*Biblical Eschatology:* Dr. Justin G. Prock,2021-06-20 In recent history men from a variety of backgrounds have come to the same conclusion that the Bible is about Israel only For example In 1861 John Mason Neale translated an ancient twelfth century Latin hymn and its title was O Come O Come Emmanuel Ever since 1861 Christians have sung that hymn at Christmas time especially at Advent Do you know what the words really mean that you are singing In 1878 Edward Hine wrote an article titled Seven Eighths of the Bible Misunderstood wherein he explains that seven eighths of the Bible is about national salvation i e the national salvation of True Israel whereas only one eighth of the Bible is about personal salvation Did you know that In the 1960 s Pastor Sheldon Emery wrote an article title An Open Letter to Any Minister Who Teaches the Jews Are Israel wherein he is of the opinion that the Israel that exists today since 1948 is not the True Israel of the Bible In 1998 Arnold E Kennedy wrote a book titled The Exclusiveness of Israel wherein he legally proves using the King James Version of the Bible that the Bible in general is only about True Israel So here we are in the Twenty First Century and the Gospel that is preached today is totally convoluted from that which was preached in the First Century A D by Yahshuah and His disciples i e the Gospel of the Kingdom So where did

the so called churches and pastors go wrong By the way is there really a hierarchy in the Bible In order to find out what the truth really is we have to look at the original languages in which the Bible was written and then translated For example the Old Testament was written in Hebrew and Aramaic then translated into Greek The New Testament was written in Hebrew and Greek Both Testaments were put together and translated into Latin then German and finally into English from which the entire world received their own translation of the Bible So what was the original meaning of the words used in the original languages i e the etymology of the words Once that is determined then we can go onto the next phase and discuss types in the Bible From there what is the Law of First Mention How should Bible prophecy be Interpreted Who are the keys to Bible prophecy Where are we in the Bible prophecy timeline During these discussions we will find out who Yahweh chose of all the families of the earth to make His own The churches teach universalism The question then becomes Who was Yahweh s Law given to What are the Laws of Yahweh And then the even bigger question becomes Who was Yahshuah sent to All of these questions and more will be answered as you read this book

Transportation: Part II** Neville Stanton, Steven Landry, Giuseppe Di Bucchianico, Andrea Vallicelli, 2021-07-19 Human  
Factors and Ergonomics have made a considerable contribution to the research design development operation and analysis of  
transportation systems which includes road and rail vehicles and their complementary infrastructure aviation and maritime  
transportation This book presents recent advances in the Human Factors aspects of Transportation These advances include  
accident analysis automation of vehicles comfort distraction of drivers understanding of distraction and how to avoid it  
environmental concerns in vehicle systems design intelligent transport systems methodological developments new systems  
and technology observational and case studies safety situation awareness skill development and training warnings and  
workload This book brings together the most recent human factors work in the transportation domain including empirical  
research human performance and other types of modeling analysis and development The issues facing engineers scientists  
and other practitioners of human factors in transportation research are becoming more challenging and more critical The  
common theme across these sections is that they deal with the intersection of the human and the system Moreover many of  
the chapter topics cross section boundaries for instance by focusing on function allocation in NextGen or on the safety  
benefits of a tower controller tool This is in keeping with the systemic nature of the problems facing human factors experts in  
rail and road aviation and maritime research it is becoming increasingly important to view problems not as isolated issues  
that can be extracted from the system environment but as embedded issues that can only be understood as a part of an  
overall system
