Brettell, 2002 Seurat's Circus Sideshow Richard Thomson, 2017-02-15 Georges Seurat 1859 1891 created just six major figure paintings during his lifetime one of which the alluring Circus Sideshow Parade de cirque has remained the most challenging to interpret since it first intrigued viewers at the 1888 Salon des Indépendants in Paris Unlike Seurat s earlier sunlit scenes Circus Sideshow presents a nighttime tableau depicting a parade a street show enticing passersby to purchase tickets With its geometrically precise composition muted colors and elements of abstraction the painting stands apart as a masterpiece of Neo Impressionism and heralds Seurat s subsequent depictions of popular entertainments This book the first

comprehensive study of Circus Sideshow situates the painting in the context of nineteenth century Paris and of the many social changes France was undergoing. Renowned art historian Richard Thomson illuminates the roles of caricature, naturalist and avant garde painting and circus advertising. Examines Seurat's use of contemporary aesthetic theory and discusses how artists ranging from Rouault to Picasso mined the sideshow theme into the twentieth century. Illustrated with Seurat's related drawings, works by other artists and period posters and broadsides. Seurat's Circus Sideshow delves into the history of traveling circuses and seasonal fairs in France, exploring the ongoing appeal of this traditional form of popular entertainment through the fin de siècle. Two additional essays describe the painting's enthusiastic reception in New York upon its 1929 debut and present the results of a fresh technical examination of the canvas, making this volume the definitive resource on one of Seurat's most captivating works.

The Contemporary Circus Ernest Albrecht, 2006-10-10. The fun, energy and hard work integral to the exciting world of the circus is lovingly captured in *The Contemporary Circus: Art of the Spectacular*, an in-depth look at the creative process of today's circuses. Through numerous personal interviews with directors, designers, composers and performers, author Ernest Albrecht provides a unique inside view of the journey through which the most innovative and exciting modern circuses are produced, from the director and production team to the performers and from designing the circus to setting it to music. Case studies of specific productions by the Big Apple Circus, Ringling Bros and Barnum Bailey and Cirque du Soleil illuminate the artistic give and take necessary in such a collaborative process, proving the circus a true art form, one as artistic as theatre or dance. A variety of performers, such as animal trainers, dancers and clowns, discuss their approach to their individual specialties, and the text concludes with an examination of the world's circuses and schools and their methods for training circus artists. A full photo spread of 30 beautiful photos will help inspire and enlighten artists and fans alike.
