when out of control crime forced the end of the highly ineffective city marshal's office. With violence on every corner and Tombstone's venerable Wyatt Earp running the marshals, gambling interests change was desperately needed. But the first days of the SDPD weren't easy. Within two years of its formation, the city's economy tanked, 36,000 of the town's 40,000 citizens left, and the department's newly appointed chief refused to take the job. Still, San Diego eventually developed into one of the nation's largest cities and most popular tourist destinations. Today, more than 2,000 highly trained sworn SDPD officers, 700 support staff, and more than 1,000 volunteers form one of the world's most innovative and internationally recognized police forces.

The contents of these volumes represent all current regulations codified under this title of the CFR as of July 1, 2017.      Congressional Record United States. Congress, 1995      The Interception of Vessels on the High Seas Efthymios Papastavridis, 2014-08-28. The principal aim of this book is to address the international legal questions arising from the right of visit on the high seas in the twenty-first century. This right is considered the most significant exception to the fundamental principle of the freedom of the high seas: the freedom in peacetime to remain free of interference by ships of another flag. It is this freedom that has been challenged by a recent significant increase in interceptions to counter the threats of international terrorism and WMD proliferation or to suppress transnational organised crime at sea, particularly the trafficking of narcotics and smuggling of migrants. The author questions whether the principle of non-interference has been so significantly curtailed as to have lost its relevance in the contemporary legal order of the oceans. The book begins with an historical and theoretical examination of the framework underlying interception. This historical survey informs the remainder of the work, which then looks at the legal framework of the right of visit, contemporary challenges to the traditional right of interference on the high seas for the maintenance of international peace and security, interferences to maintain the bon usage of the oceans, navigation and fishing, piracy, *j ure gentium* and current counter-piracy operations off the coast of Somalia, the problems posed by illegal, unregulated and unreported fishing, interdiction operations to counter drug and people trafficking, and recent interception operations in the Mediterranean Sea organised by FRONTEX.
