Leonard Sherman,2017-01-10 Businesses often find themselves trapped in a competitive dogfight scratching and clawing for market share with products consumers view as largely undifferentiated Conventional wisdom suggests that dogfights are to be expected as marketplaces mature giving rise to the notion that there are bad industries where it is unlikely that any company can succeed But there are notable exceptions in which enlightened executives have changed the rules to grasp the holy grail of business long term profitable growth Rather than joining the dogfights raging within their industry companies such as Apple FedEx and Starbucks have chosen to become metaphorical cats continuously renewing their distinctive strategies to compete on their own terms In If You re in a Dogfight Become a Cat Leonard Sherman draws on four decades of experience in management consulting venture capital and teaching business strategy at Columbia Business School to share practical advice on two of the most vexing issues facing business executives why is it so hard to achieve long term profitable growth and what can companies do to break away from the pack Sherman takes the reader on a provocative journey through the building blocks of business strategy by challenging conventional wisdom on a number of questions that will redefine management best practices What should be the overarching purpose of your business Do you really know what your strategy is Is there such a thing as a bad industry Where do great ideas come from and how do I find them What makes products meaningfully different What makes and breaks great brands How and when should I disrupt my own company What are the imperatives to achieving long term profitable growth Filled with dozens of illustrative examples of inspiring successes and dispiriting falls from grace this book provides deep insights on how to become the cat in a dogfight whether you are a CEO mid level manager aspiring business school student or curious observer interested in achieving sustained profitable

**Professional Playwrights** Ira Clark, 2014-07-15 The most  
neglected of the English Renaissance playwrights are the major Carolines Philip Massinger John Ford James Shirley and  
Richard Brome Writing in the 1620s and 1630s always in the shadow of their great precursors Shakespeare and Jonson they  
have often been dubbed mere purveyors of slick escapist sensationalism who avoided the great issues of their day and turned  
away from the impending breakdown of English society Ira Clark's revisionist book shows us these dramatists and their time  
whole particularly through analysis of their treatment of sociopolitical issues issues that find echoes in twentieth century  
concerns For each of these playwrights Clark sketches his known social circle describes characteristic social and political  
stances and dramatic techniques and provides a detailed reading of an exemplary play In considering their artistry he notes  
their variations on traditional dramatic characters situations and styles Where their predecessors had offered deep  
psychological portrayals the Carolines he finds present characters whose roles grow out of their social relations The issues  
they engage range from the sovereignty of King or Parliament and the criteria for social mobility to parental dominion and  
the rights of women and children Their presentations range from conservatism Ford's distilled and Shirley's playful through  
Massinger's accommodation to Brome's extemporaneous experimentation The Carolines theatrical world Clark argues is  
accessible to modern readers through the social theories of our time which depend on their world as a stage trope for such  
concepts as symbolic interactionism and the ritual inculcation of social cohesion This important book sheds new light on both  
the artistic and the political climate of seventeenth century England
