## **California In The 1930s The Wpa Guide To The Golden State:**

**The WPA Guide to California** Federal Writers' Project, 2013-10-31 During the 1930s in the United States the Works Progress Administration developed the Federal Writers Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little known authors many of whom would later become celebrated literary figures were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston and Ralph Ellison are among the more than 6,000 writers, editors, historians and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns and rich cultural details exhibit each state's unique flavor. The guide to California stands out among the rest of the WPA guides for the quality of its writing, photographs and pen and ink drawings. The Golden State contains much diversity of people, places and things and the WPA Guide expertly reflects and records the eclectic quality of this quintessentially American state. Published in 1939, the guide's essays on history cover everything from the gold rush to the movie industry at the nascence of Hollywood's golden age and its back road tours through California's coastal fishing villages and mountain mining towns still provide a splendid alternative to freeways. *California in the 1930s* Federal Writers Project of the Works Progress Administration, 2013-04-23

Alive with the exuberance, contradictions and variety of the Golden State, this Depression era guide to California is more than 700 pages of information that is, as David Kipen writes in his spirited introduction, anecdotal, opinionated and altogether habit forming. Describing the history, culture and roadside attractions of the 1930s, the WPA Guide to California features some of the very best anonymous literature of its era with writing by luminaries such as San Francisco poet Kenneth Rexroth, composer, writer, hobo, Harry Partch and authors Tillie Olsen and Kenneth Patchen. [Right Out of California](#) Kathryn S. Olmsted, 2010-05-11

Olmsted finds in Depression era California the crucible for strong arm policies against farm workers that bolstered the conservative movement. Kirkus Reviews: At a time when a resurgent immigrant labor movement is making urgent demands on twenty first century America and when a new and virulent strain of right wing anti immigrant populism is roiling the political waters, *Right Out of California* is a fresh and profoundly relevant touchstone for anyone seeking to understand the roots of our current predicament. This major reassessment of modern conservatism reexamines the explosive labor disputes in the agricultural fields of Depression era California, the cauldron that inspired a generation of artists and writers and that triggered the intervention of FDR's New Deal. Noted historian Kathryn S. Olmsted tells how this brief moment of upheaval terrified business leaders into rethinking their relationship to American politics, a narrative that pits a ruthless generation of growers against a passionate cast of reformers, writers and revolutionaries. Olmsted's vivid accomplished narrative really belongs to the historiography of the left. As her strong research shows, race and gender prejudice informed or deformed almost the whole of American social and cultural life in the 1930s and was as common on the left as on the right. *The New York Times Book*

Review An accessible work that aids in contextualizing the rise of future conservative leaders such as Richard Nixon and Ronald Reagan Publishers Weekly A major reworking of the Republican right s origins this is also a compelling read for anyone interested in California s outsize importance in America s recent past Darren Dochuk author of From Bible Belt to Sunbelt

**The Gateway to the Pacific** Meredith Oda,2018-12-27 In the decades following World War II municipal leaders and ordinary citizens embraced San Francisco s identity as the Gateway to the Pacific using it to reimagine and rebuild the city The city became a cosmopolitan center on account of its newfound celebration of its Japanese and other Asian American residents its economy linked with Asia and its favorable location for transpacific partnerships The most conspicuous testament to San Francisco s postwar transpacific connections is the Japanese Cultural and Trade Center in the city s redeveloped Japanese American enclave Focusing on the development of the Center Meredith Oda shows how this multilayered story was embedded within a larger story of the changing institutions and ideas that were shaping the city During these formative decades Oda argues San Francisco s relations with and ideas about Japan were being forged within the intimate local sites of civic and community life This shift took many forms including changes in city leadership new municipal institutions and especially transformations in the built environment Newly friendly relations between Japan and the United States also meant that Japanese Americans found fresh if highly constrained job and community prospects just as the city s African Americans struggled against rising barriers San Francisco s story is an inherently local one but it also a broader story of a city collectively if not cooperatively reimaging its place in a global economy

**California Gold** Catherine Hiebert Kerst, 2024-04-02 California Gold offers a compelling cultural snapshot of a diverse California during the 1930s at the height of the New Deal drawing on the career of folk music collector Sidney Robertson and the musical culture of often unheard voices Robertson an intrepid young woman armed only with a map her notebooks and the recording equipment of the time proposed and directed a New Deal initiative the WPA California Folk Music Project designed to survey musical traditions from a wide range of English speaking and immigrant communities in Northern California In California Gold Catherine Hiebert Kerst explores Robertson's distinctive and modern approach to

the Party blends the historical record with narrative fiction fitting Amy's life and times **Berkeley and the New Deal**

Harvey L. Smith, 2014-10-13 Berkeley's 1930s and early 1940s New Deal structures and projects left a lasting legacy of utilitarian and beautiful infrastructure. These public buildings, schools, parks, and artworks helped shape the city and thus the lives of its residents; it is hard to imagine Berkeley without them. The artists and architects of these projects mention several themes: working for the community, responsibility, the importance of government support, collaboration, and creating a cultural renaissance. These New Deal projects, however, can be called hidden history because their legacies have been mostly ignored and forgotten. Comprehending the impact of the New Deal on one American city is only possible when viewed as a whole. Berkeley might have gotten a little more or a little less New Deal funding than other towns, but this time it wasn't Berkeley, but very much typical and mainstream. More than history, this book shows the period's relevance to today's social, political, and economic realities. The times may again call for comprehensive public policy that reaches Main Street. **Homes of**

