The Redemption of Things Samuel Frederick,2022-01-15 Collecting is usually understood as an activity that bestows permanence unity and meaning on otherwise scattered and ephemeral objects In *The Redemption of Things* Samuel Frederick emphasizes that to collect things however always entails displacing immobilizing and potentially disfiguring them too He argues that the dispersal of objects seemingly antithetical to the collector s task is essential to the logic of gathering and preservation Through analyses of collecting as a dialectical process of preservation and loss *The Redemption of Things* illustrates this paradox by focusing on objects that challenge notions of collectability ephemera detritus and trivialities such as moss junk paper scraps dust scent and the transitory moment In meticulous close readings of works by Gotthelf Stifter Keller Rilke Glauser and Frisch and by examining an experimental film by Oskar Fischinger Frederick reveals how the difficulties posed by these fleeting fragile and forsaken objects help to reconceptualize collecting as a poetic activity that makes the world of scattered things uniquely palpable and knowable **Die Wassernot im Emmental, Erzählung** Jeremias Gotthelf,1970 *Literature, the Volk and the Revolution in Mid-nineteenth Century Germany* Michael Perraudin,2000 Between the revolutions of 1830 and 1848 poverty reached new extremes in Germany as in other European countries and gave rise to a class of disaffected poor leading to the widespread expectation of a social revolution Whether welcomed or feared it dominated private and public debate to a larger extent than is generally assumed as is shown in this study on the reflections in literature of what was called the Social Question Examining works by Heine Eichendorff Nestroy Bchner Grillparzer and Theodor Storm the author reveals an acute awareness of political issues in an era in literature which is often seen as tending to quiescence and withdrawal from public preoccupations *Kleinere Erzählungen. Die Wassernot im Emmental am 13. August 1837* Jeremias Gotthelf Jeremias Gotthelf,Hans Bloesch,1955 **Die Wassernot im Emmental am 13. themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings

The Laboratory of Progress Joseph Jung, 2022-07-29 The Laboratory of Progress Switzerland in the 19th Century tells the improbable story of how a small backward mountainous agricultural country with almost no raw materials became an industrial powerhouse a hub of innovation a touristic mecca and a pioneer in transportation all in the course of a single century That a tiny landlocked country should become a dominant steamship builder for the rest of the world that a country that had never seen a cotton plant should become the world's second largest textile producer that a country with hardly any level terrain should come to boast the world's most highly developed railway network and that a country whose main export was impoverished emigrants should be transformed into one of the world's major financial centres these astonishing developments among many others are explored and explained both through the specific stories of individual innovators and through a prescient analysis of the political economic societal and cultural structures that formed the context in which Switzerland's astonishing transformation took place The book is a compelling read both for professional historians and for general readers with an interest in Switzerland it highlights the roles of transport networks and individual pioneers in industrial and political development

Flood Reconstruction Jürgen Herget, 2024-10-22 Floods are among the most common and consequential natural disasters on Earth occurring in all natural areas at all times Yet they often surprise us with their unexpected magnitude and the damage they cause Terms like century and millennium floods quickly become widespread but what do we really know about the floods of the past How can we truly classify events like the Mississippi flood of 1993 the Elbe flood of 2002 or the Pakistan flood of 2010 Have such floods occurred before or are they unprecedented perhaps even consequences of ongoing climate change To answer these questions we must look into the past However river level records are often limited in duration rarely extending back more than a hundred years and many regions lack any measured values at all Nonetheless floods have left their marks These marks may exist in the form of historical records and descriptions which vary in extent across different cultural contexts In addition to historical records natural indicators like deposited sediments or erosion traces provide valuable information about past flood levels This is particularly important for prehistoric periods and for regions without dense settlements and related gauges These investigations lead to further questions about maximum flood levels and the earliest recorded observations This book addresses these questions by exploring the reconstruction of floods from both historical and prehistoric times It explains and discusses methods and

results for beginners with diverse backgrounds in disciplines such as earth sciences hydrology history and engineering

 Purnell, 1929 **Jeremias Gotthelf** Karl Fehr, 2024-09-12 **Kultivierung der Katastrophe** Peter Utz, 2013-02-20 An der
 Grenzlinie von Natur und Kultur treten jene Einbrüche auf, welche die Kultur als Katastrophe versteht. Um sie wahrnehmen
 darstellen und deuten zu können mobilisiert sie alle Spielformen der Kreativität auch die der Literatur. Dies lässt sich
 exemplarisch an der modernen Schweiz verfolgen. Denn diese kultiviert als Rückseite der alpinen Idylle die
 Naturkatastrophen, um sich in ihrer Identität als Willensnation zu stärken. Die Literatur aus der Schweiz trägt mit vielfältigen
 Untergangsszenarien zu dieser spezifischen Kultivierung der Katastrophe bei. In jenem Stillhalteabkommen, in das sich die
 Schweiz einmauert, spielt die Literatur jedoch auch eine heimliche Unruhe auf. Sie harrt die Misstöne im Einheitschor, sieht
 Brandstifter umgehen im Hotel Schweiz und spiegelt der Schweiz ihre Zuschauerrolle bei den Weltkatastrophen zurück. So
 setzt sie die Energie mit der die Katastrophe alle politischen medialen und ästhetischen Grenzen sprengt als ästhetische
 Kreativität frei **Erzählen über Katastrophen** Bernd Rieken, 2016 Erzählen über Katastrophen zu diesem Thema tagte die
 Kommission für Erzählforschung in der Deutschen Gesellschaft für Volkskunde im Herbst 2014. Gemäß der interdisziplinären
 Ausrichtung der Kommission vereint der Band Beiträge aus der Europäischen Ethnologie der Deutschen Philologie und der
 Psychotherapiewissenschaft. Allen Aufsätzen ist gemein, dass sie das Erzählen als ein menschliches Grundbedürfnis in den
 Vordergrund rücken, das der Erklärung Sinnfindung und Orientierung in der Welt genauso wie der persönlichen Entlastung
 dient. Im Fall einer Katastrophe ist dieses von besonderer Bedeutung, denn durch das Erzählen werden belastende Erlebnisse
 in Sachzusammenhänge eingeordnet und verlieren somit den Stachel der Bedrohlichkeit. Es hat sich gezeigt, dass eine
 intensive Auseinandersetzung mit traumatischen Geschehen dringend notwendig ist. Mit Beiträgen von Helga Bleckwenn
