## **Fools Frauds And Firebrands Thinkers Of The New Left:**

*Fools, Frauds and Firebrands* Roger Scruton, 2015-10-08 The thinkers who have been most influential on the attitudes of the New Left are examined in this study by one of the leading critics of leftist orientations in modern Western civilization Scruton begins with a ruthless analysis of New Leftism and concludes with a critique of the key strands in its thinking He conducts a reappraisal of such major left wing thinkers as E P Thompson Ronald Dworkin R D Laing Jurgen Habermas Gyorgy Lukacs Jean Paul Sartre Jacques Derrida Slavoj Zizek Ralph Milliband and Eric Hobsbawm In addition to assessments of these thinkers philosophical and political contributions the book contains a biographical and bibliographical section summarizing their careers and most important writings In Thinkers of the New Left Scruton asks what does the Left look like today and as it has evolved since 1989 He charts the transfer of grievances from the working class to women gays and immigrants asks what can we put in the place of radical egalitarianism and what explains the continued dominance of antinomian attitudes in the intellectual world Can there be any foundation for resistance to the leftist agenda without religious faith Scruton's exploration of these important issues is written with skill perception and at all times with pellucid clarity The result is a devastating critique of modern left wing thinking Conversations with Roger Scruton Mark

Dooley, Roger Scruton, 2016-05-19 A candid and personal insight into the life and work of the philosopher and writer Roger Scruton by his intellectual biographer Mark Dooley This book reveals what life was like for Roger Scruton growing up in High Wycombe how he survived Cambridge and how he came to hold his conservative outlook It tells of Scruton's rise to prominence while writing for The Times and sheds light on his campaign on behalf of underground dissidents in Eastern Europe Ranging across topics as diverse as the current state of British philosophy music religion and illuminating what lay behind Scruton's abandonment of academia for his new life on a Wiltshire farm *Conversations with Roger Scruton* is an intimate portrait of a writer who has felt philosophy as a vocation and whose defence of unfashionable causes has brought him a wide readership in Britain and around the world The Critique of Religion and Religion's Critique, 2020-04-14 In

*The Critique of Religion and Religion's Critique* On Dialectical Religiology Dustin J Byrd compiles numerous essays honouring the life and work of the Critical Theorist Rudolf J Siebert His dialectical religiology rooted in the critical theory of the Frankfurt School especially Theodor Adorno Max Horkheimer Walter Benjamin Herbert Marcuse Erich Fromm Leo L wenthal and Jurgen Habermas is both a theory and method of understanding religion's critique of modernity and modernity's critique of religion Born out of the Enlightenment and its most important thinkers i.e Kant Hegel Marx Nietzsche and Freud religion is understood to be dialectical in nature It contains within it both revolutionary and emancipatory elements but also reactionary and regressive elements which perpetuate mankind's continual debasement enslavement and oppression Thus religion by nature is conflicted within itself and thus stands against itself Dialectical Religiology attempts to rescue those elements of religion from the dustbin of history and reintroduce them into society via their determinate negation As such it

attempts to resolve the social political theological and philosophical antagonisms that plague the modern world in hopes of producing a more peaceful justice filled equal and reconciled society The contributors to this book recognize the tremendous contributions of Dr Rudolf J Siebert in the fields of philosophy sociology history and theology and have profited from his long career This book attempts to honour that life and work Contributors include Edmund Arens Gregory Baum Francis Brassard Dustin J Byrd Denis R Janz Gottfried K enzlen Mislav Kuko Michael R Ott Rudolf J Siebert Hans K Weitensteiner and Brian C Wilson

**New Lefts** Terence Renaud, 2021-09-07 A groundbreaking history of Europe s new lefts from the antifascist 1920s to the anti establishment 1960s In the 1960s the radical youth of Western Europe s New Left rebelled against the democratic welfare state and their parents antiquated politics of reform It was not the first time an upstart leftist movement was built on the ruins of the old This book traces the history of neoleftism from its antifascist roots in the first half of the twentieth century to its postwar reconstruction in the 1950s to its explosive reinvention by the 1960s counterculture Terence Renaud demonstrates why the left in Europe underwent a series of internal revolts against the organizational forms of established parties and unions He describes how small groups of militant youth such as New Beginning in Germany tried to sustain grassroots movements without reproducing the bureaucratic hierarchical and supposedly obsolete structures of Social Democracy and Communism Neoleftist militants experimented with alternative modes of organization such as councils assemblies and action committees However Renaud reveals that these same militants decades later often came to defend the very institutions they had opposed in their youth Providing vital historical perspective on the challenges confronting leftists today this book tells the story of generations of antifascists left socialists and anti authoritarians who tried to build radical democratic alternatives to capitalism and kindle hope in reactionary times

Political Philosophy Anthony C. Patton, 2017-11-10

*Freedom's Progress?* Gerard Casey, 2021-10-04 In Freedom s Progress Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also

find thinkers treated in Freedom's Progress who don't usually show up in standard accounts: Johannes Althusius, Immanuel Kant, William Godwin, Max Stirner, Joseph Proudhon, Mikhail Bakunin, Pyotr Kropotkin, Josiah Warren, Benjamin Tucker, and Auberon Herbert. Freedom's Progress also contains discussions of the broader social and cultural contexts in which politics takes its place, with chapters on slavery, Christianity, the universities, cities, Feudalism, law, kingship, the Reformation, the English Revolution, and what Casey calls Twentieth Century Tribalisms: Bolshevism, Fascism, and National Socialism, and an extensive chapter on human prehistory.

