General Psychotherapy Lotte Hartmann-Kotte, 2022-03-26 This book highlights common similarities between the various schools of psychotherapy. It provides psychotherapists with the underlying neurophysiological, developmental, psychological, and relationship-oriented matrix, basic needs, and their regulation deficits, trauma, and conflict processing patterns, including accompanying exercises as well as opportunities for healing, correction, and stabilisation, and the ways in which to apply these methods in a therapeutically mindful way for the benefit of the patient. The new university-based psychotherapy training covers the four fundamental schools of psychotherapy, i.e. the previous standard approaches plus the systemic and humanistic ones. Focusing on the common ground builds bridges of understanding and encourages collaboration. This expanded new range of methods to access patients constitutes a substantial development in the field of psychotherapy and will also influence the psychotherapy practice of experienced colleagues. Written for medical and psychological psychotherapists, psychosomatic doctors, psychiatrists, and other specialists with additional psychotherapeutic qualifications and for students of psychotherapy.

Maternal Health Care : Policies, Technical Standards and Services Accessibility in Eight Countries in the Western Pacific Region WHO Regional Office for the Western Pacific, 2019-02-11 Target 5A of the United Nations Millennium Development Goals (MDGs) was to reduce maternal deaths by 75% between 1990 and 2015. The Maternal Mortality Estimation Inter-Agency Group, comprising the World Health Organization (WHO), the United Nations Children's Fund (UNICEF), the United Nations Population Fund (UNFPA), the World Bank Group, and the United Nations Population Division, assessed the 95 countries with an MMR higher than 100 in 1990. The report notes that Cambodia, the Lao People's Democratic Republic, and Mongolia have achieved this target in the Western Pacific Region. However, maternal mortality remains higher than the Sustainable Development Goal (SDG) target in five countries in the Region. WHO has developed evidence-based maternal health recommendations for reducing maternal mortality and morbidity. This review compares national guidelines and protocols, implementation, and health system standards to WHO recommendations for eight countries that account for 96% of maternal deaths in the Western Pacific Region.

Traditional Communities in Indonesia Lilis Mulyani, 2022-08-26 This book explores the ambiguous legal status of traditional adat communities in Indonesia and their informal traditional rights to communal ulayat land. It discusses the lack of recognition of adat communities and their legal rights in the Indonesian constitution, surveys legal consideration of informal legal rights both in Indonesia and elsewhere, and examines how thinking about these issues has evolved over time in Indonesia. It provides an in-depth study of the ways that government policies on adat communities are developed, changed, and implemented, and how different actors give meaning to these policies, particularly government bodies with authority to manage land and forests, which exercise discretion as to the operational implementation of ideas about adat groups as legal persons and ulayat land rights as land title, thus enabling their exploitation by government and business. The book highlights how these issues are

becoming more pressing as problems relating to legal personhood and rights to traditional customary land are increasingly giving rise to violent conflict dispossession and marginalisation It also demonstrates how adat communities can take action and are doing so to protect their legal positions

The Political Bubble Mark Latham, 2014-08-01 Australians once trusted the democratic process While we got on with our lives we assumed our politicians had our best interests at heart Not anymore That trust has collapsed Mark Latham joined the Labor Party in the late 1970s hoping to improve people's lives through parliamentary service Twenty five years later the Opposition Leader ended up as disillusioned as the rest of us The scorching honesty of The Latham Diaries ensured he'd burned his political bridges but ostracism from the Canberra Club has its advantages In The Political Bubble Mark Latham is free to explore how parliamentary democracy has lost touch with the people it's supposed to represent As with most institutions at risk politics has become more tribal with left and right wing fanatics dominating formerly robust mainstream parties After the disappointment of the Rudd Gillard years Tony Abbott promised to restore trust in Australian politics but as with most of his promises it was dispensable The Political Bubble looks at the new government's policies how Abbott is adding to distrust not solving the problem What can be done about this democratic deficit Can our parliamentary system realign itself with community expectations or has politics become one long race to the bottom A brilliant analysis of Australia in the era of Tony Abbott and fanatical right wing politics ROBERT MANNE

Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International

Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **Sociology of Corruption** David Jancsics,2024-04-15 In Sociology of Corruption David Jancsics provides a fresh approach to the study of corruption in Hungary which once seemed to be the most likely of the ex communist bloc nations to catch up to the West and is according to many experts and scholars a country with a highly corrupt dynamic Based on data from 2022 Hungary is now the most corrupt member state of the European Union There is also a consensus among experts that a small clique of corrupt political actors has captured most Hungarian state institutions and a significant portion of the business sector What fostered corruption in Hungary What are the most typical forms of corruption in this country What do Hungarians think about it What is the role of prime minister Viktor Orb n in this Sociology of Corruption proposes a novel sociological theory of corruption focusing on social status and relationships network structures and power dynamics as important explanatory factors of corrupt behavior Although his focus is on Hungary Jancsics s findings are applicable to other nations and cultural contexts **Government and Society in Rural Palestine, 1920-1948** Ylana Miller,2014-07-03 In 1947 Arabs made up two thirds of the population of Palestine and they owned most of its cultivable land Why then did they lose their homes and land to a relatively small Jewish community just emerging from the shocks of World War II Did the Palestinians lose their homeland because they were backward primitive and reactionary Or was Israel the product of persistent victimization of Palestinian Arabs by an imperialist power which supported Zionist colonization Did the Palestinians sell each other out Or were they helpless sufferers in the face of a sophisticated enemy with endless resources Too often discussions of Palestine are couched in such rhetorical language based on the assumption that either Jews or Arabs are morally to blame for historical realities This study seeks to go beyond attributions of responsibility to investigate the concrete conditions which determined and limited Palestinian Arab actions between 1920 and 1948 It was during that period while Great Britain governed the area under a League of Nations mandate that Palestine both emerged and disappeared as a modern political entity Many studies of Palestinian Arab nationalism have looked to Zionism as the primary agent of change in the region Miller assumes the impact of Jewish settlement but goes beyond these earlier studies to explore the way in which policies of the Palestine government affected the daily lives of villagers the majority of the population and their understanding of the changes occurring around them In this way what emerges is a detailed analysis of the influence for good or ill that government policy had on village community life Based largely on archival sources never before used this work allows the reader to gain a deeper appreciation of the internal life of the rural community which had previously received relatively little attention Understanding the experiences of Palestinians before 1948 helps us to comprehend immeasurably better the continuity of movements for Palestinian statehood as well as the continuing tensions and problems on the West Bank today **Industrial and Labor Economics** Saibal Kar,Debabrata Datta,2014-10-22 This book is an attempt to capture and analyze several idiosyncratic features of industry and labor in the developing world Available books

and graduate level texts in labor economics largely discuss industrial and labor market situations prevalent in developed countries where well defined institutional arrangements and regulations create a very different scope of analysis The patterns of choice in training and contracts in the labor market more apparent in developing and transition countries are discussed as are the information theoretic results The book also critically examines labor migration a context in which the developing and transition countries represent large sources in the present global order A broad base of empirical observations from industries is used to develop analytical conjectures on risk sharing arrangements between workers and employers while strong intuitive explanations are combined with relevant mathematical and graphical derivations ensuring the book's readability among graduate students pursuing courses in labor economics and industrial economics for developing and transition countries The book may also serve as a valuable reference guide for all students in advanced human resources courses at management schools Presenting state of the art research findings in all of its chapters the book discusses numerous institutional peculiarities of the developing world making the results distinct in view of the general scope of labor economics

Planning for a Material World Laura Lieto, Robert Beauregard, 2015-11-06 Today urban scholars think of cities and regions as evolving through networks of human associations technologies and natural ecologies This being the case planners are faced with the task of navigating a profoundly material world Planning with and for humans alone is unacceptable in the unfolding of urban processes non human things cannot be ignored This inclusive vision has consequences for how planners envision the connections among norms technologies and life worlds as well as how they design and implement their plans The contributors to this volume utilize a variety of examples ecologically sensitive regional planning in Naples Italy congestion pricing in New York City and public participation in Europe among others to explore how planners engage a heterogeneous and restless world Inspired by assemblage thinking and actor network theory each chapter draws on this new materialism to acknowledge in quite pragmatic ways that spatial politics is a process of becoming that is inseparable from the materiality of urban practices
