Die Frauenfrage Lily Braun:

Die Frauenfrage Lily Braun, 2014-12-08 Lily Braun 1865 1916 war eine deutsche Schriftstellerin Sozialdemokratin und Frauenrechtlerin Ein sehr interessantes Buch von 1901 über die Geschichte der Frauenbewegung bis ins 19. Jahrhundert

Marxist Intellectuals and the Working-class Mentality in Germany, 1887-1912 Stanley Pierson, 1993 How does one explain the presence of educated recruits in movements that were overwhelmingly working class in composition How did intellectuals function within the movements In the first in depth exploration of this question Stanley Pierson examines the rise development and ultimate failure of the German Social Democrats the largest of the European socialist parties from 1887 to 1912 Prominent figures such as Karl Kautsky August Bebel Rosa Luxemburg and Eduard Bernstein are discussed but the book focuses primarily on the younger generation These forgotten intellectuals Max Schippel Paul Kampffmeyer Conrad Schmidt Paul Ernst and others struggled most directly with the dilemmas arising out of the attempt to translate Marxist doctrines into practical and personal terms These young writers speakers and politicians set out to supplant old ways of thinking with a Marxist understanding of history and society Pierson weaves together over thirty intellectual biographies to explore the relationship between ideology and politics in Germany He examines the conflict within Social Democracy between the revisionist intellectuals who sought to adapt Marxist theory to changing economic and social realities and those orthodox and radical intellectuals who attempted to remain faithful to the Marxist vision By examining the struggles of the socialist intellectuals in Germany Pierson brings out the special features of German cultural social and political life before World War I His study of this critical time in the development of the German Social Democratic party also illuminates the wider development of Marxism in Europe during the twentieth century

Debating the Woman Question in the French Third Republic, 1870-1920 Karen Offen, 2018-01-11 Karen Offen offers a magisterial reconstruction and analysis of the debates around relations between women and men how they are constructed and how they should be organized that raged in France and its French speaking neighbors from 1870 to 1920 The woman question encompassed subjects from maternity and childbirth and the upbringing and education of girls to marriage practices and property law the organization of households the distribution of work inside and outside the household intimate sexual relations religious beliefs and moral concerns government sanctioned prostitution economic and political citizenship and the politics of population growth The book shows how the expansion of economic opportunities for women and the drop in the birth rate further exacerbated the debates over their status roles and possibilities With the onset of the First World War these debates were temporarily placed on hold but they would be revived by 1916 and gain momentum during France's post war recovery

Max Weber Marianne Weber, 2017-07-12 A founder of contemporary social science Max Weber was born in Germany in 1864 At his death 56 years later he was nationally known for his scholarly and political writings but it was the international reception of his oeuvre over

the last forty years that has made him world famous The Protestant Ethic and the Spirit of Capitalism The Economic Ethics of the World Religions and his magnum opus Economy and Society with its treatment of the relations of economics politics law and religion belong to the great achievements of 20th century social science The groundwork for the posthumous Weber reception was laid by Weber's widow Marianne a well known feminist writer who followed up her edition of his collected works with one of the greatest biographies in a generation that produced many important accounts of itself Although unavailable in English until a decade ago the importance of Marianne Weber's 1926 work had been widely understood Sociologist Robert A Nisbet called it a moving and deeply felt biographical memoir Historian Gerhard Masur cited the book as the foundation of all further inquiries into Max Weber's life and influence Beginning with Max's ancestry and early years Marianne Weber guides us through his life as student young lawyer scholar and political writer quoting liberally from his voluminous correspondence Her account of his nervous breakdown after 1897 which curtailed his academic career but ultimately strengthened his creative energies provides deep insight into some of the personal tensions that troubled him to the end In addition to her perceptive personal and intellectual life before the First World War describing many scholars social reformers politicians and literary figures within and beyond the famous Heidelberg circle of the Webers The new introduction by Guenther Roth situates Marianne Weber's own role in the contemporary setting and discusses the current state of Weber research and of the international Weber reception

The Surplus Woman Catherine L. Dollard, 2012 The first German women's movement embraced the belief in a demographic surplus of unwed women known as the *Frauenberschu* as a central leitmotif in the campaign for reform Proponents of the female surplus held that the advances of industry and urbanization had upset traditional marriage patterns and left too many bourgeois women without a husband This book explores the ways in which the realms of literature sexology demography socialism and female activism addressed the perceived plight of unwed women Case studies of reformers including Lily Braun Ruth Br Elisabeth Gnauck K hne Helene Lange Alice Salomon Helene St icker and Clara Zetkin demonstrate the expansive influence of the discourse surrounding a female surfeit By combining the approaches of cultural social and gender history The Surplus Woman provides the first sustained analysis of the ways in which imperial Germans conceptualized anxiety about female marital status as both a product and a reflection of changing times
