a broad range of themes in hockey past and present including spectacle and spectatorship the multiple meanings of hockey in Canadian fiction and the shaping influences of violence anti Americanism and regional rivalry From the Gardens to the Forum from the 1936 Olympics to the 1972 Summit Series from the imagined depictions in Canadian fiction to the fan s eye view Canada s Game looks at hockey s ability to reflect Canadian identity **Deviance and Social Control in Sport** Michael Atkinson,Kevin Young,2008 Deviance and Social Control in Sport challenges preconceived understandings regarding the relationship of deviance and sport and offers a conceptual framework for future work in a variety of sociological subfields **Commodified and Criminalized** David J. Leonard,C. Richard King,2010-12-28 Commodified and Criminalized examines the centrality of sport to discussions of racial ideologies and racist practices in the 21st century It disputes familiar refrains of racial progress arguing that athletes sit in a contradictory position masked by the logics of new racism and dominant white racial frames Contributors discuss athletes

ranging from Tiger Woods and Serena Williams to Freddy Adu and Shani Davis Through dynamic case studies *Commodified and Criminalized* unpacks the conversation between black athletes and colorblind discourse while challenging the assumptions of contemporary sports culture The contributors in this provocative collection push the conversation beyond the playing field and beyond the racial landscape of sports culture to explore the connections between sports representations and a broader history of racialized violence **Sport, Ethics, and Neurophilosophy** Jeffrey Fry, Mike

McNamee, 2020-05-21 The growth of neuroscience and the spread of general interest in the brain have prompted concern for ethical issues posed by neuroscientists Despite the growing interest in the brain neuroscience and the profound issues that neuroscience raises up to this point relatively little attention has been given to broadly speaking neurophilosophical reflection on the brain in the context of sport This book seeks to address this gap Sport abounds with issues ripe for neurophilosophical treatment Human movement intentionality cognition cooperation and vulnerability to injury directly and indirectly implicate the brain and feature prominently in sport This innovative volume comprises chapters by a team of international scholars who have written on a wide variety of topics at the intersection of sport ethics and neurophilosophy Not only are the issues presented here of pressing philosophical and practical concerns they also represent a new mode of fluid interaction between science and philosophy for the future of sports scholarship This book was originally published as a special issue of the journal *Sport Ethics and Philosophy* **A Companion to Sport** David L. Andrews, Ben

Carrington, 2013-09-10 *A Companion to Sport* brings together writing by leading sports theorists and social and cultural thinkers to explore sport as a central element of contemporary culture Positions sport as a crucial subject for critical analysis as one of the most significant forms of popular culture Includes both well known social and cultural theorists whose work lends itself to an interrogation of sport and leading theorists of sport itself Offers a comprehensive examination of sport as a social and cultural practice and institution Explores sport in relation to modernity postcolonial theory gender violence race disability and politics Bobby Orr and Me Martin Avery, 2008-12-31 Martin Avery reflects on the place of hockey in the

Canadian soul Bobby Orr And Me flows from Avery's boyhood games in the Muskoka Parry Sound region in the heart of Canada and it examines the globalization of hockey Part memoir part essay on national identity part hockey history *Hockey Dreams* is a meditation by a Canadian author on the essence of the game that helps define our nation Canadian Hockey Literature Jason Blake, 2010-01-01 Hockey occupies a prominent place in the Canadian cultural lexicon as evidenced by the wealth of hockey centred stories and novels published within Canada In this exciting new work Jason Blake takes readers on a thematic journey through Canadian hockey literature examining five common themes nationhood the hockey dream violence national identity and family as they appear in hockey fiction Blake examines the work of such authors as Mordecai Richler David Adams Richards Paul Quarrington and Richard B Wright arguing that a study of contemporary hockey fiction exposes a troubled relationship with the national sport Rather than the storybook happy ending common in sports literature

of previous generations Blake finds that today's fiction portrays hockey as an often glorified sport that in fact leads to broken lives and ironic outlooks The first book to focus exclusively on hockey in print Canadian Hockey Literature is an accessible work that challenges popular perceptions of a much beloved national pastime **Battleground: Sports** Michael