The Shipwreck Sea Jeffrey M. Duban, 2019-01-28 Sappho, in the words of poet Algernon Charles Swinburne (1837-1909), was simply nothing less as she is certainly nothing more than the greatest poet who ever was at all. Born over 2,600 years ago on the Greek island of Lesbos, Sappho, the namesake lesbian, wrote amorously of men and women alike, exhibiting both masculine and feminine tendencies in her poetry and life. What's left of her writing, and what we know of her, is fragmentary and thus ever subject to speculation and study. The Shipwreck Sea highlights the love poetry of the soulful Sappho, the impassioned Ibycus, and the playful Anacreon, among other Greek lyric poets of the age, 7th to 5th centuries BC, with verse translations into English by author Jeffrey Duban. The book also features selected Latin poets who wrote on erotic themes: Catullus, Lucretius, Horace, and Petronius, and poems by Charles Baudelaire with his milestone rejoinder to lesbian love, Lesbos, and in the same stanzaic meter, a turn to the consoling power of memory in love's more frequently tormented recall. Le Balcon. Duban also translates selected Carmina Burana of Carl Orff, the poems frequently Anacreontic in spirit. The book's essays include a comprehensive analysis with a new translation of Horace's famed Odes 1-5 To Pyrrha, in which the theme of love's shipwreck predominates, and an opening treatise-length argument exploring painting, sculpture, literature, and other Western art forms on the irrelevance of gender to artistic creation. No, Homer was not a woman, and it would make no difference if she were. Twenty full-color artwork reproductions, masterpieces in their own right, illustrate and bring Duban's argument to life. Finally, Duban presents a selection of his own love poems, imitations, and pastiches written over a lifetime, these composed in the classical mode, which is the leitmotif of this volume. The Shipwreck Sea is a delightful and continually thought-provoking companion to The Lesbian Lyre; both books vividly demonstrate that classicism yet thrives in our time, despite the modernism marshaled against it.

Last Call for Liberty Os Guinness, 2018-10-02 The American republic is suffering its gravest crisis since the Civil War. Will conflicts, hostility, and incivility tear the country apart? Os Guinness provides a careful observation of the American experiment, offering a stirring vision for faithful citizenship and renewed responsibility for not only the nation but also the watching world.

**Constituent Power, Violence, and the State** Dimitri Vouras, 2024-11-25 In Constituent Power, Violence, and the State, Dimitri Vouras examines the question of political violence by placing the thought of Georges Sorel, Walter Benjamin, and Hannah Arendt in conversation with contemporary theories of sovereignty and constituent power. Vouras argues that the violence sustaining the modern state inhibits institutional accountability and derails constituent power. The paradox of modern law, which is both

the expression of the people's will but also alienated from them sets the stage for political contestation. For Vrouros the multitude's potentiality is actualized through either organized or spontaneous acts of resistance against state force. Antagonism is therefore a key element of the political and must be included in any theory of political agonism. A strong notion of constituent power ensures the integrity of the public sphere and the expansion of citizens' political agency. Bringing all these ideas together is unique for this field of investigation. Accessible and engagingly written, *Constituent Power, Violence and the State* is a must read for researchers in political theory and political philosophy. Critical legal studies scholars and social theorists will also profit from this book. *Shakespeare's History Plays* Neema Parvini, 2017-11-01 Shakespeare's *History Plays* boldly moves criticism of Shakespeare's history plays beyond anti-humanist theoretical approaches. This important intervention in the critical and theoretical discourse of Shakespeare studies summarises, evaluates, and ultimately calls time on the mode of criticism that has prevailed in Shakespeare studies over the past thirty years. It heralds a new, more dynamic way of reading Shakespeare as a supremely intelligent and creative political thinker whose history plays address and illuminate the very questions with which cultural historicists have been so preoccupied since the 1980s. In providing bold and original readings of the first and second tetralogies, *Henry VI*, *Richard III*, *Richard II*, and *Henry IV* Parts 1 & 2, the book reignites old debates and re-energises recent bids to humanise Shakespeare and to restore agency to the individual in the critical readings of his plays. *Shakespeare's Moral Compass* Neema Parvini, 2018-08-13 Examines the aesthetics, concepts, and politics of chaotic and obscured moving images. **A Critical Legal Examination of Liberalism and Liberal Rights** Matthew McManus, 2020-11-23 This book has two aims: First, to provide a critical legal examination of the liberal state and liberal rights in the law; and secondly, to present a systematic alternative to liberal approaches to both the law and rights grounded in a left-wing conception of human dignity. At the opening of the 21st century, a remarkable thing happened: Liberalism, once considered the only doctrine left standing at the end of history, began to face renewed competition from both the political left and the post-modern conservative right. This book argues that the way forward is not to abandon but to radicalize the potential of the liberal project. Analysing major theoretical positions in order to build a critical genealogy of liberal rights, McManus lucidly develops a left-wing alternative to the classic liberal approach to rights, drawing on the traditions of liberal egalitarians and deliberative democracy theory. Societies, he argues, should be committed to advancing the human dignity of all through the enshrinement of certain rights into positive state law, the expansion of democracy, and a resolute commitment to economic equality. *Against the Tide* Roger Scruton, 2022-01-20 His moral courage shines through from the start. *Sunday Telegraph*. The definitive edition of the late Sir Roger Scruton's philosophical and political essays and reviews, now collected in one volume. The philosopher Roger Scruton was the leading conservative thinker of the post-war years. In this book are assembled the very best of his essays and commentaries, arranged thematically. The selection has been made and edited by Mark Dooley, Scruton's literary executor. Throughout this collection, Scruton proves himself to be at his

