Scotch Baronial Miles Glendinning, Aonghus MacKechnie, 2019-01-10 As the debate about Scottish independence rages on this book takes a timely look at how Scotland's politics have been expressed in

its buildings exploring how the architecture of Scotland in particular the constantly changing ideal of the castle has been of great consequence to the ongoing narrative of Scottish national identity Scotch Baronial provides a politically framed examination of Scotland's kaleidoscopic castle architecture tracing how it was used to serve successive political agendas both prior to and during the three unionist centuries from the early 17th century to the 20th century The book encompasses many of the country's most important historic buildings from the palaces left behind by the lost monarchy to revivalist castles and the proud town halls of the Victorian age examining their architectural styles and tracing their wildly fluctuating political and national connotations It ends by bringing the story into the 21st century exploring how contemporary neo modernist architecture in today's Scotland as exemplified in the Holyrood parliament relates to concepts of national identity in architecture over the previous centuries

Health Julie Collins, 2020-03-24 The Architecture and Landscape of Health explores buildings and landscapes that were designed to treat or prevent disease in the era before pharmaceuticals and biomedicine emerged as first line treatments Written from an architectural perspective it examines the historical relationship between health and place through the emergence of dedicated therapeutic building types from the late eighteenth to the early twentieth century a time when the environment was viewed as integral to the health of both the individual and the population This book provides an overview of ideas surrounding health and place and their impact on architecture and designed landscapes Different therapeutic buildings and places are examined including public parks asylums sanatoria leprosaria quarantine stations public baths and healthy homes Each chapter outlines the medical context common therapies a history of buildings designed in response to these and an examination of how such places were perceived to have functioned Illustrated using geographically and temporally diverse examples the book includes designs drawn from locations across the world including Europe the Americas Africa Australia and Asia The Architecture and Landscape of Health identifies and examines moments in the conversation between health and design and is a timely look back on the resultant buildings and places offering insights which could inform the design of therapeutic places of the future An ideal read for researchers academics and upper level postgraduate students interested in architecture and architectural history particularly relating to healthcare design and medical history *American Architect and Building News*, 1877 *Keith's Magazine on Home Building*, 1925 **Architect**, 1870 *Architecture and Welfare*

Thordis Arrhenius, Ellen Braae, Guttorm Ruud, 2025-01-27 Architecture was fundamental to the realization of welfare state policy in the Nordic countries translating democratic ideals into concrete spatial materializations An inclusive notion of welfare for all was embraced by a generation of architects landscape architects and planners who labored to give physical form to ideas of equality collectivity and democracy producing a vast architectural output in Scandinavia during the postwar

years Today however the architectural legacy of this era is contested Welfare for all no longer enjoys the social or political consensus it once did This publication critically engages with this contested architectural legacy and provides a nuanced portrait of postwar welfare architecture coming to terms with a contentious past and facing an uncertain future With newly commissioned photographic work by contemporary Nordic artists Based on an interdisciplinary research project by KTH Stockholm Oslo School of Architecture University of Copenhagen Internationally renown contributors shed light on aspects of the relationship between architecture and welfare

Sensory Architecture Juliana Duarte Neves, 2024-05-02 Originally released in 2017 the book *Sensory Architecture The Art of Designing for All Senses* by Juliana Duarte Neves receives a second edition in 2024 revised and expanded Over the past six years there have been numerous advancements in the study of sensory architecture and many initiatives focused on emotionally engaging the visitor using the principles of sensory architecture which has become a gateway to new fields of research This second edition brings a refinement of the design methodology proposed in the original book and current examples that make its understanding and applicability clearer And the new chapter *Unfolding of Sensory Architecture* presents two examples of more recent areas of study This new edition broadens horizons with the inclusion of two fundamental contributions to the consolidation of the field of sensory architecture studies in Brazil the excellent reflections made by Lor Cr zel in the text *The intertwining of sensory architecture with neuroarchitecture a synesthetic exploration* and the very personal contribution of Ana Paula Chacur architect researcher and mother of two autistic children enriches the content with her unique perspective on Autism Spectrum Disorder and sensory architecture points out Juliana It is crucial that architecture collaborates so that individuals with Autism Spectrum Disorder ASD feel safe and balanced
