## **Crosslinguistic Influence In Second Language Acquisition:**

**Cross-linguistic Influence in Third Language Acquisition** Jasone Cenoz, Britta Hufeisen, Ulrike Jessner, 2001-01-01  
Third language acquisition is a common phenomenon which presents some specific characteristics as compared to second language acquisition. This volume adopts a psycholinguistic approach in the study of cross linguistic influence in third language acquisition and focuses on the role of previously acquired languages and the conditions that determine their influence.

**Crosslinguistic Influence in Second Language Acquisition** Rosa Alonso Alonso, 2016-01-11  
This volume provides an unprecedented insight into current approaches to crosslinguistic influence (CLI). The collection investigates a range of themes including linguistic relativity, the possible contributions of neurolinguistics, the problem of cognitive development and the role of the frequency of structures in acquisition from distinct overlapping and complementary perspectives. Chapters focusing on vocabulary, morphosyntactic categories, semantic structures and phonetic and phonological structures feature in the volume as do over 20 languages in order to offer new insights into both theoretical and empirical issues in CLI, including the consequences of great or little similarity in structures between languages. The relevance of CLI research for teaching is discussed in a number of chapters as is the phenomenon of multilingualism. The collection will appeal to researchers, graduate and postgraduate students, teachers and professionals interested in the field of CLI in SLA.

***New Perspectives on Transfer in Second Language Learning*** Liming Yu, Terence Odlin, 2015-10-09  
When people attempt to learn a new language, the languages they already know can help but also hinder their understanding or production of new forms. This phenomenon, known as language transfer, is the focus of this book. The collection offers new theoretical perspectives, some in the empirical studies and some in other chapters, and consists of four sections considering lexical, syntactic, phonological and cognitive perspectives. The volume provides a wealth of studies on the influence of Chinese on the acquisition of English but also includes studies involving Finnish, French, Hindi, Korean, Persian, Spanish, Swedish and Tamil. It will be of great interest to researchers and students working in the areas of crosslinguistic influence in second language acquisition, language pedagogy and psycholinguistics.

**Cross-Linguistic Influence: From Empirical Evidence to Classroom Practice** M. Juncal Gutierrez-Mangado, María Martínez-Adrián, Francisco Gallardo-del-Puerto, 2019-07-09  
This book presents the latest research in various areas of cross linguistic influence (CLI), providing educators with insights into how previously learned languages influence the learning of an additional language at different levels, such as phonetics, phonology, morphosyntax, vocabulary, pragmatics, writing style and learning context. While the majority of the chapters have English as the target language, one investigates the acquisition of French. The L1s of the learners include Arabic, Basque, Catalan, Chinese, Czech, Danish, Finnish, Galician, Georgian, German, Norwegian, Polish, Russian, Spanish and Swedish. Each chapter ends with a reflection on possible pedagogical implications of the findings and offers recommendations on how to make the most of cross linguistic influence in the classroom.

**Cross-linguistic Influences in Multilingual Language Acquisition** Danuta Gabrys-Barker, 2012-05-22

This volume depicts the phenomenon of cross linguistic influences in the specific context of multilingual language acquisition. It consists of articles on various issues relating to the syntactic and lexical development of foreign language learners from different L1 backgrounds in many cases involving languages which are typologically distant from English such as Russian, Croatian, Greek and Portuguese. Individual chapters highlight different areas expected to be especially transfer prone at the level of grammatical and lexical transfer in particular contexts of language contact.

*Language Transfer* Terence Odlin, 1989

*Crosslinguistic Influence and Second Language Learning* Kevin McManus, 2021-11-01

*Crosslinguistic Influence and Second Language Learning* provides a comprehensive overview of what is currently known about prior language knowledge and experience in second language learning. Three bodies of research are critically reviewed to achieve this goal: i) theories of language learning that attribute critical roles to prior experience in explaining second language development; ii) empirical studies of second language learning that have investigated roles for crosslinguistic influence; and iii) instructional studies that have supported second language learning by addressing the negative effects of crosslinguistic influence. Using this foundation, new research directions and theorization in the field of second language acquisition are proposed. This book will serve as an excellent resource for students and scholars with interests in instructed second language learning, applied linguistics, cognitive psychology, psycholinguistics and language education.

*Crosslinguistic Influence in L3 Acquisition* Eliane Lorenz, 2022-11-15

This book explores crosslinguistic influence in third language acquisition, drawing insights from a study of young bilingual secondary school students in Germany to unpack the importance of different variables in the acquisition and use of English as an additional language. Lorenz draws on data from a learner corpus of written and spoken picture descriptions toward analyzing sources of crosslinguistic influence in L3 acquisition in bilingual heritage speakers with unbalanced proficiency in heritage versus majority languages as compared with their monolingual German peers. This unique approach allows for a clearer understanding of the extent of influence of access to heritage languages, the impact of being a balanced vs unbalanced bilingual speaker, and the importance of extra linguistic variables such as age, gender, socio-economic status, and type of school. The final two chapters highlight practical considerations for the English language classroom and the implications of the study for future directions for research on third language acquisition. With its detailed overview of L2 and L3 acquisition and contribution toward ongoing debates on the advantages of being bilingual and multilingual, this book will be of interest to students and scholars in applied linguistics, foreign language acquisition, foreign language teaching, and learner corpus research.

*New Trends in Crosslinguistic Influence and Multilingualism Research* Gessica De Angelis, Jean-Marc Dewaele, 2011

This book presents the latest developments in crosslinguistic influence (CLI) and multilingualism research. The contributors situate their research in current debates and present it in an accessible way. They consider CLI in lexis, syntax, tense aspect, morphology, phonology of multilingual production, and link it to concepts such as redundancy, affordances, metalinguistic awareness, and L2 status.
