

The book cover features a collage of images related to science fiction and ancient mysteries. At the top left, a red and black UFO with a bright light on its underside is shown. In the top right corner, a portion of the Earth is visible against the blackness of space. A vibrant, glowing spiral galaxy with orange and yellow hues stretches across the middle of the cover. In the foreground, a large, golden, conical antenna-like structure with a mesh top is positioned on the left. In the center, a large, brown, sandy pyramid stands on a desert-like surface. At its base, there is a small, dark, rectangular structure surrounded by concentric, colorful rings. A bright beam of light emanates from the right side of the pyramid. The title 'FORBIDDEN SCIENCE' is written in large, white, stylized, jagged letters across the upper half of the cover.

39,000 BCE Edward F. Malkowski, 2010-05-14 A view into the sophisticated and highly advanced civilization that preceded

the world of the pharaohs Presents historical evidence of the civilization ruled by the gods that the Egyptians claimed preceded their own Explains who these prehistoric people were what happened to them and why they built a series of pyramids along the west bank of the Nile River Traditional Egyptologists have long resisted the notion that the architectural achievements of the Ancient Egyptians required the existence of a much more sophisticated technology than would have existed at that time Yet no records exist explaining how why or who built Egypt s megalithic monuments and statues The ancient Egyptians did however record that their civilization resided in the shadow of a kingdom of gods whose reign ended many thousands of years before their first dynasty What was this Civilization X that antiquity s most accomplished people revered as gods The recent discovery of a large stone at one of Egypt s oldest ruins presents physical evidence that clearly and distinctly shows the markings of a machining process far beyond the capabilities of the Ancient Egyptians Likewise experimental modeling of the Great Pyramid s subterranean chambers and passageways gives scientific evidence to further support the theory that the civilization responsible for such magnificent monuments is much older than presently believed Ancient Egypt 39 000 BCE examines this evidence from historical and technical points of view explaining who these prehistoric people were what happened to them why they built their civilization out of granite and why they built a series of pyramids along the west bank of the Nile River **They Would Be Gods** Anthony K. Douglas Kenyon, 2006-09-22 Reveals the thread that unites the spiritual paths that have opposed orthodox religion over the centuries and the challenge they provide to the status quo Contains 40 essays by 18 key investigators of heresies and suppressed spiritual traditions including Steven Sora Ian Lawton Jeff Nisbet P M H Atwater John Chambers and Vincent Bridges Edited by Atlantis Rising publisher J Douglas Kenyon Following the model of his bestselling Forbidden History J Douglas Kenyon has assembled from his bi monthly journal Atlantis Rising material that explores the hidden path of the religions banned by the orthodox Church from the time before Christ when the foundations of Christianity were being laid to the tumultuous times of the Cathars and Templars and the Masons of the New World Revealed in this investigation of the roots of Western faith are the intimate ties of ancient Egyptian religion to Christianity the true identities of the three magi the link forged by the Templars between early Christianity and the Masons and how these hidden religious currents still influence the modern world This book serves as a compelling introduction to the true history of the heretical religious traditions that played as vital a role in society as the established faiths that continuously tried to suppress them Born in the same religious ferment that gave birth to Christianity these spiritual paths survived in the heresies of the Middle Ages and in the theories of the great Renaissance thinkers and