most scintillating and controversial He writes with passion and conviction about such varied topics as feminism racism fascism Tony Blair and Donald Trump as well as subjects like global warming music and architecture He takes aim at those who defy conservative common sense in favour of liberal falsehoods This book shows Scruton at his most brilliant and demonstrates how his influence will remain strong and enduring

**The Conservative Case for Education** Nicholas Tate,2017-07-20 The Conservative Case for Education argues that educational thinking in English speaking countries over the last fifty years has been massively influenced by a dominant liberal ideology based on unchallenged assumptions Conservative voices pushing against the current of this ideology have been few but powerful and drawn from across the political spectrum The book shows how these twentieth century voices remain highly relevant today using them to make a conservative case for education Written by a former government adviser and head teacher the book focuses on four of the most powerful of these conservative voices the poet and social critic T S Eliot the philosopher Michael Oakeshott the political thinker Hannah Arendt and the educationist E D Hirsch In the case of each thinker the book shows how their ideas throw fresh light on contemporary educational issues These issues range widely across current educational practice and include creativity cultural literacy mindfulness the place of religion in schools education for citizenship the teaching of history and Classics the authority of the teacher the arguments for and against a national curriculum the educational response to cultural diversity and more A concluding chapter sums up the conservative case for education in a set of Principles that would be acceptable to many from the Left as well as the Right of the political spectrum The book should be of particular interest to educators and educational policy makers at a time when conservative governments are in power in the UK and the USA as well as to researchers academics and postgraduate students engaged in the study of educational policy or those studying educational issues from an ethical philosophical and cultural standpoint

*The Emergence of Post-modernity at the Intersection of Liberalism, Capitalism, and Secularism* Matthew McManus,2022-09-07 This book is a systematic and thorough analysis of what post modernity is and how it emerged It distinguishes between those who regard post modernity as a theoretical approach and those who regard it as a culture and argues that interpreting post modernity as a culture is more fruitful It discusses the three factors which led to its emergence namely liberalism capitalism and secularism highlighting their respective influence in generating the culture of post modernity within neoliberal societies The volume provides a lengthy analysis of neoliberal post modernity in practice arguing that post modernism is the cultural condition of neoliberal societies in the late 20th and early 21st centuries Until recently it seemed that neoliberal post modernity was here to stay framed by relationship to freedom and time which stressed individual agency but precluded the possibility of historical change at the political level However the Great Recession of 2008 opened new spaces for agitation and transformation which has resulted in the discordant politics of the last decade This book will be of interest to scholars working in a number of fields including economic policy cultural analysis political theory and social critique

**The Politics of Metaphysics** Felipe G. A. Moreira, 2022-10-13 Since immemorial times persons have been engaged in disputes in metaphysics This book reacts to this fact by supporting five theses Thesis 1 is that disputes are micro wars that have a significant social importance they involve conflicting parties who may resort to some kind of violence and depend on normative factors Thesis 2 is that disputes can be approached from right wing or left wing stances Thesis 3 is that the grounds for endorsing an approach to a dispute are problematic starting points that may be rationally rejected Thesis 4 is that disputes have an incommensurable greatness Thesis 5 is that right wing approaches to disputes may be less appealing than the left wing one championed by the

book for those who endorse that one is to avoid expressing subtle violence This is the violence expressed by those who suggest that others who disagree with one's criteria to deal with disputes fall short of logos or act as if such others did not exist
