**Literature Reader** Theo D'haen, César Domínguez, Mads Rosendahl Thomsen, 2012-06 World Literature is an increasingly influential subject in literary studies which has led to the re framing of contemporary ideas of national literatures language and translation World Literature A Reader brings together thirty essential readings which display the theoretical foundations of the subject as well as showing its conceptual development over a two hundred year period The book features an illuminating introduction to the subject with suggested reading paths to help readers navigate through the materials texts exploring key themes such as globalization cosmopolitanism post trans nationalism and translation and nationalism writings by major figures including J W Goethe Karl Marx Friedrich Engels Longxi Zhao David Damrosch Gayatri Chakravorty Spivak Pascale Casanova and Milan Kundera The early explorations of the meaning of Weltliteratur are introduced while twenty first century interpretations by leading scholars today show the latest critical developments in the field The editors offer readers the ideal introduction to the theories and debates surrounding the impact of this crucial area on the modern literary landscape      The Publishers' Trade List Annual , 1886      **On Anthologies** Jeffrey R. Di Leo, 2004-01-01 Over the course of the past twenty five years anthologies have shifted from playing a relatively minor role in academic culture to a position of dominance The essays in this collection explore the significant intellectual economic political pedagogical and creative resonance of anthologies through all levels of academic life They show that anthologies have consequences and are grounded in commitments Striving to articulate these consequences and commitments is a priority in higher education today Most of the contributors to this volume are editors of anthologies and they draw on personal experiences to provide a rare glimpse into the economics and logic of anthology publication Their essays illustrate the ways in which editing an anthology involves negotiation and compromise between intellectual ideal and realistic practice On Anthologies includes discussion of a wide range of anthologies used and produced by teachers and scholars Though the emphasis is on literature and theory anthologies the insights in this volume speak to professionals in all areas of academic life Collectively these essays establish the foundation for continuing critical analysis of anthology production and consumption in all disciplines      **Philosophy as**

**World Literature** Jeffrey R. Di Leo, 2020-11-26 What does it mean to consider philosophy as a species of not just literature

but world literature The authors in this collection explore philosophy through the lens of the worlding of literature that is how philosophy is connected and reconnected through global literary networks that cross borders mix stories and speak in translation and dialect Historically much of the world's most influential philosophy from Plato's dialogues and Augustine's confessions to Nietzsche's aphorisms and Sartre's plays was a form of literature as well as by extension a form of world literature Philosophy as World Literature offers a variety of accounts of how the worlding of literature problematizes the national categorizing of philosophy and brings new meanings and challenges to the discussion of intersections between philosophy and literature
