Crucible Island Conde B. Fallen, 2015-07-11 Excerpt from *Crucible Island A Romance an Adventure and an Experiment* Bring in the prisoner The speaker a man of about thirty dressed in a simple suit of black was seated at a table littered with papers evidently of an official character Near him sat an elderly man in the uniform of an officer of high rank his breast glittering with decorations The latter's attitude was that of a counsellor to a very eminent superior Your Highness may I advise caution in this interview This man is dangerous Restrain your solicitude Count Why should I fear an unarmed man a prisoner and manacled As Your Highness wishes of course But men of this stamp are desperate They use their very chains at times as weapons and how do you know but one of his guards may not be of the same secret fellowship ready to supply About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

Utopian Fantasy Richard Gerber, 2019-11-21 This book originally published in 1955 and reissued in 1973 is a study of the flourishing of an ancient literary form which had only recently been recognized and systematically studied as a proper genre utopian fiction Beginning with the imaginary journeys of writers like H G Wells at the end of the nineteenth century Professor Gerber traces the evolving themes and forms of the genre through their culmination in the sophisticated nightmares of Aldous Huxley and George Orwell It is a two fold transformation On the one hand the optimism of social reformers whose visions of the future were nurtured by the theories of Darwin and the triumph of science and industry gradually gives way to the pessimism of moral philosophers alarmed at the power science and technology have put at the disposal of totalitarian rulers On the other hand the earlier writers dependence on framing and distancing devices for their stories and heavy emphasis on technical details give way to the subtlety of complex psychological novels whose artistry makes the reader a citizen of the tragic worlds depicted **The Publishers Weekly**, 1919 *Ghost House* Condé Bénédict Pallen, 1928 Science fantasy detective story in which a protagonist devises a means to extract and reproduce visually the impressions received by the walls of a house of a murder committed many years earlier Locke A Spectrum of Fantasy p 172 **The Salesianum**, 1918 *Dystopia* Gregory Claeys, 2016-11-24 Dystopia A Natural History is the first monograph devoted to the concept of dystopia Taking the term to encompass both a literary tradition of satirical works mostly on totalitarianism as well as real despotisms and societies in a state of disastrous collapse this volume redefines the central concepts and the chronology of the genre and offers a paradigm shifting understanding of the subject Part One assesses the theory and prehistory of dystopia By contrast to utopia conceived as promoting an ideal of friendship defined as enhanced sociability dystopia is defined by estrangement fear and the proliferation of enemy categories A natural history of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms The work of Le Bon Freud and others is used to show how dystopian groups use such emotions Utopia and dystopia are portrayed not as opposites but as extremes on a spectrum of sociability defined by a heightened form of group identity The prehistory of the process whereby enemies are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft and the persecution of heresy Part Two surveys the major dystopian moments in twentieth century despotisms focussing in particular upon Nazi Germany Stalinism the Chinese Cultural Revolution and Cambodia under Pol Pot The concentration here is upon the political religion hypothesis as a key explanation for the chief excesses of communism in particular Part Three examines literary dystopias It commences well before the usual starting point in the secondary literature in anti Jacobin writings of the 1790s Two chapters address the main twentieth century texts usually studied as representative of the