**Hollywood Stars** Barry Moreno, 2019 *Homes of Hollywood Stars* highlights the souvenir postcards and folders that were sold to millions of tourists who visited Hollywood between 1920 and 1970, an era known as the Golden Age of Hollywood. Some of the actors of those years permitted their elegant residences to be photographed for the pleasure of their fans who wanted to know something about the off-screen lives of their favorite players. Usually located in exclusive communities like Beverly Hills, Brentwood, Bel Air, Holmby Hills, Pacific Palisades, or Palm Springs, the houses were designed to show that the performer had achieved the sort of wealth and acclaim that only Tinseltown could grant. This book highlights screen favorites such as Mary Pickford, Charlie Chaplin, Gloria Swanson, Norma Talmadge, Rudolph Valentino, Clara Bow, Clark Gable, Jean Harlow, Norma Shearer, Bing Crosby, Ginger Rogers, Gary Cooper, and Marilyn Monroe. The Depression Era Aaron Barlow, 2016-06-20

Through a diversity of primary source resources that include works by politicians and literary figures, book reviews, and interviews, this book enables student readers to better understand literature of the Great Depression in context through original documents. Oklahoma drought refugees seeking livelihood in California, rural white Mississippians, and African American migrants making new lives in Chicago all represented the dramatic transitions across the spectrum of American life during the Great Depression. These vastly different groups of Americans still shared common experiences of desperation and poverty during the 1930s. This book focuses on literary works by three Depression-era authors: William Faulkner, John Steinbeck, and Richard Wright, and supplies dozens of primary source documents that serve to illuminate the harsh realities of life in the 1930s and enable students to better appreciate key pieces in American literature from the Great Depression era. *The Depression Era: A Historical Exploration of Literature* gives readers historical context for multiple works of American literature about the Great Depression through a wide range of features, including chronologies, essays explaining key events, and primary document excerpts, as well as support materials that include activities, lesson plans, discussion questions, topics for further research, and suggested readings. The book's coverage includes William Faulkner's *As I Lay Dying* (1930), John

Steinbeck's *Of Mice and Men* 1937 *The Grapes of Wrath* 1939 and Richard Wright's *Native Son* 1940      Confidential  
Confidential Samantha Barbas, 2018-09-04 In the 1950s *Confidential* magazine America's first celebrity scandal magazine revealed Hollywood stars' secrets, misdeeds and transgressions in gritty, unvarnished detail. Deploying a vast network of tipsters to root out scandalous facts about the stars, including sexual affairs, drug use and sexual orientation, publisher Robert Harrison destroyed celebrities' carefully constructed images and built a media empire. *Confidential* became the bestselling magazine on American newsstands in the 1950s, surpassing *Time*, *Life* and the *Saturday Evening Post*. Eventually, the stars fought back, filing multimillion-dollar libel suits against the magazine. The state of California, prodded by the film studios, prosecuted Harrison for obscenity and criminal libel, culminating in a famous star-studded Los Angeles trial. This is *Confidential's* story, detailing how the magazine revolutionized celebrity culture and American society in the 1950s and beyond. With its bold red, yellow and blue covers, screaming headlines and tawdry stories, *Confidential* exploded the candy-coated image of movie stars that Hollywood and the press had sold to the public. It transformed America from innocents to more sophisticated, worldly people, wise to the phony and constructed nature of celebrity. It shifted reporting on celebrities from an enterprise of concealment and make-believe to one that was more frank, bawdy and true. *Confidential's* success marked the end of an era of hush-hush, secrets, closets and sexual taboos and the beginning of our age of tell-all exposure.

**Global West, American Frontier** David M. Wrobel, 2013-10-15 This book examines how travel writers viewed the American West from the age of Manifest Destiny through the Great Depression. In the nineteenth century, the West was often presented as one developing frontier; among many in the twentieth century, travel writers often searched for American frontier distinctiveness. Provided by publisher      **Crush** John Briscoe, 2018-09-04 Winner Top Shelf Magazine Book Awards Historical Non-fiction Finalist Northern California Book Awards General Non-Fiction Look Smell Taste Judge *Crush* is the 200-year story of the heady dream that wines as good as the greatest of France could be made in California. A dream dashed four times in merciless succession until it was ultimately realized in a stunning blind tasting in Paris. In that tasting, in the year of America's bicentennial, California wines took their place as the leading wines of the world. For the first time, Briscoe tells the complete and dramatic story of the ascendancy of California wine in vivid detail. He also profiles the larger story of California itself by looking at it from an entirely innovative perspective: the state seen through its singular wine history. With dramatic flair and verve, Briscoe not only recounts the history of wine and winemaking in California; he encompasses a multidimensional approach that takes into account an array of social, political, cultural, legal and winemaking sources. Elements of this history have plot lines that seem scripted by a Sophocles or Shakespeare. It is a fusion of wine, personal histories, cultural and socioeconomic aspects. *Crush* is the story of how wine from California finally gained its global due. Briscoe recounts wine's often fickle affair with California, now several centuries old from the first harvest and vintage through the four overwhelming catastrophes to its amazing triumph in Paris      John Fante's Ask the Dust Stephen
