This type of work challenges mental health professionals drawing on all the skills and resources they may possess yet also offers some of the greatest rewards and opportunities for service. Filled with numerous case examples and checklists, *Consultation Skills for Mental Health Professionals* contains a wealth of information on this important area of practice. It provides a comprehensive source for working with a diverse clientele in a variety of settings, discussing both traditional mental health consultation models and the fast growing field of organizational consulting. The guide is divided into four parts. Individual Level Consulting Issues takes up individual career assessment and counseling along with how organizational contexts affect individual jobs, leadership management and supervision, executive assessment, selection, interviewing and development, and executive coaching. Consulting to Small Systems discusses working with teams and groups, planning and conducting training and teambuilding, diversity in the workplace, and in consultation. Consulting to Large Systems covers how to work with large organizations including organizational structure, terms, culture and concepts as well as processes such as change and resistance, how to assess organizations and the characteristics of healthy and dysfunctional workplaces, and issues involved in organizational intervention.
