Hopkins, 2010-06-15 *Life After Life* is the haunting and gloriously redemptive tale of Evans D. Hopkins's many lives: a sweeping journey from promising middle class youth to civil rights militant, from criminal and convict to celebrated writer and enlightened man. Evans D. Hopkins was born during the Jim Crow era in a second rate segregated hospital and educated in segregated primary schools in Danville, Virginia, a town that proudly proclaimed itself the Last Capital of the Confederacy. With parents who stressed the value of education, as a teenager he was in the forefront of desegregation and the Civil Rights Movement. At the same time, he fell in love with the traditionally white man's game of tennis, modeling himself after his idol, the legendary Arthur Ashe, only to be swept off the courts by the Black Panther Party at the age of sixteen. Just out of high school, Hopkins moved to Panther headquarters in Oakland, California, where he spent two years writing for the Party newspaper, covering the trial of the San Quentin Six, working with Party founders Huey Newton and Bobby Seale, and taking part in their move into politics when Seale ran for mayor of Oakland. He became historian for the group, documenting the years when altercations with authorities resulted in the deaths of numerous Panthers. And he was witness to the internal strife within the Party that led to the group's decline and his own decision to leave in the fall of 1974. When he returned to Danville, Hopkins was a different man: disillusioned and filled with rage, and a legacy of militancy. He was, in his own words, the quintessential angry young black man. Convicted of armed robbery and given a life sentence, Hopkins would spend twenty of the next twenty-two years in the prisons of Virginia, inside fighting despair and isolation and dreaming of escape. Hopkins sought salvation in the written word, writing in his cell in the early morning hours to escape the noise of the prison. Focusing on issues of social and criminal injustice, Hopkins would begin reaching a national audience when his inside account of an

execution Who's Afraid of Virginia's Chair was published in The Washington Post Paroled in 1997 Hopkins returned home a free man at last but facing the overwhelming challenges of caring for his aging parents and daily life in a world that was new after so many years of incarceration In this stunning look back at a man's struggle with himself and the world around him Life After Life is also about the influences that sustained Hopkins's development despite overwhelming odds influences that allowed him to emerge from two decades of imprisonment an uncorrupted man still able to give to his family and community Finally Life After Life is a searingly honest view of events in America in the second half of the twentieth century as seen through the eyes of a child a militant a prisoner and most important a writer *U.S. News & World Report*, 2008 Will Fair Use Survive? Free Expression in the Age of Copyright Control Marjorie Heins, 2005 In late 2004 the Brennan Center for Justice began a research project to learn how well fair use and free expression are faring among artists scholars and others who make critical contributions to culture and democratic discourse Our discussions with members of PEN American Center Women Make Movies the College Art Association and the Location One Gallery yielded two common themes The first was that artists and scholars have great interest in and confusion about fair use The second was a need for community support and pro bono legal assistance in their dealings with publishers distributors and other cultural gatekeepers **The Volterra Chronicles** Judith R. Goodstein, 2007 The life of Vito Volterra one of the finest scientists and mathematicians Italy ever produced spans the period from the unification of the Italian peninsula in 1860 to the onset of the Second World War an era of unparalleled progress and unprecedented turmoil in the history of Europe Born into an Italian Jewish family in the year of the liberation of Italy's Jewish ghettos Volterra was barely in his twenties when he made his name as a mathematician and took his place as a leading light in Italy's modern scientific renaissance By his early forties he was a world renowned mathematician a sought after figure in European intellectual and social circles the undisputed head of Italy's mathematics and physics school and still living with his mother who decided the time was ripe to arrange his marriage When Italy entered World War I in 1915 the fifty five year old Volterra served with distinction and verve as a lieutenant and did not put on civilian clothes again until the Armistice of 1918 By This book based in part on unpublished personal letters and interviews traces the extraordinary life and times of one of Europe's foremost scientists and mathematicians from his teenage struggles to avoid the stifling life of a respectable bank clerk in Florence to his seminal mathematical work which today influences fields as diverse as economics physics and ecology and from his spirited support of Italy's scientific and democratic institutions during his years as an Italian Senator to his steadfast defiance of the Fascists and Mussolini In recounting the life of this outstanding scientist European Jewish intellectual committed Italian patriot and devoted if frequently distracted family man The Volterra Chronicles depicts a remarkable individual in a prodigious age and takes the reader on a vivid and splendidly detailed historical journey Information for our distributors Copublished with the London Mathematical Society beginning with Volume 4 Members of the LMS may order directly from
