Sisodia, Rajendra Sisodia, 2015-10-06 Bob Chapman CEO of the 17 billion manufacturing company Barry Wehmiller is on a mission to change the way businesses treat their employees Inc Magazine Starting in 1997 Bob Chapman and Barry Wehmiller have pioneered a dramatically different approach to leadership that creates off the charts morale loyalty creativity and business performance The company utterly rejects the idea that employees are simply functions to be moved around managed with carrots and sticks or discarded at will Instead Barry Wehmiller manifests the reality that every single person matters just like in a family That's not a cliché on a mission statement it's the bedrock of the company's success During tough times a family pulls together makes sacrifices together and endures short term pain together If a parent loses his or her job a family doesn't lay off one of the kids That's the approach Barry Wehmiller took when the Great Recession caused revenue to plunge for more than a year Instead of mass layoffs they found creative and caring ways to cut costs such as asking team members to take a month of unpaid leave As a result Barry Wehmiller emerged from the downturn with higher employee morale than ever before It's natural to be skeptical when you first hear about this approach Every time Barry Wehmiller acquires a company that relied on traditional management practices the new team members are skeptical too But they soon learn what it's like to work at an exceptional workplace where the goal is for everyone to feel trusted and cared for and where it's expected that they will justify that trust by caring for each other and putting the common good first Chapman and coauthor Raj Sisodia show how any organization can reject the traumatic consequences of rolling layoffs dehumanizing rules and hypercompetitive cultures Once you stop treating people like functions or costs disengaged workers begin to share their gifts and talents toward a shared future Uninspired workers stop feeling that their jobs have no meaning Frustrated workers stop taking their bad days out on their spouses and kids And everyone stops counting the minutes until it's time to go home This book chronicles Chapman's journey to find his true calling going behind the scenes as his team tackles real world challenges with caring empathy and inspiration It also provides clear steps to transform your own workplace whether you lead two people or two hundred thousand While the Barry Wehmiller way isn't easy it is simple As the authors put it Everyone wants to do better Trust them Leaders are everywhere Find them People achieve good things big and small every day Celebrate them Some people wish things were different Listen to them Everybody matters Show them

Blue, 2016-08-15 Written by a working CEO who increased earnings in some of the companies he led by 400 percent this book provides a real world prescription for prosperity and growth for any company in any industry For nearly two decades America s industrial

manufacturing sector has been in decline and as a result the nation's prosperity and strength is at risk. Meanwhile, China's manufacturing capabilities and competence continue to grow, threatening to overtake America as the world's most powerful and prosperous nation. Drawing on straightforward principles that can effectively be applied to a broad spectrum of manufacturing companies, author Steven L. Blue taps his leadership skills and proven processes honed over his career of growing companies and saving them to offer readers an inspiring vision for revitalizing the entire manufacturing sector. Using case studies and examples from his own experiences both at Miller Ingenuity and in other roles earlier in his career, the author organizes his lessons in leadership, strategy, and change management into seven values: ingenuity, innovation, excellence, commitment, community, teamwork, respect, and integrity. The book explains how this highly integrated system of operating values can be implemented to turn around a company if needed or to propel it to extraordinary growth and prosperity.