Atkinson, 2008-12-30 Mega events like the Olympics the World Cup of soccer the World Series of baseball cycling's Tour de France and the Super Bowl draw our attention to the deep cultural significance of sport and its role in fostering social bonds Yet when it comes to sport there is no shortage of debate stereotypes regarding sexuality race gender and children have been hotly contested by critics for over 40 years Even today sport is one of the very few socially accepted sites of violence intense competition and controlled forms of social disorder Battleground Sports presents the 100 most contentious public and private controversies of the sports world Highlighted throughout are debates surrounding ethnicity gender sexuality and social identity sports fan behavior as well as the role of governments and corporations Engaging and accessible to a wide variety of readers this fascinating reference illustrates how sports controversies reflect the historically enduring and changing nature of our broader cultures and the social battles we engage on a day to day basis surrounding the struggles for equality debates about social violence the ethics of competition the politics of civic life the creation of global communities and the State's role in protecting citizens Entries contain an array of thoughtful perspectives on historic and current controversies and allow readers to formulate their own conclusions Enhanced with a timeline a thorough guide of print and electronic resources for high school and undergraduate student research this one stop reference goes beyond the newspaper headlines to provide readers with a guide map for understanding what sport controversies teach us about our culture and ourselves *Sport Ethics in Context* Debra Shogan, 2007 This thought provoking collection of essays explores what

constitutes the ethical domain ethical practice ethics education and ethics all in the context of sport Sport Ethics in Context goes beyond the usual focus in sport ethics on responsibilities and explores ethical responsibilities to teammates coaches and others associated with a team As well this collection describes a new sport ethics through which participants might come to question those practices that sport discipline creates The author argues that if sport is to be a vehicle for a better understanding of and appreciation for ethical responses it is necessary to pay attention to just what is at stake in the ethical domain including the components of ethical response and how sport leaders might facilitate ethical responses in a sport environment

Dark Threats and White Knights Sherene Razack, 2004-12-15 Somalia March 4 1993 Two Somalis are shot in the back by Canadian peacekeepers one fatally Barely two weeks later sixteen year old Shidane Abukar Arone is tortured to death Dozens of Canadian soldiers look on or know of the torture The first reports of what became known in Canada as the Somalia Affair challenged national claims to a special expertise in peacekeeping and to a society free of racism Today however despite a national inquiry into the deployment of troops to Somalia what most Canadians are likely to associate with peacekeeping is the nation's glorious role as peacekeeper to the world Moments of peacekeeping violence are attributed to a few bad apples bad generals and a rogue regiment In *Dark Threats and White Knights* Sherene H Razack explores the racism implicit in the Somalia Affair and what it has to do with modern peacekeeping Examining the records of military trials and the public inquiry Razack weaves together two threads that of the violence itself and what would drive men to commit such atrocities and secondly the ways in which peacekeeping violence is largely forgiven and ultimately forgotten Race disappears from public memory and what is installed in its place is a story about an innocent morally superior middle power nation obliged to discipline and sort out barbaric third world nations Modern peacekeeping Razack concludes maintains a colour line between a family of white nations constructed as civilized and a third world constructed as a dark threat a world in which violence is not only condoned but seen as necessary

Taking The Field Michael A. Messner, 2002-07-17 In the past when sport simply excluded girls the equation of males with active athletic power and of females with weakness and passivity seemed to come easily almost naturally Now however with girls and women's dramatic movement into sport the process of exclusion has become a bit subtler a bit more complicated and yet as Michael Messner shows us in this provocative book no less effective In *Taking the Field* Messner argues that despite profound changes the world of sport largely retains and continues its longtime conservative role in gender relations To explore the current paradoxes of gender in sport Messner identifies and investigates three levels at which the center of sport is constructed the day to day practices of sport participants the structured rules and hierarchies of sport institutions and the dominant symbols and belief systems transmitted by the major sports media Using these insights he analyzes a moment of gender construction in the lives of four and five year old children at a soccer opening ceremony the way men's violence is expressed through sport the interplay of financial interests and dominant men's investment in maintaining the status quo in the face of recent challenges and the cultural imagery at the core of sport particularly televised

sports Through these examinations Messner lays bare the practices and ideas that buttress as well as those that seek to disrupt the masculine center of sport Taking the Field exposes the subtle and not so subtle ways in which men and women collectively construct gender through their interactions contextualized in the institutions and symbols of sport
