Library of Congress, 1950 **Datenfabrik YouTube** Thilo Rösch, 2025-04-17 ber die Funktionsweise von Plattformen gibt es noch immer viele Missverständnisse Oft wird ausgeblendet dass die Daten die Haupteinnahmequelle der Plattformen hergestellt werden und damit das Produkt unbezahlter und weitgehend unerkannter digitaler Arbeit sind Analog zum Fabrikwesen und den Werkzeugen der politischen Konomie entwickelt Thilo Rösch am Beispiel von YouTube ein Modell mit dem die Kapitalakkumulation von Plattformen analysiert werden kann Damit wendet er sich nicht nur an Forschende sondern auch an Creator innen und User innen die die Mechanismen von YouTube und Co besser verstehen wollen *Female Agency in the Urban Economy* Deborah Simonton, Anne Montenach, 2013-04-17 This innovative new book is overtly and explicitly about female agency in eighteenth century European towns However it positions female activity and decisions unequivocally in an urban world of institutions laws regulations customs and ideologies Gender politics complicated and shaped the day to day experiences of working women Town rules and customs as well as police and guilds regulations affected women's participation in the urban economy most of the time the formally recognized and legally accepted power of women which is an essential component of female agency was very limited Yet these chapters draw attention to how women navigated these gendered terrains As the book demonstrates exclusion is too strong a word for the realities and pragmatism of women's everyday lives Frequently guild and corporate regulations were more about situating women and regulating their activities rather than preventing them from operating in the urban economy Similarly corporate structures which were under

stress found flexible strategies to incorporate women who through their own initiative and activities put pressure on the systems Women could benefit from the contradictions between moral and social unwritten norms and economic regulations and could take advantage of the tolerance or complicity of urban authorities towards illicit practices Women with a grasp of their rights and privileges could defend themselves and exploit legal systems with its loopholes and contradictions to achieve economic independence and power
