The Book of Forbidden Knowledge Thessalonia Deprince,1986-06-01 **Forbidden Knowledge** Burton F. Porter, 2019-12-20 In this book eminent philosopher Burton Porter examines the concept of forbidden knowledge in religion science government and psychology From the tree of knowledge in the Garden of Eden forbidden fruit to world altering scientific research nuclear power stem cells cloning to damning government secrets Abu Ghraib domestic spying to traumatic experiences that individuals want to repress sexual abuse humanity has encountered knowledge that has been hidden and suppressed We experience this denial as a loss of control and respect and we want to know exactly what knowledge has been prohibited and why we cannot have access to it Forbidden knowledge therefore is of enormous interest to the general public The basic question then is when if ever should knowledge be forbidden Are there sacred realms that human beings are not meant to explore Can scientific research be a Frankenstein monster which will harm us one day When are government secrets necessary for national security and when does the public have a right to know Is too much information classified When do databanks eavesdropping and surveillance invade our privacy Is self deception justified if the truth would be psychologically disturbing In short can we know more than is good for us The author takes the general position that too much material is prohibited especially today even while business and government invade individual privacy more and more A primary assumption in a democracy is that we can have confidence in the people so information should not be forbidden unless there is a vital and compelling reason to withhold it The Forbidden Knowledge of Good and Evil, The Curious Case of the Midnight Shadow Pasquale De Marco, 2025-07-27 Prepare to delve into the enigmatic realm of shadows where the boundaries between light and darkness blur The Curious Case of the Midnight Shadow is a thought provoking exploration of the shadows that dwell within the human psyche their profound influence on our fears desires and motivations Through a series of insightful essays Pasquale De Marco invites you on a journey of self discovery uncovering the secrets that lie beneath the surface Discover how shadows can both haunt and empower us guiding us toward personal growth and resilience Embrace the transformative power of shadows as you confront the parts of yourself that you fear to acknowledge Learn to accept both your light and your dark sides recognizing that they are inextricably intertwined This newfound self awareness empowers you to make more conscious choices to live a more authentic life and to forge deeper connections with

Brand, 2013-05-15 Miryam T Brand explores how texts of the Second Temple period address the theological problem of the existence of sin and describe the source of human sin By surveying the relevant Apocrypha Pseudepigrapha and Dead Sea Scrolls as well as the works of Philo and where relevant Josephus the study determines the extent to which texts presentation of sin is influenced by genre and sectarian identification and identifies central worldviews regarding sin in the Second Temple period The analysis is divided into two parts the first explores texts that reflect a conviction that the source of sin is an innate human inclination and the second analyzes texts that depict sin as caused by demons The author demonstrates that the genre or purpose of a text is frequently a determining factor in its representation of sin particularly influencing the text s portrayal of sin as the result of human inclination versus demonic influence and sin as a free choice or as predetermined fact Second Temple authors and redactors chose representations of sin in accordance with their aims Thus prayers reflecting the experience of helplessness when encountering God present the desire to sin as impossible to overcome without divine assistance In contrast covenantal texts sectarian texts explaining the nature of the covenant emphasize freedom of choice and the human ability to turn away from the desire to sin Genre however is not the only determining factor regarding how sin is presented in these texts Approaches to sin in sectarian texts frequently built upon already accepted ideas reflected in nonsectarian literature adding aspects such as predestination the periodization of evil and a division of humanity into righteous members and evil nonmembers
