Hellenistic Gold Eros Jewellery Monica M. Jackson, 2006 This work presents systematic and objective examination of the large corpus of Hellenistic gold Eros jewellery By focusing on the question of the interconnections between the major centres of production Egypt South Italy and South Russia Western Asia Minor Greece and Syria a number of regional schools and new jewellery groups are identified The keys to the discussion are the well documented find contexts from Northern Greece South Italy and Tel Atrib Egypt that make it possible to arrive at a relative chronology for a particular type of Eros found throughout the Hellenistic world The morphological stylistic iconographic and technical continuities between Hellenistic jewellery and in particular the Eros motif ensure the successful use of this methodology Evidence from Koroni in Attica and from several South Italian tomb groups has been examined in detail and dated according to the methodology described above to ca 240 BC The study includes a discussion of the significance of Eros in the Hellenistic period The study has shown the value of Eros jewellery as an indicator of the cultural life of the Hellenistic world its values literature and basic lore about nature and the arts The Eros motif and its morphological lineage are traced through related depictions in contemporaneous decorative arts The catalogue has brought together as much material as possible to establish a typology and chronology of Eros jewellery in the hope that it will provide the maximum amount of information for future studies 32 plates including 12 in colour illustrate the work *Real Estate Record and Builders' Guide*, 1903

The Physiology and Pathology of the Cerebellum Robert S. Dow, Giuseppe Moruzzi, 1958 The Physiology and Pathology of the Cerebellum was first published in 1958 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The development of electrical methods of recording activity in the nervous system has greatly augmented our knowledge of cerebellar physiology Now for the first time in a single volume this new information has been related to facts derived from older methods of investigation Previously unpublished reports of experiments conducted at the Institute of Physiology University of Pisa Italy also are included The authors an American clinical neurologist and an Italian neuro physiologist have collaborated to provide a comprehensive review of cerebellar physiology and a survey of the clinical symptomatology of cerebellar disorders and the pathology of the

cerebellum In Part I devoted to the physiology the authors review the literature completely and place it in proper relation to the latest developments in this field There are chapters on this history of cerebellar physiology ablation experiments stimulation experiments electro physiological experiments the relations between the cerebellum and other central nervous structures developmental physiology and the functions of the cerebellum considered generally Part II is devoted to the human cerebellum as studied in the clinic Where anatomical and physiological observation may shed light upon obscure clinical findings the laboratory data are related to the clinical investigations The disorders and diseases affecting the cerebellum are systemically reviewed The book is illustrated with 61 halftones and 124 line drawings