their successors such as Isaac Newton and Giordano Bruno Brought to the New World by the Masons who inspired the American Revolution the influence of these forbidden religions can be still found today in The Star Spangled Banner and in such Masonic symbols as the pyramid on the back of the dollar bill Ghosts of Atlantis J. Extra-Planetary Experiences Thomas James Streicher, 2012-03-19 Deep insights into human consciousness revealed by accounts of travel to other planets moons and stars Includes interviews with 7 people who have had extra planetary experiences including astronaut Edgar Mitchell Norma Milanovich and Ingo Swann Reveals the positive effects of these events on the interviewees lives from cosmic consciousness and loss of fear of death to enhanced spiritual insights Contextualizes these accounts with 19th and 20th century reports as well as alien human encounters in ancient Sumerian Vedic Egyptian Tibetan and biblical records Since prehistoric times all cultures report encounters with strange beings and crafts from the sky as well as stories of extra planetary experiences that is travel to other planets moons and stars In the case of modern accounts these benevolent alien human interactions bear striking resemblance to one another even among people with no knowledge of other alien human claims And all experiences marked a spiritual turning point in the person s life providing a loss of the fear of death enhanced spiritual insights a connection to cosmic consciousness or increased motivation to be of service to humanity Exploring fresh dimensions of ET contact and extra planetary experience XPE using Harvard professor and researcher John Mack s witnessing approach to paranormal incidents Thomas Streicher interviews 7 renowned people who have experienced XPE including astronaut Edgar Mitchell Norma Milanovich and Stanford tested remote viewer Ingo Swann and shares the positive spiritual effects of XPE on their lives Placing their experiences in the context of historical accounts of alien human encounters from ancient Sumerian Vedic Egyptian Tibetan Hopi Dogon and biblical records as well as 19th and 20th century testimonies from Orfeo Angelucci Billy Meier Elizabeth Klarer and others the author reveals the similarities of these experiences with those of his interviewees Streicher shows these experiences are not contrived hallucinations but genuine transformative spiritual awakenings akin to near death and out of body experiences

Science and the Afterlife Experience Chris Carter, 2012-08-22 Reveals the evidence of life beyond death Examines 125 years of scientific research into reincarnation apparitions and communication with the dead showing these phenomena are real Reveals the existence of higher planes of consciousness where the souls of the dead can choose to advance or manifest once again on Earth Explains how these findings have been ignored and denied because they are incompatible with materialist doctrines In this book Chris Carter shows that evidence of life beyond death exists and has been around for millennia predating any organized religion Focusing on three key phenomena reincarnation apparitions and communications from the dead Carter reveals 125 years of documented scientific studies by independent researchers and the British and American

Societies for Psychical Research that rule out hoaxes fraud and hallucinations and prove these afterlife phenomena are real The author examines historic and modern accounts of detailed past life memories visits from the deceased and communications with the dead via medium and automatic writing as well as the scientific methods used to confirm these experiences He explains how these findings on the afterlife have been ignored and denied because they are incompatible with the prevailing doctrine of materialism Sharing messages from the dead themselves describing the afterlife Carter reveals how consciousness exists outside the parameters of biological evolution and emerges through the medium of the brain to use the physical world as a springboard for growth After death souls can advance to higher planes of consciousness or manifest once again on Earth Carter s rigorous argument proves beyond any reasonable doubt not only that consciousness survives death and continues in the afterlife but that it precedes birth as well

Science and Psychic Phenomena Chris Carter,2012-02-22 A factual and conscientious argument against materialism s vehement denial of psi phenomena Explores the scandalous history of parapsychology since the scientific revolution of the 17th century Provides reproducible evidence from scientific research that telepathy clairvoyance precognition and psychokinesis are real Shows that skepticism of psi phenomena is based more on a religion of materialism than on hard science Reports of psychic abilities such as telepathy clairvoyance precognition and psychokinesis date back to the beginning of recorded human history in all cultures Documented reproducible evidence exists that these abilities are real yet the mainstream scientific community has vehemently denied the existence of psi phenomena for centuries The battle over the reality of psi has carried on in scientific academies courtrooms scholarly journals newspapers and radio stations and has included scandals wild accusations ruined reputations as well as bizarre characters on both sides of the debate If true evidence exists why then is the study of psi phenomena parapsychology so controversial And why has the controversy lasted for centuries Exploring the scandalous history of parapsychology and citing decades of research Chris Carter shows that contrary to mainstream belief replicable evidence of psi phenomena exists The controversy over parapsychology continues not because ESP and other abilities cannot be verified but because their existence challenges deeply held worldviews more strongly rooted in religious and philosophical beliefs than in hard science Carter reveals how the doctrine of materialism in which nothing matters but matter has become an infallible article of faith for many scientists and philosophers much like the convictions of religious fundamentalists Consequently the possibility of psychic abilities cannot be tolerated because their existence would refute materialism and contradict a deeply ingrained ideology By outlining the origin of this passionate debate Carter calls on all open minded individuals to disregard the church of skepticism and reach their own conclusions by looking at the vast body of evidence
