Marantz, Kenneth A. Marantz, 2014-04-23 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company **Playing with the Book** Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children's literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions Playing with the Book argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading **Children Reading Picturebooks** Evelyn Arizpe, Morag Styles, 2015-11-27 Children Reading Pictures has made a huge impact on teachers scholars and students all over the world The original edition of this book described the fascinating range of children

From Page to Screen / Vom Buch zum Film Manuel

Almagro-Jiménez, Eva Parra-Membrives, 2020-10-05 For a long time now women have struggled for the vindication of their rights and for their visibility This struggle may seem a story of success maybe not complete or equal for all women but at least one which slowly but surely carries with it the promise of equality for all women However a closer look reveals that in various fields of culture the representation of women frequently undergoes a manipulation which makes the image of women lose the intention initially attempted This is often the case with adaptations of literary texts to the screen when the initial literary message is changed because of for example marketing demands or some ideological stance Rarely do we find the opposite case where the indifferent or emasculated original female characters are turned into guardians and or apologists of feminine power The present volume focuses precisely on the way in which the image of women is modified in films and TV series when compared with the original literary texts
